Turismo tendencias globales y planificación estratégica - 1ra edición Luis Hernando Jiménez Bulla, 2013-01-01 Turismo, tendencias globales y planificación estratégica es un desarrollo conceptual de la teoría turística y la planificación, mediante la revisión y el análisis de los diferentes conceptos y visiones sobre el turismo, concebidas por teóricos, autoridades e instituciones públicas, mixtas y privadas relacionadas con el sector. Con este trabajo se pretende reunir, en un texto, conceptos, principios, teorías básicas del turismo y guías de planificación, de manera que sirvan de consulta para académicos, investigadores, gobiernos, autoridades del turismo, instituciones oficiales, mixtas y/o privadas, así como para aquellas personas que de alguna manera se encuentran involucradas o desean integrarse en las actividades turísticas. Por otra parte, propende por que las comunidades receptoras y de tránsito sean involucradas en la planificación turística y así puedan, en los diferentes niveles del turismo, obtener los beneficios económicos, sociales y culturales que esta actividad proporciona. Asimismo, se busca que las comunidades visitantes logren satisfacer sus expectativas de viaje, tales como la búsqueda de nuevos aires, recreación, descanso y adquisición de conocimientos; y, que las comunidades de traslado puedan interactuar con los visitantes cuando se desplacen por sus espacios geoculturales, para que, al igual que las receptoras y visitantes, consigan participar de los beneficios del turismo en la medida que las circunstancias lo permitan.

Debates contemporáneos sobre el turismo. Tomo VI. Lugares turísticos: una aproximación desde los imaginarios del turismo, las narrativas y sensorialidades Edna Roza, Martha Lucía Vélez Rivas, 2016 El tomo VI Lugares turísticos: una aproximación desde los imaginarios sociales del turismo, las narrativas y las sensorialidades busca comprender esta temática mediante diez casos de estudio, que se exponen desde cuatro ejes organizados de acuerdo con la escala territorial en donde las regiones, las ciudades, los municipios y las áreas naturales tienen expresión. Se aborda el

análisis simbólico del poder, el acceso y derecho al uso del territorio y los sujetos que interactúan en la experiencia turística, en los que se evidencian tensiones y confluencias entre unos y otros. Las múltiples territorialidades se van construyendo y deconstruyendo con el uso turístico a partir de los imaginarios y narrativas, generando encuentros y desencuentros. También se exponen apuestas teóricas y metodológicas diversas para reconocer los imaginarios sociales y turísticos, según la escala territorial: se abordan regiones, ciudades, pequeños municipios y espacios naturales, desde diversas perspectivas teóricas y desde distintas fuentes que construyen tales imaginarios de los lugares y que alimentan la creación de productos turísticos, permeando la experiencia del visitante. Por otra parte, está presente la reflexión acerca del papel que desempeña el turismo en los cambios territoriales, cambios que sacan a la luz tendencias contemporáneas o clásicas de los usos turísticos, que además se ven influidos por el imaginario turístico que se ha forjado a lo largo del tiempo. Invitamos a los investigadores a sumergirse en el universo de los lugares del turismo, que se interpretan desde diversas y ricas miradas las cuales pueden hacer complejo el análisis de los mismos.

Estrategias institucionales de impulsión y marketing de las licenciaturas en turismo Leandro Colacchio, Lucila Catania Di Salvo, Catalina Delucchi, Paula María Lembo, Bernarda Nieves, Patricia Portillo, 2016-10-10 Trabajo de Investigación del año 2016 en el tema Turismo - Otros, Idioma: Español, Resumen: El presente trabajo tiene por objetivo el análisis de la Carrera Universitaria de Turismo con el fin de presentar una nueva propuesta de plan de estudios de la Licenciatura en Turismo. El turismo es una de las actividades económicas que mayor crecimiento ha registrado desde 2003 en la Argentina, hoy en día es considerada como una actividad estratégica y el Ministerio de Turismo en el marco del Plan Federal Estratégico de Turismo Sustentable 2020, propicia la investigación, formación y capacitación técnica y profesional; además fomenta la inclusión de contenidos transversales de formación turística en los programas de estudio en todos los niveles de la enseñanza pública y privada; todo este marco demuestra la importancia que ha tomado en el país la educación en turismo y es por ello que dedicamos este trabajo al análisis de sus programas a nivel superior.
