Danish Cartoons and Freedom of Speech. Principles of Harm and Offence Ghazanfar Ahmad Adnan, 2017-01-02
Bachelor Thesis from the year 2013 in the subject Politics - Topic: Public International Law and Human Rights, , course: HR-II, language: English, abstract: The problem emerges as a result of cartoons of Prophet Mohammad (P.B.U.H.) in 2005 by the Danish Newspaper Jyllands Posten. It created a situation that exposed the differences of different worlds based on religions and beliefs. Freedom of expression and opinion in international instruments based on acknowledged human rights became controversial in relation to rights and duties. In regards to Danish cartoons, principles of harm and offence as explained by Mill and Feinberg and their legal validity are applied to judge the situation. Laws are based on norms and values philosophically exerted out of customs and practices. I would present that human behaviors are meant to be treated based on realities but not on cynic philosophical argumentations or debates. My purpose of research on the cartoons violence issue is to explain the moral grounds of universal human rights standards required to solve the dilemma peacefully. I have presented past, present and future of the controversy. All the conflict is misrepresented if they are presented out of context in relation to discussing the history of the conflict. For instance all the conflicts which are a threat to world peace have long history. And almost all the conflicts are based on religious grounds, for instance Palestine, Kashmir and the recent phenomenon terrorism is not out of this circle at all. My aim was to understand and give a brief but broad view of the cartoon controversy by describing its past as well. Describing religious conflict as the historical background does not mean we are still following the past but my aim was to show the current situation of our world which has become a global village in which personal bias of a single person can escalate a world conflict if few people decide to manipulate the situation. I certainly disprove any clash of civilizations but wanted to explain how we can build bridges among different cultural and social differences.

The Cartoons That Shook the World Jytte Klausen, 2009-10-13 On September 30, 2005, the Danish newspaper Jyllands-Posten published twelve cartoons of the Prophet Muhammad. Five months later, thousands of Muslims inundated the newspaper with outpourings of anger and grief by phone, email, and fax; from Asia to Europe Muslims took to the streets in protest. This book is the first comprehensive investigation of the conflict that aroused impassioned debates around the world on freedom of expression, blasphemy, and the nature of modern Islam. --Publisher.

You Decide Edward R. Drachman, Robert Langran, 2008 The second edition of You Decide! Controversial Cases in

American Politics provides a unique and innovative way to learn more about American government by examining contending points of view on controversial issues. Drawing on many years of combined teaching experience, Edward Drachman and Robert Langran present fourteen original cases and encourage students to make choices from policy options that might help resolve the case controversies. To facilitate the reading of the cases, the authors developed a format that provides the necessary background information on each issue, a list of options to address the controversy under consideration, and the probable future direction of each case controversy. Each case also includes discussion questions that focus on highlights of the case, classroom activities designed to complement more traditional learning, and a list of suggested readings and websites. On a range of topical, hot-button cases--from organized school prayer and affirmative action, to the electoral college and the tension between Congress and the president over war-time powers--students have the opportunity to become directly involved in discussing, debating, and evaluating controversial issues. With this help of this classroom-proven text, you decide!

Muhammad as Representative Form Andrea Reed, 2009 The Danish cartoon controversy poses a useful case for communication scholars to examine how political speech acts and social debate flourish in a world with globalized media. Working from Edwards and Winkler's theory of the representative form, I argue that the central Muhammad character in the cartoons functions ideographically, creating an ideological interpretation of Islam that invites public debate over its tenets. Using Olson and Goodnight's work on social controversy, I track how this debate evolves from the initial publication of the cartoons to become an international conflict, organized around two main topoi--freedom of speech and freedom of religion. Given the diversity of reactions seen across the globe, I conclude that the Muhammad cartoons highlight how culturally specific rhetorical performances can have important effects on public discourse outside of their original contexts. The event gives us the chance to study how social conflicts will play out between the West and the rest of the world, which will no doubt continue with increasing frequency given our current trajectory.

Image Warfare in the War on Terror N. Roger, 2013-01-11 Roger examines how developments in new media technologies, such as the internet, blogs, camera/video phones, have fundamentally altered the way in which governments, militaries, terrorists, NGOs, and citizens engage with images. He argues that there has been a paradigm shift from techno-war to image warfare, which emerged on 9/11.

Kurt Westergaard - The Man Behind the Mohammed Cartoon John Lykkegaard, 2012-05 Kurt Westergaard The Man Behind the Mohammed Cartoon In September 2005 Kurt Westergaard drew one of the twelve cartoons of Mohammed published by the Danish newspaper Jyllands-Posten. At this point nobody could have foreseen that the publication of the cartoons would generate hatred and that Danish embassies in the Middle East would soon go up in flames. Since then Kurt

Westergaard has been on Al-Qaida's death list. On the first of January 2010 a fanatic Muslim broke into his house in order to kill him. Today he lives surrounded by bodyguards 24/7/365. The name Kurt Westergaard is now well-known across the globe, and he is loved and hated because of his cartoon. However, very few people know the man behind the Mohammed cartoon. In this autobiography he tells the story of his life and explains why he cannot give up the struggle for freedom of speech. The book has 275 pages and contains 82 of Kurt Westergaards Cartoons including the famous Mohammed Cartoon in a new version. The author John Lykkegaard is a qualified journalist. Until 2005 he worked on various newspapers. He then founded his own publishing house My Memoirs - Forlaget Mine Erindringer - and specializes in writing biographies. So far he has written and published seventeen autobiographies. The Publishing House My Memoirs - Forlaget Mine Erindringer, Denmark, www.mine-erindringer.dk

International Management Behavior Henry W. Lane, Martha Maznevski, Joerg Deetz, Joseph DiStefano, 2009-09-08
Now in its sixth edition, *International Management Behavior* continues to help students develop the knowledge, perspective, and skills they need in order to conduct global business successfully. The combination of well-chosen, new and classic cases, as well as a completely revised text, provides excellent exposure to real-life management issues and a field-tested framework for understanding cross-cultural dynamics. Elimination of the readings has provided for greater flexibility and customization. For the sixth edition, the structure of the book has been totally revised and the text thoroughly updated to Reflect the authors' recent experiences. Material in the original chapters has been expanded and there are new chapters on managing change in global organizations and one on managing global teams and networks. The concept of the global mindset is used as the integrating theme that establishes a framework for the book making it applicable at both individual/team and organization levels. This book continues its tradition and orientation about managing people from different cultures and managing global organizations to get effective results. "This is much more than a new edition. It is a huge step forward. The strategy and culture chapters get in much closer to the small, focused details that make such a difference in implementation and that are so difficult to teach. Separating out personal integrity and corporate citizenship allows for a close examination of critical issues that are all too often glossed over. The expanded explanation of the MBI model works well." Jeanne McNett, Assumption College

Censorial Sensitivities András Sajó, 2007 This book addresses the conflict between free speech and religion. Religious authorities have long tried to discipline free speech when it runs counter to religious teachings or dogmas. The reaction to the cartoons about the prophet Muhammad, published in the Danish Jyllands-Posten, demonstrated the resonance of the accusation of blasphemy inside Islam. The conflict is not, however, limited to Islam. The Catholic Church and various Protestant churches have strongly expressed their hostility toward various books, plays, and films that they consider

collective defamation. There is an increasing concern about the need to protect religious sensitivities against offensive speech, in particular where such speech affects vulnerable minorities and collective identities based on religious affiliation. The thought-provoking essays in this book are a welcome contribution to the current debate on how to deal with the clash between free speech and religion in a world where a growing number of people are committed in a fundamental way to religion in everyday life.

Terrorism Richard Jackson, Lee Jarvis, Jeroen Gunning, Marie Breen-Smyth, 2011-04-12 This innovative text provides a much-needed critical introduction to terrorism. Cutting-edge research on contemporary issues is combined with new insights into long-debated issues such as the definition of terrorism, the nature of the terrorist threat and counter-terrorism strategies. Showing that the methods we adopt as well as the material we study are vital for a clear understanding of the subject, this text goes beyond traditional IR approaches to rethink popular beliefs and assumptions about terrorism. Taking a genuinely global and integrated approach, this book is an ideal entry into the study of terrorism. In the years since 9/11, terrorism has been transformed into an issue of global significance. Terrorism and the war on terror has affected virtually every aspect of modern life, and a precise understanding of terrorism is now more important - and contentious - than ever. This text examines the origins, perceptions of, and responses to, terrorism and counter-terrorism in the contemporary world. It takes into account recent developments on the world stage as well as within - and in response to - critical terrorism studies. This text is the ultimate companion for students studying terrorism as part of an undergraduate or postgraduate degree. It guides students step-by-step to have a deeper understanding of terrorism and a more nuanced approach to their studies.

The Best Political Cartoons of the Year Daryl Cagle, Brian Fairington, 2007

Religion and Violence Jeffrey Ian Ross, 2015-03-04 First Published in 2015. Daily newspaper headlines, talk radio and cable television broadcasts, and Internet news web sites continuously highlight the relationship between religion and

violence. These media contain stories about such diverse incidents as suicide attacks by Islamic fundamentalists in Afghanistan, Iraq, Israel, Pakistan, and elsewhere, and assassinations of doctors who perform abortions by white American Christian true believers in the United States. How does one make sense of the role of religion in violence, and of perpetrators of violence who cite religion as a motivation? This encyclopedia includes a wide range of entries: biographies of key figures, historical events, religious groups, countries and regions where religion and violence have intersected, and practices, rituals, and processes of religious violence.

Excerpt: Connection Timeout The Jyllands-Posten Muhammad cartoons controversy began after 12 editorial cartoons, most of which depicted the Islamic prophet Muhammad, were published in the Danish newspaper Jyllands-Posten on 30 September 2005. The newspaper announced that this publication was an attempt to contribute to the debate regarding criticism of Islam and self-censorship. Danish Muslim organizations that objected to the depictions responded by holding public protests attempting to raise awareness of Jyllands-Posten's publication. Further examples of the cartoons were soon reprinted in newspapers in more than 50 other countries, further deepening the controversy. This led to Islamic...
