*A Solution to a Pointless Life* Albert Amao Soria Ph.D., 2023-04-20 This book empowers the reader to awaken his inner power by providing psychological and metaphysical tools for improving their life. Humans should undertake the power dwelling in them and become active co-creators of their personal and social environment. The book is a necessary component in a materialistic post-modern consumeristic society. It focuses on removing the self-loathing ideas imposed by religious organizations and mass media. Moreover, it offers a plausible and coherent theory that answers the old-honored predicament of finding the true purpose of human existence. Blending ideas from philosophers with the popular wisdom of native folklore, Occidental and Oriental sacred scriptures, sociology, metaphysics, philosophy (existentialism), and modern quantum physics, this book reveals that humans should actively participate in the awakening of their consciousness. Having no purpose in life can lead people to a deep psychological depression called existential anxiety. Thus, ignoring the role of man's importance in the drama of the universe, the lack of a myth or meaning could be tragic and detrimental. Since the dawn of civilization, humans have taken for granted or assumed that they had an inherent purpose in life by being born, which turned out to be a big fallacy. In addition, humans have been brainwashed and domesticated by false ideas creating a herd mentality by the ruling elite. Under these circumstances, how do we humans find authentic meaning in what seems to be a senseless life? Modern philosophy has become increasingly abstract and separate from human beings, unable to offer positive guidance to ordinary people. Finding a purpose in human existence is the primary motivational force for human existence. The ultimate purpose of human existence is to become a conscious god.

**Trauma Team Dynamics** Lawrence M. Gillman, Sandy Widder, Michael Blaivas MD, Dimitrios Karakitsos, 2015-11-02 This is the first book exploring the unique dynamics created by a multidisciplinary trauma team and how crisis management strategies can improve teamwork and communication and, potentially, improve patient resuscitation outcomes. Crisis resource management (CRM) is integral to the way that we manage ourselves, team members, and patients during emergency situations. It is essentially the ability to translate knowledge of what needs to be done into effective actions during a crisis situation. Building on the revolutionary American College of Surgeons Advanced Trauma Life Support (ATLS®) course, Trauma Team Dynamics illustrates the integration of the principles of CRM to team dynamics throughout the resuscitation -from the scene, through pre-hospital care and transport, to the trauma bay, and finally to definitive care

and beyond. The editors and contributors are international experts in trauma, critical care, emergency medicine, nursing, respiratory therapy, and pre-hospital care and include NASA- and United States military-affiliated experts. Trauma Team Dynamics is intended for use as both a day-to-day clinical resource and a reference text, and includes self-assessment questions as well as guidance on CRM curriculum design and implementation.

*Vietnamese Health Care System in Change* Kerstin Priwitzer, 2003-08-01 Within the last twenty years a large-scale bottom-up privatization has taken place in Vietnam, changing and dismantling the public health care system. This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support - especially for the poor, elderly, migrants, and ethnic minorities - on the one hand, and its efficiency on the other hand. The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government. The author bases her findings on little known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system, thereby painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam.
