Arthur Mee

The Story of Bes - Anniversary Edition MS Shelli Wright Johnson, 2017-12-13 Two worlds collide when Andy experiences a close encounter of the weirdest kind while exploring the far reaches of his grandmother's jumbled attic. There among the tantalizing piles, Andy uncovers a mysterious scroll filled with indecipherable text and suddenly finds himself eyeball to eyeball with Bes - the undersized, overstuffed, protruding-tongued god of ancient Egyptian legend! Although Bes makes clear his intent to return the crumbling document to its rightful homeland, Andy is reluctant to surrender his newly found treasure. While vying for control of the scroll, Andy persuades Bes to tell the epic tale recorded in those hieroglyphs - a tale that takes place in a world filled with magic and ruled by immortals; a golden age so remote even the ancients referred to it as the First Time. Bes sets the stage by providing a crash course in the creation of the world (Egyptian style) and introducing the original gods of the ancient Egyptian pantheon before diving into the cosmic rumble between Osiris, Isis, and their conniving brother Set - the world's first and deadliest game of thrones. So begins, The Story of Bes... The original Story of Bes was published nearly two decades ago with a Foreword by John Anthony West. This is the updated and substantially expanded Anniversary Edition, which also contains an in-depth glossary of the many historical and mythological terms used in the story as a ready reference for those wishing to learn more about the magic and mystery of Bes's ancient homeland. Reviews: Shelli Wright Johnson has her heart in ancient Egypt. And through her extensive travels in that sacred land of the gods and goddesses, she has produced a wonderful story of Bes that will delight young and old. - Robert Bauval, international best-selling author of The Orion Mystery and Secret Chamber Revisited. Shelli Wright Johnson captures the spirit of Bes like no other, and breathes new life into the magical tales of old. -Mohamed Nazmy, President of Quest Travel, Cairo, Egypt, and co-author of The Modern Day Alchemist from the Land of the Pharaohs. Reading level: Ages 10 and up

Disability in Ancient Egypt and Egyptology Alexandra F. Morris, Hannah Vogel, 2024-12-13 This book explores disability across time and space—from 'ancient Egypt' as a culture to Egyptology as a contemporary field—to go beyond simply identifying disability, encouraging readers to thoughtfully consider the history of disabled people in ancient Egypt and Egyptology. Through a critical investigation, this volume reshapes often-overlooked narratives of disability within the discipline of Egyptology and Egyptian Archaeology. Chapters explore evidence of disability, the historiographical ways in which disability has been approached, and how disability histories are (mis)represented in various contemporary spaces.

Coverage stretches across Egypt and Nubia from the Predynastic to the Roman periods, as well as receptions of these cultures and disability in museums. Its editors and many of its authors are disability community members who are experts in their respective professions, comprising an international authorship and including voices from typically underrepresented groups. Contributors range from early career researchers to senior scholars, as well as those working outside of and adjacent to academia. While focusing on ancient Egypt and Egyptology, this volume offers new ways to consider disability in the broadest possible sense. It uses terminology informed by the disability community and offers guidance for disability inclusivity in curatorial and pedagogical museum and university contexts. It prioritises disability as an essential area of research in ancient world studies, and platforms both ancient and modern disabled voices. The deep, detailed exploration into disability in the past and in our discipline offered by this book inspires readers to further explore and appreciate the infinite diversity of the human experience in all its infinite combinations. The first-book length treatment of the subject, *Disability in Ancient Egypt and Egyptology* provides a much-needed resource for students and scholars of ancient Egypt, Egyptology, and disability in the ancient world. It is also suitable for researchers in Disability Studies, practitioners in broader ancient world studies, and museum and heritage professionals. Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license.

The Story of Bes Shelli Wright Johnson, 2000-12-01 Two worlds collide as Andy, a modern day boy, experiences an encounter of the weirdest kind in the jumbled attic of his recently deceased grandmother. It is there among the piles of his grandmother's treasures that Andy comes face to face with Bes, the pint-sized god of ancient Egyptian legend, who has come to recover a lost scroll containing a very special story: *The Story of Bes*.

Hidden Treasures of Ancient Egypt Zahi A. Hawass, 2004 The Egyptian Museum in Cairo is Home to some of the most exquisite artifacts in existence, yet many of these wonders have never been seen outside Egypt. Now, for the first time, world-famous Egyptologist Zahi Hawass takes readers on a tour of these long-lost antiquities and shares the adventures that led to their discoveries. Readers will marvel at the astonishing stories behind these dazzling treasures -- from the leg-endar-y unearthing of the tomb of boy king Tutankhamun, who ruled Egypt more than 3,000 years ago, to the modern-day photographer who discovered a royal burial shaft when he tripped over it while setting up his tripod. Many of the fabulous antiquities featured here were left to languish in storerooms all over the country and only recently were rediscovered. Hawass provides invaluable insights into what they meant to ancient Egyptians and what they now signify to us in the 21st century. Featuring exquisite photographs and enlightening commentary, Hidden Treasures of Ancient Egypt will delight Egyptophiles and history buffs and shed new light on some of the great mysteries of this ancient civilization. Disability in Ptolemaic Egypt and the Hellenistic World Alexandra F. Morris, 2024-12-20 This is one of the first single-authored books to utilise Critical Disability Studies and the lens of embodiment to comprehensively unveil, explore, and celebrate disability in Ptolemaic Egypt and the Hellenistic world through a critical examination of art, artefacts, texts, and human remains. Through a thoughtful investigation, this volume reveals often-overlooked narratives of disability within Ptolemaic Egypt and the larger Hellenistic world (332 BCE to 30 BCE). Chapters explore evidence of physical and intellectual disability, ranging from named individuals; representations of people and mythological figures with dwarfism, blindness and vision impairments; cerebral palsy; mobility impairments; spinal disability; and medicine, healing, and prosthetics. Morris examines the historiographical ways in which disability has been approached, and how ancient disability histories are (mis)represented in various contemporary spaces. It uses terminology informed by the disability community and offers guidance for disability inclusivity in curatorial and pedagogical museum and university contexts, as well as prioritizing disability as an essential area of research in ancient world studies and assisting readers with the identification of ancient disability artefacts. The first-book length treatment of the subject, Disability in Ptolemaic Egypt and the Hellenistic World provides a much-needed resource for students and scholars of ancient Egypt, Egyptology, Classics, Classical Studies, and disability in the ancient world. It is also suitable for researchers in Disability Studies, practitioners in broader Ancient World Studies, and museum and heritage professionals. It is accessible to disabled people curious about their own history, as well as nondisabled people interested in disability history and those interested in a more accurate view of ancient Egyptian

history.

Envisioning Magic Peter Schäfer, Hans Hans Gerhard Kippenberg, 1997-01-01 This collection of twelve articles presents a selection of papers delivered in the course of a seminar 1994-95 and its concluding international symposium at the Institute for Advanced Study in Princeton. The common theme is the interrelation between magic and religion, focussing particularly on the Mediterranean world in Antiquity - Egyptian, Graeco-Roman and Jewish beliefs and customs - but also treating the early modern period in Northern Europe (the Netherlands and Germany) as well as offering more general reflections on elements of magic in language and Jewish mysticism. The volume is characterized by an interdisciplinary approach and the use of varied methodologies, emphasizing the dynamic nature of the often contradictory forces shaping religious beliefs and practices, while dismissing the idea of a linear development from magic to religion or vice versa. The contributors are outstanding scholars in their fields: Ancient, Medieval and Modern History, Religious Studies, Jewish Studies, Classical Studies, Early Christianity, Islamic Studies, Anthropology, Egyptology and Comparative Literature. Without a doubt this re-evaluation of a fascinating age-old subject will stimulate scholarly discussion and appeal to educated non-specialist readers as well.
