Canadian Reference Sources Mary E. Bond,Martine M. Caron,1996 This bibliography cites those Canadian and foreign reference sources that describe Canadian people, institutions, organizations, publications, art, literature, languages, and history. It lists books of a general nature as well as works in the disciplines of history and the humanities. These large divisions are then broken down by subject, genre, type of document, and province or territory. Titles of national, provincial/territorial, or regional interest are included in every subject area when available. The contents of the book are indexed four ways: by name, title, French subject, and English subject. And to facilitate browsing, the major reference books (those dealing with more than one subject or a large geographical region) are also cross-referenced. Two entries have been created for each bilingual document in order to provide access and bibliographical descriptions in both of Canada's official languages. Entries for unilingual works include a citation in the language of the publication and a bilingual annotation. The annotations are descriptive and provide information on the content, arrangements, and indexing of works; the availability of non-print formats; previous editions and title changes; and related works. Canadian Reference Sources will be an invaluable reference tool for future scholars and researchers.

The Art of Impressionism Anthea Callen, 2000-01-01 Drawing on scientific studies of pigments and materials, artists' treatises, colourmen's archives, and contemporary and modern accounts, Anthea Callen demonstrates how raw materials and paintings are profoundly interdependent. She analyses the material constituents of oil painting and the complex processes of 'making' entailed in all aspects of artistic production, discussing in particular oil painting methods for landscapists and the impact of plein air light on figure painting, studio practice and display. Insisting that the meanings of paintings are constituted by and within the cultural matrices that produced them, Callen argues that the real 'modernity' of the Impressionist enterprise lies in the painters' material practices.--BOOK JACKET.
