Additifs alimentaires, danger Corinne Gouget, 2007 Qu'est-ce qu'un additif alimentaire ? C'est la question que se posent de nombreux consommateurs qui, comme vous, voudraient bien savoir ce qui se cache dans la liste des ingrédients, sous des noms parfois difficiles à lire et à prononcer ou des codes comme le E951, par exemple. Muni de ce guide facile à utiliser, vous serez enfin capable de savoir ce que sont la plupart des ingrédients cités sur les emballages (même si tout n'est pas dit sur les étiquettes) et vous aurez le pouvoir de décider d'acheter ou non les produits concernés. Après plus de 12 ans d'expérience dans le domaine de la toxicité des additifs alimentaires, dont 2 ans passés à comparer de nombreuses études internationales sur le sujet, Corinne Gouget est heureuse de vous donner la possibilité de savoir ce que vous mangez.

Understanding Diabetes for Action Roland Fleurizier ND, 2014-01-17 Roland Fleurizier made a detour by studying medicines, after he graduated with a Bachelor of Arts in Psychology, a Bachelor of Arts in General Administration, a Bachelor of Sciences in Accounting, a Master in Management, and a Diploma of higher specialized studies in economics of Development. He became among other things a Master Herbalist before he studied to be a Naturopathic Doctor and a Practitioner of Traditional Chinese Holistic Energy Medicine. His knowledge of herbs has helped others to BE WELL. Nowadays he practices Energy Medicine to first balance people on the energetic and emotional levels, but still believes that herbs could be suitable for some individuals mostly depending on the ailments they may have developed. Roland Fleurizier, N.D., has a background in Naturopathy and Applied Kinesiology. His dedication and passion for natural and holistic energy medicine is an extension of the various experiences he has accumulated to date. He conducts seminars and weekly radio programs on diabetes, blood pressure, cancer, osteoporosis, multiple sclerosis, epilepsy, thyroid, etc. for the sake of bringing Haitian expatriates and other ethnicities easier access to information on general health. Diabetes has become the most common disease in the United States. It has been associated with the rapid spread of proper lifestyle choices. Roland Fleurizier teaches a health class and believes that the way to tackle diabetes is even largely unknown to most physicians. He also believes that most diabetics do not fully comprehend all the aspects of the ailments. With this in mind, he has undertaken this research and initiated a comprehensive, restorative agenda for diabetics to use in order to subjugate their disease. www.myvitamax.net

Les additifs alimentaires Jean-Claude Houdret,2005 Dans cet ouvrage de synthèse, écrit d'une plume vive et plaisante, l'auteur expose, d'une manière simple et claire, son point de vue sur les avantages et les inconvénients des additifs alimentaires. A la lumière de sa longue expérience médicale et de sa réflexion humaniste, il guide le lecteur dans les dédales conjugués des étiquettes des produits alimentaires et des rébarbatifs codes E. Après avoir lu cet ouvrage, vous vous sentirez probablement allégés du poids du doute et de la méfiance envers votre alimentation, et vous saurez distinguer les bons aliments des aliments douteux.
