The World's Work ,1904 A history of our time.

Alarm Starboard! Geoffrey Brooke, 2004-10-14 "Much more than a mere catalogue of a naval officer's experiences of war . . . All-in-all an excellent read and very highly recommended." —World Ship Society The author's naval war experiences make the most exciting reading. After being mined on the battleship Nelson in 1939, he served on the Prince of Wales, during the Bismarck action, witnessing the sinking of the Hood and Churchill and Roosevelt's historic meeting. He survived the disastrous sinking by Japanese dive-bombing in December 1941 but within two days of reaching Singapore, the Island fell. Evacuated in a coastal steamer, only to be sunk the next morning, he was stranded on a deserted island for a week before setting out for Ceylon in a native boat. His epic journey covered 1660 miles and took 37 days. Thereafter his adventures continued, with the North African landings, Russian convoys and, returning to the Far East. He was in the carrier Formidable when she was hit twice by Japanese Kamikazes before VJ Day August 1945.

Before They Were the Black Sheep Carl O. Dunbar, Jr., 2011-09-18 World War II letters of a New Englander's journey from civilian to elite fighter squadron pilot Before the Marine Fighting Squadron VMF-214 became known as the Black Sheep squadron led by Pappy Boyington, this air group was already flying missions from Guadalcanal. Commissioned in 1942, the squadron was originally known as The Swashbucklers. Lt. Carl Dunbar was one of the squadron's original pilots, and his letters home describe the training and living conditions he faced as a Marine in the Pacific theater during the early years of World War II. Dunbar ultimately flew eighty-two missions during the Solomon campaign, and this volume includes his private logbook. Like many veterans, after returning to the United States Dunbar rarely spoke about his wartime service. Only after his death did his son Peter discover this trove of material, and his commentary provides context for each of his father's letters. Both personal and universal, this volume offers a glimpse of what life was like for a man with a great sense of loyalty and compassion caught up in the war of his generation.

Flying High Oscar G. Williams, 2003-02-18 Flying High is a chronicle of flying experiences and observations which will

stimulate forgotten memories of old pilots, peak the curiosity of new or to be new pilots and give the general public a glance into the world of a private pilot. The book will amuse some and cause many to shake their heads in disbelief.

Air Battles Before D-Day Joseph T. Molyson Jr.,2025-06-03 From the skies above Europe to the beaches of Normandy, the Allied air campaign of 1943-44 orchestrated one of history's most decisive military victories. In this groundbreaking analysis, retired Air Force Colonel Joseph T. Molyson reveals how a year of strategic bombing and aerial warfare created the conditions necessary for D-Day's success. Drawing on his thirty years of military intelligence experience, Molyson pieces together the complex puzzle of amphibious planning, airborne operations, and inter-Allied coordination that culminated in Operation Overlord. Key revelations include: How the Allied victory in the Battle of the Atlantic enabled the crucial flow of American resources The strategic bombing campaign's dual role in weakening both German industry and Luftwaffe capabilities The intricate coordination between British night raids and American daylight bombing missions Previously overlooked connections between air superiority and the success of the D-Day landings Perfect for military history enthusiasts and World War II scholars alike, this meticulously researched account offers fresh insights into the aerial strategy that changed the course of history.
