[Bubble Tea](#) Ryland Peters & Small, 2024-06-11 50 recipes for the deliciously fun and colourful Taiwanese tea drink that everyone's talking about! Bubble tea, also known as boba milk tea, is a Taiwanese drink that has become hugely popular around the globe. The first bubble tea shop opened in Taichung, Taiwan, in 1988 and sold milk teas with chewy boba. Since then, bubble tea fever has spread all over Asia, Australia and beyond. In 2009 bubble tea shops began opening in North America and Europe and in the past few years the trend is growing at an exponential rate. Bubble tea is a drink made from tea and milk, and includes other ingredients such as tapioca balls, popping boba, fruit jelly or 'nata de coco' (coconut gel). It is often also finished with a whipped 'crown' topping made from cream cheese. The name bubble tea comes from the balls or boba that are added to the drink and float in the transparent cup when the drink is shaken. These are sucked up from the

drinks through special oversized bubble tea straws. There are two main types of bubble tea base: the traditional black, green and oolong tea-based ones and fruit-flavoured drinks such as mango and strawberry, but you can make bubble tea from almost anything you fancy and it can also form the base of a whole range of virgin and alcoholic bubble tea cocktails too! If you haven't tried a bubble tea yet where have you been?

Boba Linda Pierce,2021-04-12 Bubble Tea is for every Kid, Adult and the Elderly, who wants to boost their energy and Heart Health, but can't find the food that has all these benefits altogether. it is known to be essential in strengthening the immune system, boosting Energy, Heart health, anti-inflammatory, a good source of Calcium and Protein. In simple terminology, Boba is cassava starch balls. In explicit terminology, the word boba can holistically, maintain a reference to the complete drink-plus-toppings, typically the most popular topping being tapioca pearls (which also are called boba. I understand it's confusing, but stick with me!). The drink all together is also referred to as bubble tea, pearl tea, and tapioca tea; based on what area of the country you're from. As mentioned before, the tapioca pearls, which are also known as boba, are usually created from cassava starch, a root vegetable from South USA that is generally known as Yuca. Bubble tea first became popular in Taiwan in the 1980s; however, the original inventor is unknown. Larger tapioca pearls were adapted and quickly replaced the tiny pearls. Immediately after, different flavors, especially fruit flavors, became popular. Flavors could be added using powder, pulp, or syrup to oolong, black or green tea extract that is then shaken with ice in a cocktail shaker. The tea mixture is then poured right into a cup using the toppings in it. There are various available stores, today, that focus on bubble tea. Some cafés use plastic lids, but even more, authentic bubble tea shops serve drinks utilizing a machine to seal the very best in the cup with plastic cellophane. The latter method allows the tea to become shaken within the serving cup and helps it be spill-free until one is preparing to drink it. The cellophane is then pierced with an oversize straw large enough to permit the toppings to feed. Today, more flavors of this drink such as black tea and brown sugar have appeared. In Taiwan, people commonly refer to it as pearl milk tea.
