Reproduction and Succession Robin Fox,1993-01-01 The basis of this extraordinary effort is that all history is the history of reproduction and succession -- in other words, of kinship. Fox claims that anthropology seems to have forgotten this, while sociology never did grasp it, getting bogged down in something called the family. Economics and psychology, for their part, were never much help in the pursuit of cultural universals. Reproduction and Succession is an attempt at a constructive approach from social and evolutionary science to law. Fox tackles Mormon polygamy, the Baby M trials, Sophocle's Antigone, and the problem of the avunculate. It is a search for the universals that connect the rational search for law and the empirical search for anthropology.

The Names of Relationship in English Charles D. Campbell,1905

Rakshabandhan Anjali Jha, Raksha Bandhan is an auspicious festival that celebrates the beautiful bond of brothers and sisters. It is a pledge taken by the brothers to protect and safeguard their sisters in all stages of life. Their precious

relationship of love, care, affection, admiration, and adoration is symbolized by a decorative thread called 'rakhi'. As this occasion is such a blissful and a happier one, our writers are presenting affectionate heartstouching messages, poems, and quotes for their brother and sister and they are showing their immense love for their brother and sister's bond of love and protection.

Willa Cather and the Fairy Tale Marilyn Berg Callander, 1989

Mutuality Matters Herbert Anderson, Edward Foley, 2004 Previous principles of hierarchy, inequality, and duty that defined the relationships between husband, wife, and children have been challenged and often replaced by more fluid bonds of equality, intimacy, emotional self-disclosure, communication, and mutual trust. The key question that has emerged for our times, then, is how exactly do families sustain genuine mutuality, democracy, and strong relationships? Figuring out good answers to this question is the major theme of this book and the origin of the title *Mutuality Matters*.

Together Forever, Don't tell mom, it's like brother and sister's relationship. Relationship of trust. Sister and brothers are also best friends. Sometimes those things which we cannot share with our mother, we often proceed to tell them to our sister and the things which our mom isn't even aware of, the same things are clearly and quickly understood by our sisters. A sister's love for her brother's marriage is hardly as much as anyone else's. While reading this, you must have got reminded of your brother or sister, similar is the relation between brother and sister and sister's love, affection and quarrels with her brother. This fascinating book combines the soulful writings of 50 authors with lovely poems about their sisters. The poems are insightful, due to which all of the readers should relate this book to their own heart.

Safety, Danger, and Protection in the Family and Community Szymon Chrzastowski, Arlene Vetere, 2023-11-08 This book provides an analysis of the meaning of safety and security across the contexts of community and public life, throughout the life span, and within a therapeutic framework, examining threats and the strategies for coping with them. The book starts in Part I with a discussion of general safety and security concepts in the socio-cultural context. Part II of the book details the role of a sense of security in psychological assistance, psychotherapy and supervision, while Part III centres on safety and security at different life stages. Drawing on the tenets of modern attachment theory and trauma theory, chapter authors address questions of safety, danger, and protection for both individuals and groups, across a variety of fields of knowledge and expertise. Themes such as loneliness, play and exploration, evil and forgiveness, health and death, and spirituality and healing are discussed as practice examples, learning points, and tips. A wide range of health and social care professional

practitioners will find this book useful in exploring social, interpersonal, and psychological aspects of safety and security.
