Capitalism's New Clothes Ciara Cremin, 2011-05-06 From broadsheet newspapers to television shows and Hollywood films, capitalism is increasingly recognised as a system detrimental to human existence. Colin Cremin investigates why, despite this de-robing, capitalism remains a powerful and seductive force. Using materialist, psychoanalytic and linguistic approaches, Cremin shows how capitalism, anxiety and desire enter into a mutually supporting relationship. He identifies three ways in which we are tied in to capitalism – through a social imperative for enterprise and competition; through enjoyment and consumption; and through the depoliticisation of ethical debate by government and business. *Capitalism's New Clothes* is ideal for students of sociology and for anyone worried about the ethics of capitalism or embarrassed by the enjoyments the system has afforded them.

The Birds World Nicolae Sfetcu, 2021-10-25 Birds are among the most extensively studied of all animal groups. Hundreds of academic journals and thousands of scientists are devoted to bird research, while amateur enthusiasts (called birdwatchers or, more commonly, birders) probably number in the millions. Birds are categorised as a biological class, Aves. The earliest known species of this class is *Archaeopteryx lithographica*, from the Late Jurassic period. According to the most recent consensus, Aves and a sister group, the order Crocodilia, together form a group of unnamed rank, the Archosauria. Phylogenetically, Aves is usually defined as all descendants of the most recent common ancestor of modern birds (or of a specific modern bird species like *Passer domesticus*), and *Archaeopteryx*. Modern phylogenies place birds in the dinosaur clade Theropoda. Modern birds are divided into two superorders, the Paleognathae (mostly flightless birds like ostriches), and the wildly diverse Neognathae, containing all other birds.

The Rough Guide to Cult Movies Paul Simpson, Helen Rodiss, Michaela Bushell, 2004 A comprehensive overview of cult movies that profiles cult films from every genre and includes trivia about films, actors, producers, and backstage happenings.

Scary Monsters Mark Duffett, Jon Hackett, 2021-01-14 Popular music and masculinity have rarely been examined through the lens of research into monstrosity. The discourses associated with rock and pop, however, actually include more 'monsters' than might at first be imagined. Attention to such individuals and cultures can say things about the operation of genre and gender, myth and meaning. Indeed, monstrosity has recently become a growing focus of cultural theory. This is in part because monsters raise shared concerns about transgression, subjectivity, agency, and community. Attention to monstrosity evokes both the spectre of projection (which invokes familial trauma and psychoanalysis) and shared anxieties (that in turn reflect ideologies and beliefs). By pursuing a series of insightful case studies, *Scary Monsters* considers different aspects of the connection between music, gender and monstrosity. Its argument is that attention to monstrosity provides a unique perspective on the study of masculinity in popular music culture.

Conquest of the Useless Werner Herzog,2024-05-28 Newly repackaged as a Penguin paperback, *Conquest of the Useless*, the legendary filmmaker Werner Herzog's diary of the making of *Fitzcarraldo*, one of his most revered and classic films. In 1982, the visionary director Werner Herzog released *Fitzcarraldo*, a lavish film about a would-be rubber baron who pulls a 320-ton steamship over a mountain. It was hailed instantly by critics around the globe as a masterpiece and won Herzog the 1982 Outstanding Director Prize at the Cannes Film Festival, affirming Herzog's reputation as one of the most revered and enigmatic filmmakers of his time. *Conquest of the Useless* is the diary Herzog kept during the making of *Fitzcarraldo*, compiled from June 1979 to November 1981. Emerging as if out of an Amazonian fever dream during filming, Herzog's writings are an extraordinary documentary unto themselves. Strange and otherworldly events are recounted by the filmmaker. The crew's camp in the heart of the jungle is attacked and burned to the ground; the production of the film clashes with a border war; and, of course, Herzog unravels the impossible logistics of moving a 320-ton steamship over a hill without the use of special effects. In his preface, Herzog warns that the diary entries collected in *Conquest of the Useless* do not represent "reports on the actual filming" but rather "inner landscapes, born of the delirium of the jungle." Thus begins an extraordinary glimpse into the mind of a genius during the making of one of his greatest achievements.
