**Cronache di uno stato fantastico** Giovanni Del Sal, 2022-02-28 È il 2025. La regione Veneto ha ottenuto l'autonomia delle regioni a statuto speciale ma non tutti sono d'accordo con la decisione del Parlamento Italiano, specialmente i rappresentanti Friulani. Quella che sembra una baruffa chiozzotta tra Veneto e Friuli degenera in una vera e propria guerra. Ma è davvero tutto qui? Cui prodest? A chi giova? La storia è narrata come un reportage giornalistico, gli avvenimenti in apparenza sembrano fantastici ma invece sono più vicini alla realtà di quanto si sia disposti ad ammettere. Giovanni Del Sal è nato il 7 dicembre 1997 e vive a Lignano Sabbiadoro. Fin da piccolo si è appassionato alla storia, interesse approfondito durante le superiori anche grazie all'introduzione di letteratura, filosofia e sociologia. Ed è proprio quest'ultima materia che trova più interessante fra tutte, tanto da decidere di frequentare la facoltà di sociologia all'Università di Padova. Durante gli studi dei massacri perpetrati in Jugoslavia, Giovanni e un suo compagno si chiesero che cosa sarebbe successo se quella guerra fosse accaduta in un altro stato e in un altro tempo, e quali sarebbero state le eventuali conseguenze. Questo libro è la risposta alle loro domande.

**Constitutional Framework of European Labour Law in Italy, France, Germany, Portugal and Spain** Luís Gonçalves da Silva, Sara Leitão, 2023-12-01 The challenges that labour law currently faces are well known. The emergence of new forms of work and the growing importance of technology in the age of the Fourth Industrial Revolution are important tests of the resilience of this field of law and its function: regulating the labour market. Therefore, it is becoming increasingly important to examine the fundamentals of labour law, especially how subordinate labour is addressed in various countries' constitutions, in order to focus the analysis of the new phenomena affecting labour relations on their fundamental frameworks. In this context, this book puts forward an overarching framework that reflects how the Italian, German, French, Portuguese, and Spanish constitutions view labour in terms of both collective and individual relations – particularly the right to collective bargaining, the right to strikes and lock-outs, job security, and the right to remuneration – without losing sight of each Constitution's historical and political context. The aim of this book is therefore to provide an overview of the labour law frameworks in the constitutions of these legal systems and to show, by means of practical examples, how the law concretely implements them. Accordingly, it provides notes on the legal treatment of the topics analysed, serving as a practical guide for the study of these matters in the respective jurisdictions. This book will be of interest to all students and scholars of labour

law looking for an overview of the topics covered in all five jurisdictions.

Regulating Strikes in Essential Services Moti (Mordehai) Mironi, Monika Schlachter, 2018-11-09 Designing a fair, effective and acceptable regime that will reconcile public interest and the public's need for an uninterrupted flow of essential services on the one hand, while maintaining the freedom of collective bargaining on the other, is an ever more difficult public policy challenge. This book, the first detailed comparative analysis of existing legal and practical approaches across a spectrum of key national jurisdictions, provides a structured and insightful overview of the law and practice of regulating strikes in essential services. As such it can be of great value for public policy debate and the enhancement of national law in the field. The editors have assembled experts from fourteen countries who describe and analyse their respective country's experience with strikes in essential services and the legislative and judicial as well as informal approaches towards regulating and intervening in such strikes. Departing from legal theory with systematic comparative 'law in action' research, the contributors offer innumerable valuable insights into a broad array of issues and topics as the following: - mechanisms aiming at compensating employees for encroaching on their collective bargaining rights; - public accountability and responsible management of public finance; - role of international conventions; - effects of globalization and advances in technology; - privatization, outsourcing and the decline of unions and workers' solidarity; - growing popular intolerance towards strikes in essential services; - effect of human rights-related court decisions; - convergence and divergence among contemporary legal regimes in defining and approaching strikes in essential services; - dispute process design and dispute resolution processes (mediation, conciliation and arbitration); and - substantive and procedural restrictions on the right to organize, bargain collectively and strike. The country reports are preceded by a detailed analysis of the inherent normative policy dilemma and a conceptual framework for designing and evaluating models of regulation. The concluding chapter presents a comparative overview of the insights gained. With its comparative perspective on one of the most sensitive areas of industrial relations and labour law, and its contextually relevant options for strategic choice and public policy debate, this incomparable volume will be welcomed by labour lawyers, legislators, policy makers, judicial bodies and researchers in the field of collective labour relations and fundamental human rights of workers on the national as well as international level.
