Wild Seed Octavia E. Butler,2023-03-28 In an epic, game-changing, moving and brilliant story of love and hate, two immortals chase each other across continents and centuries, binding their fates together -- and changing the destiny of the human race (Viola Davis). Doro knows no higher authority than himself. An ancient spirit with boundless powers, he possesses humans, killing without remorse as he jumps from body to body to sustain his own life. With a lonely eternity ahead of him, Doro breeds supernaturally gifted humans into empires that obey his every desire. He fears no one -- until he meets Anyanwu. Anyanwu is an entity like Doro and yet different. She can heal with a bite and transform her own body, mending injuries and reversing aging. She uses her powers to cure her neighbors and birth entire tribes, surrounding herself with kindred who both fear and respect her. No one poses a true threat to Anyanwu -- until she meets Doro. The moment Doro meets Anyanwu, he covets her; and from the villages of 17th-century Nigeria to 19th-century United States, their courtship becomes a power struggle that echoes through generations, irrevocably changing what it means to be human.

Contemporary American Fiction in the European Classroom Laurence W. Mazzeno,Sue Norton,2022-04-06 This book offers insight into the ways students enrolled in European classrooms in higher education come to understand American experience through its literary fiction, which for decades has been a key component of English department offerings and American Studies curricula across the continent and in Great Britain and Ireland. The essays provide an understanding of how post-World War II American writers, some already elevated to 'canonical status' and some not, are represented in European university classrooms and why they have been chosen for inclusion in coursework. The book will be of interest to scholars and teachers of American literature and American studies, and to students in American literature and American studies courses.

Gender and Environment in Science Fiction Bridgitte Barclay,Christy Tidwell,2020-07-07 Gender and Environment in Science Fiction focuses on the variety of ways that gender and "nature" interact in science fiction films and fictions, exploring questions of different realities and posing new ones. Science fiction asks questions to propose other ways of living; it asks what if, and that question is the basis for alternative narratives of ourselves and the world we are a part of. What if

humans could terraform planets? What if we could create human-nonhuman hybrids? What if artificial intelligence gains consciousness? What if we could realize kinship with other species through heightened empathy or traumatic experiences? What if we imagine a world without oil? The texts analyzed in this book ask these questions and others, exploring how humans and nonhumans are connected; how nonhuman biologies can offer diverse ways to think about human sex, gender, and sexual orientation; and how interpretive strategies can subvert the messages of older films and written texts.

Neocolonialism L. Santhosh Kumar, Minu A., Barnashree Khasnobis, Preetha M., Merrin R. S., 2026-01-22 Neocolonialism, in contemporary discourse, has emerged as a compelling analytical lens to revisit and reassess power structures, global hierarchies, and cultural narratives in a postcolonial world. This volume explores the intricate and often obscured mechanisms through which neocolonial influence operates—economically, politically, culturally, and intellectually—redefining the contours of sovereignty and autonomy in the modern era. Scholars across disciplines in the Humanities and Social Sciences have increasingly turned their attention to the praxis of identifying and critiquing the subtle continuities of colonial ideologies under the guise of development, globalization, and aid. The interdisciplinary and multidisciplinary approaches employed in this volume challenge conventional perspectives and propose new interpretative frameworks for understanding neocolonial engagements in literature, media, policy, and education.

New Criticism and Pedagogical Directions for Contemporary Black Women Writers LaToya Jefferson-James, 2022-03-03 New Criticism and Pedagogical Directions for Contemporary Black Women Writers is a collection of critical and pedagogical essays that shed new light on the creative depths of Black women writers. On the one hand, some Black women writers have been heavily anthologized, they have more often than not been restricted by critical metanarratives. Some of their works have been lionized while others remain neglected. On the other hand, some Black women writers have been ignored and understudied. This collection corrects the gaps in our critical thinking about Black women writers by introducing them to a new generation of undergraduate and graduate students, and by presenting pedagogical essays to our colleagues currently working in the field.

Taking Out the Trash Andrew Deman, 2015 The world of SF is introduced for a complex female character in the form of the maternal shape-shifter, Anyanwu. Butler's depiction of womanhood through Anyanwu defamiliarizes the construction of women in science fiction. In Anyanwu, Butler demonstrates the wealth of potential for characterization in science fiction, while at the same time operating against the male-oriented science fiction tropes that have traditionally excluded the voice of such strong female writers as Butler, along with complex female characters as Anyanwu.

Kindred: A Graphic Novel Adaptation Damian Duffy, John Jennings, 2017-01-10 Instant #1 New York Times Bestseller Octavia E. Butler's bestselling literary science-fiction masterpiece, *Kindred*, now in graphic novel format. More than 35 years after its release, *Kindred* continues to draw in new readers with its deep exploration of the violence and loss of humanity caused by slavery in the United States, and its complex and lasting impact on the present day. Adapted by celebrated academics and comics artists Damian Duffy and John Jennings, this graphic novel powerfully renders Butler's mysterious and

moving story, which spans racial and gender divides in the antebellum South through the 20th century. Butler's most celebrated, critically acclaimed work tells the story of Dana, a young black woman who is suddenly and inexplicably transported from her home in 1970s California to the pre-Civil War South. As she time-travels between worlds, one in which she is a free woman and one where she is part of her own complicated familial history on a southern plantation, she becomes frighteningly entangled in the lives of Rufus, a conflicted white slaveholder and one of Dana's own ancestors, and the many people who are enslaved by him. Held up as an essential work in feminist, science-fiction, and fantasy genres, and a cornerstone of the Afrofuturism movement, there are over 500,000 copies of *Kindred* in print. The intersectionality of race, history, and the treatment of women addressed within the original work remain critical topics in contemporary dialogue, both in the classroom and in the public sphere. Frightening, compelling, and richly imagined, *Kindred* offers an unflinching look at our complicated social history, transformed by the graphic novel format into a visually stunning work for a new generation of readers.

The Depiction of Gender and Toxic Masculinity in Mark Ravenhill's "The Cut" Kristina von Kölln, 2020-11-03 Seminar paper from the year 2020 in the subject English Language and Literature Studies - Other, grade: 2,0, Technical University of Braunschweig, language: English, abstract: This paper examines the depiction of gender in Mark Ravenhill's play *The Cut*. Special emphasis is hereby placed on the aspect of toxic masculinity - a topic which has not lost its relevance since its first definition in the 1980s. Toxic masculinity and patriarchal dystopian systems are closely intertwined and have for some time found their place in feminist dystopian narratives such as *The Handmaid Tale* by Margaret Atwood, Octavia Butler's *Wild Seed* or *Vox* by Christina Dalcher. At first glance, Marc Ravenhill's *The Cut* fits into this list only in terms of the dystopian moment. However, upon closer inspection, his play, which focuses almost exclusively on the male characters, also reveals the effects of patriarchal cultures and toxic masculinity on both the female and, in particular, the male members of society.

Nevertheless, the aspect of gender and especially toxic masculinity has not yet been dealt with in the context of Ravenhill's work. Merle Tönnies, for example, concentrated primarily on the aspect of the immobility of power in her detailed analysis of *The Cut*, while Robert Kielawski placed his focus on the reinvention of utopia revolution and the big Other in decline (Kielawski) - the aspect of gender inequality, however, did not seem to play a role for either of them. Furthermore, neither the critics, nor Ravenhill himself addressed the topic. In order to fill this gap, the present work will analyse *The Cut* based on the thesis that Marc Ravenhill's *The Cut* represents a patriarchal dystopia whose members suffer from the effects of toxic masculinity. In the course of this paper Marc Ravenhill and *The Cut* will be briefly introduced, followed by a theoretical background on gender in dystopian fiction in general and toxic masculinity in particular, and finally the depiction of gender and toxic masculinity in *The Cut*. In order to be able to undertake an analysis that is as detailed as possible, despite the limited scope of this work, Chapter 4 will focus primarily on the main character of the play, Paul, in order to highlight the aspects of toxic masculinity. However, this should not lead to the assumption that not all other characters would also show similar symptoms.

Shapeshifting in Octavia Butler's *Wild Seed* and Nnedi Okorafor's *Lagoon* Fahimeh Payam Askari, 2019 This study examines shapeshifting as a post-colonial metaphor of race, gender and resistance in the novels *Wild Seed* and *Lagoon*. In both science fiction novels, the conceptions of race and gender are highlighted through portrayals of shapeshifting and the post-human. From this position, this study explores the ways in which novelists, Octavia Butler, in *Wild Seed*, and Nnedi Okorafor, in *Lagoon* in particular, deploy shapeshifting, that is, the blurring and destabilization of boundaries, as a tool for aesthetic and socio-political engagement in postcolonial and post-independence narratives. In both novels, the technology of the immortal shapeshifters does not threaten the nature/culture nor does it serve colonialism. Indeed, science and knowledge are productive and shared among people. Shapeshifting is a narrative device in postcolonial science fiction that functions as a mode of resistance against colonialism, oppression and imperialism in different historical contexts in both novels. This study demonstrates how shapeshifting symbolically facilitates a process of decolonization by resisting and altering received constructions of gender and race. Furthermore, it explores effective sites of decolonization aiming at demonstrating resistant identities represented as an immortal shapeshifter in *Wild Seed* and an extraterrestrial in *Lagoon*. *Wild Seed* and *Lagoon*, deploy the juxtaposition of traditional magical elements with science fictional materials, and the way the shapeshifting protagonists establish justice in society.

Changing Bodies in the Fiction of Octavia Butler Gregory Jerome Hampton, 2010-10-14 *Changing Bodies in the Fiction of Octavia Butler: Slaves, Aliens, and Vampires* is a timely text that critically situates Butler's fiction in several fields of study including American, African-American, gender, and science fiction studies. This book attempts to avoid excluding as

many readers as possible by evading esoteric jargon while still engaging the interdisciplinary discourses that respond to Butler's fiction. The study asserts that Butler's fiction transforms the way the body is imagined with reference to race and gender. This text examines how Butler's fiction is able to cross several genre boundaries while simultaneously reshaping the genre of science fiction. This book makes the claim that Butler's fiction is crucial for contemporary and future investigations of identity formation. Discussions of race, class, and sex are reoccurring topic that are inextricable to any understanding of body politics and theory. This book is filled with exciting and insightful discussions that raise questions about what constitutes humanity in Butler's fiction and in the real world. Ultimately, the purpose of the text is to add to the scholarship surrounding Butler and to bring her to the attention of audiences that might otherwise overlook her work. This book is an invitation for readers inside and outside of the academy to discover the fiction of Octavia Butler.

Octavia E. Butler Gerry Canavan, 2016-10-31 I began writing about power because I had so little, Octavia E. Butler once said. Butler's life as an African American woman--an alien in American society and among science fiction writers--informed the powerful works that earned her an ardent readership and acclaim both inside and outside science fiction. Gerry Canavan offers a critical and holistic consideration of Butler's career. Drawing on Butler's personal papers, Canavan tracks the false starts, abandoned drafts, tireless rewrites, and real-life obstacles that fed Butler's frustrations and launched her triumphs. Canavan departs from other studies to approach Butler first and foremost as a science fiction writer working within, responding to, and reacting against the genre's particular canon. The result is an illuminating study of how an essential SF figure shaped themes, unconventional ideas, and an unflagging creative urge into brilliant works of fiction.
