The strategy of CCHBC centres on four key A's credo for maintaining the growing and constant demand of its products in the markets. (Verma and Boyer, 2011) These four A's are Availability- CCHBC aims that all its products are easily accessible by the target buyers. On its part, CCHBC aims to provide the right package, the right time and in the right location. Affordability - CCHBC also aims at offering affordable products to its customers and strive to develop a wide range of highly desirable, useful and high quality products in a right package that appeals to different market and for specific occasions and priced appropriately. (Mahadevan, 2011) Acceptability- CCBHC aims for complete control, flawless efficiency and reliable customer service and adapting the most feasible route-to-market, along with intensive knowledge of buyer requirements and needs. With such an approach, it is ensured that products launched by CCBHC are acceptable and well liked by customers in different markets. Activation- CCBHC believes in enhancing customer motivation and choose their products. To achieve this, the company aims to provide the right brand at the right price and in the right location. CCBHC aims to place these products in enticing and interesting point of sale displays and make them available through coolers placed wisely or through racks, vendors, fountains and making these products relevant to the purchasers. These are some of the ways through which CCHBC aims to boost customer demand. (Schroeder, 2003)

Corporations as Custodians of the Public Good? Thérèse Rudebeck,2019-03-20 This book provides a comprehensive assessment of how local corporate water strategies influence global water governance objectives. In various geographies, companies spearhead a quest for more sustainable water management within and beyond their own operations. This book critically examines such strategies and provides an overarching analysis of the effects that mounting corporate involvement has had on the global water discourse. More specifically, it explains why companies from the food, beverage, textile, and mining sectors have started to incorporate water management objectives into their business strategies, how companies work in partnerships with other stakeholders to realize these objectives, and how these actions acquire wider political legitimacy. It presents insightful interview material from business leaders and other high-level stakeholders. Readers will gain the necessary knowledge to develop a critical view and respond appropriately.

Exploring Apocalyptica Frank Uekötter,2018-08-11 Environmental alarmism has long been a political bellwether. Tell me what you think about the green apocalypse, and I'll tell you where you stand on the issues. But as the environmental heydays of the 1970s move into perspective, the time has come for a reassessment. Horror scenarios create a legacy whose effects have largely escaped attention. Based on case studies from four continents and the North Atlantic, *Exploring Apocalyptica* argues for a reevaluation of familiar clichés. It shows that environmentalists were less apocalyptic than commonly thought, and other groups were far more enthusiastic. It traces an interconnection with Cold War fears and economic depressions and demonstrates how alarmism faced limits in the Global South. It also suggests that past horror scenarios impose constraints on ongoing debates. At a time when climate change turns from a scenario into an experienced reality, this book charts paths for an age that may have already moved beyond the peak apocalypse.
