With the Fire on High Elizabeth Acevedo, 2019-05-07 From the New York Times bestselling author of the National Book Award-winning title *The Poet X* comes a dazzling novel in prose about a girl with talent, pride, and a drive to feed the soul that keeps her fire burning bright. Winner of the California Young Reader Medal! Ever since she got pregnant freshman year, Emoni Santiago's life has been about making the tough decisions—doing what has to be done for her daughter and her abuela. The one place she can let all that go is in the kitchen, where she adds a little something magical to everything she cooks, turning her food into straight-up goodness. Even though she dreams of working as a chef after she graduates, Emoni knows that it's not worth her time to pursue the impossible. Yet despite the rules she thinks she has to play by, once Emoni starts cooking, her only choice is to let her talent break free. Plus don't miss Elizabeth Acevedo's *Clap When You Land*!

Brannigan's Building Construction for the Fire Service Francis Brannigan, Glenn Corbett, 2009-04-06 Brannigan's *Building Construction for the Fire Service*, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of *Building Construction for the Fire Service* was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive

practical experience helped him to develop the most popular text on the market. His motto of: “Know your buildings,” informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's Building Construction for the Fire Service, Fourth Edition co-author Glenn Corbett to learn more about this training program! It is part of an integrated teaching and learning system that combines dynamic features and content to support instructors and to help prepare students for their career in firefighting. This new edition features: Chapter 7 Non-Fire Building Systems (new) describes several categories of non-fire systems in buildings, including electrical systems, plumbing systems, conveyances, refrigeration systems, and Ventilation (HVAC) systems, in addition to the hazards the systems pose for fire fighters. Case Studies are found at the beginning and end of each chapter to encourage and foster critical-thinking skills. Tactical Considerations. This feature offers suggestions for firefighting, safety concerns, and related additional material for application on the fireground. Wrap-Up.
