

Rape Of The Mind

Iain Ferris

The Rape of the Mind Joost Meerloo, 2022 Meerloo began to study the methods by which systematic mental pressure brings people to abject submission, and by which totalitarians imprint their subjective truth on their victims' minds. In *The Rape of the Mind* he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people's minds. He presents a systematic analysis of the methods of brainwashing and mental torture and coercion, and shows how totalitarian strategy, with its use of mass psychology, leads to systematized rape of the mind. He describes the new age of cold war with its mental terror, verbocracy, and semantic fog, the use of fear as a tool of mass submission and the problem of treason and loyalty, so loaded with dangerous confusion. *The Rape of the Mind* is written for the interested layman, not only for experts and scientists. Contents: Part One: The Techniques of Individual Submission. 1. You Too Would Confess. 2. Pavlov's Students as Circus Tamers. 3. Medication into Submission. 4. Why Do They Yield? The Psychodynamics of False Confession. Part Two: The Techniques of Mass Submission. 5. The Cold War against the Mind. 6. Totalitaria and its Dictatorship. 7. The Rape of the Mind Joost A.M. Meerloo, In *The Rape of the Mind*, Dutch-American psychoanalyst Joost A.M. Meerloo explores the insidious techniques of mind control, thought manipulation, and brainwashing employed by totalitarian regimes and oppressive groups. Drawing upon his experiences during World War II and the Korean War, Meerloo provides a chilling analysis of the psychological methods used to break down individual autonomy and reshape the human psyche. This groundbreaking work offers valuable insights into the nature of mental coercion and serves as a warning against the dangers of surrendering our intellectual freedom.

The Rape of the Mind Joost Abraham Maurits Meerloo, 1971

The Rape of the Mind Joost Meerloo, 2023-03-25 The Rape of the Mind represents one of the earliest and most notable studies of social control, political conformity, and menticide. Dutch physician and psychoanalyst Joost Meerloo, one of six children, but the only one to escape the Holocaust, had experienced firsthand the myriad of thought-control tactics employed by totalitarian states when he wrote The Rape of the Mind in 1956. In these pages Meerloo undertakes a systematic analysis of methods for brainwashing and control, exploring such subjects as coercion, mass delusion, false trials, mental contagion, semantic fog, the use of fear, and other techniques for mass submission, among much else. Many of Meerloo's predictions were ratified throughout the Cold War, and his ideas continue to take on new light in the hyper-novel technology- and media-driven world of today.

The Rape of the Mind: The Psychology of Thought Control, Menticide, and Brainwashing Dr. Joost A. M. Meerloo, 2015-11-06 SINCE 1933, when a completely drugged and trial-conditioned human wreck confessed to having started the Reichstag fire in Berlin, Dr. Joost A. M. Meerloo has studied the methods by which systematic mental pressure brings people to abject submission, and by which totalitarians imprint their subjective truth on their victims' minds. The first two and one-half years of WWII, Dr. Meerloo spent under the pressure of Nazi-occupied Holland, witnessing at first-hand the Nazi methods of mental torture on more than one occasion... Then, after personal experiences with enforced interrogation, he escaped from a Nazi prison and certain death to England, where he was able, as Chief of the Psychological Department of the Netherlands Forces, to observe and study coercive methods officially.... After the war, he came to the United States... As more

and more cases of thought control, brainwashing, and mental coercion were disclosed - Cardinal Mindszenty, Colonel Schwable, Robert Vogeler, and others - his interest grew. It was Dr. Meerloo who coined the word menticide, the killing of the spirit, for this peculiar crime... It is Dr. Meerloo's position that through pressure on the weak points in men's makeup, totalitarian methods can turn anyone into a traitor. And in *The Rape of the Mind* he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people's minds. He presents a systematic analysis of the methods of brainwashing and mental torture and coercion, and shows how totalitarian strategy, with its use of mass psychology, leads to systematized rape of the mind. He describes the new age of cold war with its mental terror, verbocracy, and semantic fog, the use of fear as a tool of mass submission and the problem of treason and loyalty, so loaded with dangerous confusion. *The Rape of the Mind* is written for the interested layman, not only for experts and scientists.-Print ed.

This study considers the relationship between geography and power in the Roman world, most particularly the visualisation of geographical knowledge in myriad forms of geography products: geographical treatises, histories, poems, personifications, landscape representations, images of barbarian peoples, maps, itineraries, and imported foodstuffs.

Summary of Joost A.M. Meerloo's *The Rape Of The Mind* Everest Media, 2022-03-04T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The human mind is susceptible to political coercion. In 1933, the German Reichstag building was burned to the ground, and the Nazis arrested a Dutchman, Marinus Van der Lubbe, and accused him of the crime. Van der Lubbe was known by Dutch psychiatrists to be mentally unstable. #2 The trial of van der Lubbe showed the world the danger of systematized mental coercion in politics. The world began to realize that the Bolsheviks had turned their old comrades into puppets, and that they were being systematically changed into sheep. #3 During the Second World War, the Nazis forced confessions out of prisoners, and those who were resistant or did not comply were subject to further torture. We learned from this experience, and decided that it was better not to be in touch with one another, in order to avoid being betrayed. #4 The Nazis used a variety of psychological strategies to break their prisoners, from torture to playing the coward, to confessing too much. I had to flee Holland after a policeman warned me that my name

had been mentioned in an interrogation.

PSYWAR: Rape of the Mind Albrecht Giddings, 2016-02-05 PSYWARThe rape of the mind and stealthy mental coercion are among the oldest crimes of mankind. They probably began back in prehistoric days when man first discovered that he could exploit human qualities of empathy and understanding in order to exert power over his fellow men. The word rape is derived from the Latin word rapere, to snatch, but also is related to the words to rave and raven. It means to overwhelm and to enrapture, to invade, to usurp, to pillage and to steal. The modern words brainwashing, thought control, and menticide serve to provide a clearer conception of the actual methods by which man's integrity can be violated. When a concept is given its right name, it can be more easily recognized and it is with this recognition that the opportunity for systematic correction begins. In this book the reader will find a discussion of some of the imminent dangers which threaten free cultural interplay. It emphasizes the tremendous cultural implication of the subject of enforced mental intrusion. Not only the artificial techniques of coercion are important but even more the unobtrusive intrusion into our feeling and thinking. The danger of destruction of the spirit may be compared to the threat of total physical destruction through atomic warfare. Indeed, the two are related and intertwined.

The Mind Is a Collection Sean Silver, 2015-10-28 John Locke described the mind as a cabinet; Robert Hooke called it a repository; Joseph Addison imagined a drawer of medals. Each of these philosophers was an avid collector and curator of books, coins, and cultural artifacts. It is therefore no coincidence that when they wrote about the mental work of reason and imagination, they modeled their powers of intellect in terms of collecting, cataloging, and classification. *The Mind Is a Collection* approaches seventeenth- and eighteenth-century metaphors of the mind from a material point of view. Each of the book's six chapters is organized as a series of linked exhibits that speak to a single aspect of Enlightenment philosophies of mind. From his first chapter, on metaphor, to the last one, on dispossession, Sean Silver looks at ways that abstract theories referred to cognitive ecologies—systems crafted to enable certain kinds of thinking, such as libraries, workshops, notebooks, collections, and gardens. In doing so, he demonstrates the crossings-over of material into ideal, ideal into material, and the ways in which an idea might repeatedly turn up in an object, or a range of objects might repeatedly stand for an idea. A brief conclusion examines the afterlife of the metaphor of mind as collection, as it turns up in present-day cognitive studies. Modern cognitive theory has been applied to the microcomputer, and while the object is new, the habit is as old as the Enlightenment. By examining lived environments and embodied habits from 1660 to 1800, Silver demonstrates that the philosophical dualism that separated mind from body and idea from thing was inextricably established through active engagement with crafted ecologies.

Terror in the Mind of God, Fourth Edition Mark Juergensmeyer, 2017-03-28 Completely revised and updated, this new edition of *Terror in the Mind of God* incorporates the events of September 11, 2001 into Mark Juergensmeyer's landmark

study of religious terrorism. Juergensmeyer explores the 1993 World Trade Center explosion, Hamas suicide bombings, the Tokyo subway nerve gas attack, and the killing of abortion clinic doctors in the United States. His personal interviews with 1993 World Trade Center bomber Mahmud Abouhalima, Christian Right activist Mike Bray, Hamas leaders Sheik Yassin and Abdul Azis Rantisi, and Sikh political leader Simranjit Singh Mann, among others, take us into the mindset of those who perpetrate and support violence in the name of religion.--Provided by publisher.
