They Never Said It : A Book of Fake Quotes, Misquotes, and Misleading Attributions Paul F. Boller Jr. Emeritus Professor of History Texas Christian University, Oklahoma John George Jr. Professor of Political Science and Sociology Central State University, 1989-05-18 Abraham Lincoln never said, You cannot fool all the people all the time. Thomas Jefferson never said, That government is best which governs least. And Horace Greeley never said, Go west, young man. In *They Never Said It*, Paul Boller, Jr., and John George examine hundreds of misquotations, incorrect attributions, and blatant fabrications, outlining the origins of the quotes and revealing why they should be consigned to the historical trashcan. Many of the misquotes are quite harmless. Some are inadvertent misquotes that have become popular (Shakespeare actually said, The best part of valor is discretion), others, the inventions of reporters embellishing a story (Franklin Roosevelt never opened a speech to a DAR group with the salutation, My fellow immigrants). But some of the quotes, such as Charles Darwin's supposed deathbed recantation of evolution, are blatantly dishonest and falsify the historical record. And others are chillingly vicious, filled with virulent racial and religious prejudices that completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible. These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America, and the fabricated condemnation of Catholics attributed to Lincoln. An entertaining and yet thought-provoking book, *They Never Said It* sorts out a great deal of history and sets it right, going beyond a mere catalog of popular misconceptions to reveal how conservatives and liberals, atheists and evangelists, all have at times twisted and even invented the words of eminent figures to promote their own ends. It is the ultimate debunking reference, a perfect complement to handbooks of quotations.

Social Ethics in the Making Gary Dorrien, 2010-12-13 In the early 1880s, proponents of what came to be called “the social gospel” founded what is now known as social ethics. This ambitious and magisterial book describes the tradition of social ethics: one that began with the distinctly modern idea that Christianity has a social-ethical mission to transform the structures of society in the direction of social justice. Charts the story of social ethics - the idea that Christianity has a social-ethical mission to transform society - from its roots in the nineteenth century through to the present day Discusses and analyzes how different traditions of social ethics evolved in the realms of the academy, church, and general public Looks at the wide variety of individuals who have been prominent exponents of social ethics from academics and self-styled “public

intellectuals” through to pastors and activists Set to become the definitive reference guide to the history and development of social ethics Recipient of a CHOICE Outstanding Academic Title for 2009 award

The Great Canadian Oligarchy Read I. Myers,2012-08-07 THE GREAT CANADIAN OLIGARCHY deals with the future of freedom in Canada. The text focuses on the redefinition of our freedoms as our Charter of Rights and Freedoms is being applied to our culture? How is our nation an oligarchy? How are the following six concepts being redefined? Will this redefinition produce a free people? 1. The role the Supremacy of God as understood in our history has been negated. 2. The historic concept of the rule of law is being subjected to secular redefinition. 3. The guarantee of freedom of religion and speech is being subjected to redefinition. 4. Our historic property rights have been effectively abolished. 5. Our historic guarantee to right to life has been subjected to secular redefinition. 6. The Charter binds our nation to multiculturalism which is a failed social model. We as Canadians are faced with one of two choices. We can either return to the founding concept of a recognition of the supremacy of God or succumb to the destructive consequences of a culturalized religious atheism. The future of freedom lies in the choice made.
