It also made an attempt to provide new and fresh insights for the consideration of thinking marketing plans in today's Global environment. It made use of marketing theories and models taken from textbooks and online resources, but also practical example to further explain five main factors, in order: the consideration involved in deciding the marketing objectives, the marketing audit, principal decisions to be made when preparing a marketing plan, the main criteria for the successful implementation of the marketing plan, and the pros and cons of standardizing the marketing management process.
