Active Learning for Digital Transformation in Healthcare Education, Training and Research Miltiadis Lytras,Cristina Vaz De Almeida,2023-09-06 Active Learning for Digital Transformation in Healthcare Education, Training and Research discusses the potential of advanced training of health professionals as a contributing factor to improve treatment outcomes. By reading this book, professionals who deal with patients with low health literacy will be prepared to promote better access to digital tools, understand the habits of users of health services, and empower engagement. The book contains a set of techniques and instruments associated with health literacy, communication skills and personal development that will enable their application in good daily practices and assist healthcare professionals to promote digital transformation to patients. This is a valuable resource for researchers, graduate students and healthcare professionals who are interested in learning more about how they can be an effective agent of change in healthcare. - Discusses the potential of patient education through the training of health professionals to improve patient engagement and adherence to treatment - Presents techniques from real-world examples to demonstrate the efficacy of better communication between health professionals and patients, especially in the digital medicine era - Outlines digital tools that can be used to strengthen the healthcare professional-patient relationship

Gerontechnology VI Lara Guedes de Pinho,César Fonseca,Enrique Moguel,2025-05-01 This book gathers peer-review contributions to the 7th International Workshop on Gerontechnology, IWOG 2024, held on November 28, 2024, in Évora, Portugal. They report on cutting-edge technologies and optimized workflows for promoting active aging and assisting older adults at home, as well as in healthcare centers. They discuss the main challenges in the development, use and delivery of health care services and technologies. Besides proposing solutions for improving monitoring and management of health parameters and age-related diseases, the chapters also describe approaches for helping seniors in their daily tasks and facilitating their communication and integration with assistive technologies. All in all, this book provides health professionals, researchers, and service providers with extensive information on the latest trends in the development and application of gerontechnology, with a special emphasis on improving quality of life and social integration of the elderly.

The Dao of Healing Lai Pak-Wah,2018-08-01 The last 50 years have seen the popularity of Chinese medicine grow

exponentially. In China, Korea, Japan and Singapore, Chinese medicine has been incorporated into their healthcare systems to varying degrees. In the West, it is no longer uncommon for patients to consult Chinese medicine doctors, many of whom are non-Chinese. However, among Christians in many parts of the developed world, Chinese medicine is still viewed with suspicion and negativity. Are these fears justified? How can we better understand the roots and practices of Chinese medicine? The Dao of Healing takes us on an in-depth exploration of the histories and philosophies that have shaped both Western biomedicine and Chinese medicine in order that we might make informed judgements about them. If our call is to “love our neighbours”, we need to be able to dialogue with them on the basis of mutual respect and understanding. Let this book be the catalyst for meaningful and productive conversations across the divide.

Understanding the Behavioral and Medical Impact of Long COVID Leonard A. Jason, Charles Lapp, 2023-04-13
Understanding the Behavioral and Medical Impact of Long COVID serves to expand the research around the illness in order to enable health care researchers and practitioners to address the questions that are imperative to individuals suffering from this condition. Through its multi-faceted approach, the book puts forth a maturation of research and interventions that are theoretically sound, empirically valid, innovative, and creative in the Long COVID area. As a scholarly and scientific compilation of Long COVID symptoms and related disorders, this book offers unparalleled insight into the critical developments across medical areas treating this illness. It helps to fill the space that the pandemic had created for knowledge of the condition, and contributes to the emerging emphasis on translational research blending the social sciences and biological fields. By putting forth the most optimal medical care practices in the treatment of complex Long COVID symptoms, this practical anthology will serve as a guide for practicing clinicians in assessment as well as treatment. It will also benefit researchers aiming to gain more understanding of Long COVID through its discussion around the critical developments in other medical areas treating the condition, and paves the way for the collaboration and future research needed to best support the global effort to mitigate the effects of this illness. This book will be essential reading for academics, practitioners, and researchers. It will appeal to individuals engaging with the fields of medicine, public policy, psychology, and for researchers looking to gain clarity about our current understanding of Long COVID. It will further be of interest to public/government agencies, nonprofit organizations, and the general public wanting to gain more information about these ambiguous and evasive symptoms.

Multi-Omics Technology in Human Health and Diseases Muzafar A Macha, Ajaz A. bhat, Tariq A masoodi, 2025-03-17
Multi-Omics Technology in Human Health and Diseases: Genomics, Epigenomics, Transcriptomics, Proteomics, Metabolomics, Radiomics, Multi-omic provides a way forward in understanding complete disease etiology and prognosis. This unique book gives a comprehensive understanding of multi-omics technology and its applications in understanding complex human health and disease and not only introduces the technology, but also its use for biomarker identification, drug

discovery, and disease prognostication. A comprehensive understanding of human health and diseases, particularly cancer, requires knowledge of molecular biomarkers at a multi-omics level, including genome, epigenome, transcriptome, proteome, and metabolome, which is meagerly available or highly lacking among the students and scientific researchers. This book covers all the aspects of multi-omics technology and how this technology can be implemented into scientific research and discovery. *Multi-Omics Technology in Human Health and Diseases: Genomics, Epigenomics, Transcriptomics, Proteomics, Metabolomics, Radiomics*, Multi-omic is the first resource to present the latest information on currently utilized multi-omics technology for big data interpretation and their applications in understanding the complex human pathobiology. This is the perfect resource for researchers, academia, students, as well as the industrial audience. - Presents the most recent advancements in multiomics technology for elucidating complex human pathobiology. - Offers comprehensive insights into understanding disease etiology and prognosis. - Introduces the principles of multiomics technology and its applications in biomarker identification, drug discovery, and disease prognostication. - Explores the tools and methodologies for integrating and interpreting multiomics data sets. - Introduces multiomics databases and visualization web portals. - Provides up-to-date information on the role of multiomics technology in understanding intricate human pathobiology.

Lian Gong Mi Jue: Secret Methods of Acquiring External and Internal Mastery Andrew Timofeevich,Jin Yi Ming,Guo Cui Ya,2007-04 Today as in the ancient time special exercises aimed at acquiring Internal Mastery(GONG FU) are one of the most important elements of Shaolin monks training. Those exercises is the core of the Shaolin martial training, they are the key to the true summit of mastery. An old proverb says: If you exercise only the technique (style) but ignore special training you will be a nobody till your old days. Special training implies particular exercises for developing both WAI ZHUANG - the External Power and NEI ZHUANG - the Internal Power. Those exercises (training procedures) are collected under a common title - LIAN GONG, literally Exercising to Acquire Mastery.
