Pathways to Personal Freedom Using the Silva Method Diana Silva, Robert Deutchman, 2019-01-30 Pathways to Personal Freedom using the Silva Method is a compilation of fifty ideas to help uncover the ways of inner bliss that lay dormant within each of us. Happiness and Personal Freedom are concepts that most of us have taken for granted. Society teaches us to please others; look for approval and acceptance from others; check in with those who “know better” than we do; allow our negative thoughts to overtake our actions, our way of life and even health. Each Pathway starts with a quote to encourage thinking and inspiration to bring about a spark of insight that is already known but may have been forgotten along the way. What follows are suggestions and examples from the authors’ lives and experiences as to how to achieve bliss and inner harmony. Each will end with an affirmation to be recited in the present time to instill the ideas as if they are already in place and to help enhance this new way of thinking. Some of these ideas may be new and even foreign—but they have stood the test of time and used by many throughout the world. Jose Silva, Sr. was a pioneer in the study and application of mind control. His youngest daughter, Diana Silva-Mendez and coauthor, Robert Deutchman have put together this labor of love for the benefit of Silva Method enthusiasts, trainers, Silva graduates, and to all who seek to tap into their inner wisdom.

Expand Your Magnificent Mind José Silva,2023-09-12 These brief articles are easy to read whenever you have a few minutes for some inspiration and motivation. To help you take full advantage of José Silva's wisdom and advice, the book includes instructions on how to enter the alpha brainwave level, and also includes many of the Silva problem-solving techniques to help you change your life for the better. José Silva Jr. provides commentary throughout the book to help put the work into perspective. He made sure the course material is exactly the way his father wanted it. Not many people throughout history can claim to have started with so little, come so far, and achieved so much. José Silva had lost his parents by the time he was 6 and went to work instead of going to school. He began to study psychology - the study of human behavior - when he was 30 years old, and soon expanded his research to include the brain and mind. The mind did not reveal its secrets to him easily. He persisted, investing his own time and money, continuing even though critics scorned him. Today he is recognized as the leading researcher in the world in the field of the mind and human potential. And José Silva's UltraMind ESP System is leading humanity into the beginning of the second phase of human evolution on the planet. His ultimate achievement was developing a reliable technique to use your ESP to obtain guidance and support from higher intelligence to develop creative solutions for vexing problems.
