Les Back, John Solomos

**Feminism is for Everybody** Bell Hooks, 2000 'Simply put, feminism is a movement to end sexism, sexist exploitation, and oppression.' So begins *Feminism is for Everybody*, a short, accessible introduction to feminist theory by one of its liveliest and most influential practitioners. Designed to be read by all genders, this book provides both a primer to the question 'what is feminism?' and an argument for the enduring importance of the feminist movement today. Beginning with a broad survey of feminism's most important themes and concerns, bell hooks demystifies contentious concepts and turns apparent ideology into common sense. Providing a critical evaluation of the successes and failures of contemporary feminism, she looks at a wide variety of topics including reproductive rights, sexual violence, race, class and work. hooks encourages us to demand alternatives to patriarchal, racist and homophobic culture and thereby to seek out a different future.

*Feminism Is for Everybody* bell hooks, 2014-10-10 What is feminism? In this short, accessible primer, bell hooks explores the nature of feminism and its positive promise to eliminate sexism, sexist exploitation, and oppression. With her characteristic clarity and directness, hooks encourages readers to see how feminism can touch and change their lives—to see that feminism is for everybody.

A pioneering figure in post-modern approaches to gender, race and sexuality, her prodigious output is matched only by the scope of its concern - touching on everything from aesthetics to the politics of identity to the experience of love. These newly re-issued classics are as inspirational as ever.

Ideal for both undergraduate and graduate students, Critical Media Studies is perfect for courses in Media Studies, Communication, and Digital Media programs. **Ideals and Ideologies** Terence Ball, Richard Dagger, Daniel I. O'Neill, Jennet Kirkpatrick, 2024-10-29 Ideals and Ideologies: A Reader is a comprehensive compilation of classic and contemporary readings representing all major "isms." It offers students a generous sampling of key thinkers in different ideological traditions and places them in their historical and political contexts. Used on its own or with Political Ideologies and the Democratic Ideal, the anthology accounts for the different ways people use ideology and conveys the continuing importance of ideas to politics. New to this edition The twelfth edition includes the following additions: Steven Levitsky and Daniel Ziblatt, "How Democracies Die" (two distinguished political scientists delineate the sources of democratic demise). Ayn Rand, "Collectivized Ethics" (a well-known libertarian

thinker argues that it is illegitimate for governments to legally mandate behavior that benefits other people). Patrick Deneen, “Aristopopulism” (an influential conservative professor makes the case for a new kind of governing alliance between masses and elites). Herbert Marcuse, “One-Dimensional Man” (a renowned twentieth-century Marxist argues that capitalism creates a set of false needs and beliefs that prevent workers from resisting it). “Patriot Front Manifesto” (an Alt-Right white nationalist group attempts to link their ideology to American history and values). Ta-Nehisi Coates, “The Case for Reparations” (a prominent author argues that Americans should seriously consider what it would take to make amends to Black people for the ongoing effects of slavery, Jim Crow, and other forms of discrimination). Kate Manne, “Ameliorating Misogyny” (a contemporary feminist philosopher redefines misogyny as the central mechanism for governing women’s behavior and upholding patriarchy). Lorna Bracewell, “A Story of Queer Survival” (a lesbian feminist scholar links her personal coming-of-age experiences to the central beliefs of the gay liberation movement). Karla Cornejo Villavicencio, “Waking up from the American Dream” (a Harvard graduate and author who came to the United States as an undocumented immigrant describes the challenges faced by people who do not have the rights and privileges of full citizenship). Pope Francis, “Laudate Deum” (the leader of 1.3 billion Catholics worldwide describes how he believes they, and other people of goodwill, should respond to the increasingly urgent climate crisis). Dave Foreman, “In Defense of Monkeywrenching” (a leading radical environmentalist defends non-violent ecological sabotage as morally and politically legitimate). Sayyid Abu’l-A’la Mawdudi, “The Islamic Law” (a highly influential South Asian Islamist thinker defines and defends the necessity of shari’ah for Muslim societies). Hamas, “Charter of the Islamic Resistance Movement of Palestine” (a leading radical Islamist group spells out its core tenets and basic aims at its founding).

*Women Empowerment and the Feminist Agenda in Africa* Musingafi, Maxwell Constantine Chando, Hungwe, Chipso, 2023-10-24 This book argues that African women's lived experiences are often spoken about authoritatively by people who are not included within this demographic, relegating these women to the role of spectators in their own stories. The dominant narratives of African womanhood, legitimized by intellectual discourse, are neither written by African women nor Africans in general. This book seeks to place feminism in Africa into its historical context by revisiting the experiences, practices, vision, and theories of feminism and gender in Africa. It is intended to serve as a comprehensive introduction to the field and provide a starting point for further and more advanced study of the nexus of feminism, gender, and development in Africa. *Women Empowerment and the Feminist Agenda in Africa* is designed to initiate post-graduate research and studies in the social sciences for directed and critical inquiry into the nature of feminist and gender politics and power relations in Africa. It is written for researchers, academics, and advanced tertiary studies, although professional gender and feminist organizations, especially those in Africa or focusing on Africa, will also find a wealth of information. The book is recommended for university libraries, post-graduate students and staff, the non-governmental community in Africa, women

movement organizations in Africa, independent researchers and academics, and the African community at large.

*Energy Justice in Latin America* Adolfo Mejía-Montero, 2025-02-18 This book presents valuable insights, critiques and contributions from energy researchers focused on Latin American case studies. Their work not only enriches the understanding of energy justice but also addresses a significant gap in the current academic literature. Since it was coined as an academic term more than ten years ago, energy justice has experienced accelerated growth as a relevant and widely recognised concept that allows energy researchers to engage with diverse energy issues. Nevertheless, energy justice still faces theoretical and empirical gaps, including a lack of diversity in author demographics and case studies coming from regions in the Global South. Against this backdrop, this book brings together 30 authors whose research draws from Latin American countries like Argentina, Brazil, Bolivia, Chile, Costa Rica, Ecuador, Mexico, Panama and Peru, as well as wider regional perspectives. The selected case studies combine low-carbon transitions, regulations and technologies with issues of gender, indigeneity, (neo)colonialism, autonomy, poverty and inequality. Importantly, the chapters examine how energy justice might influence existing approaches and worldviews on sustainability, which strive for just and clean future energy systems by redressing regional inequalities and tackling the global challenge of climate change. As such, *Energy Justice in Latin America* opens new spaces for a growing research community to redefine and jointly construct a more complete, regionally specific notion of energy justice. Highlighting the ways in which the discussion included in this book resonates with other regions in the Global South, this volume will be of great interest to students and scholars of energy justice, energy poverty, energy democracy and energy policy, as well as Latin American studies more broadly.

*Ain't I a Feminist?* Aaronette M. White, 2008-08-28 *Ain't I a Feminist?* presents the life stories of twenty African American men who identify themselves as feminists, centering on the turning points in their lives that shaped and strengthened their commitment to feminism, as well as the ways they practice feminism with women, children, and other men. In her analysis, Aaronette M. White highlights feminist fathering practices; how men establish egalitarian relationships with women; the variety of Black masculinities; and the interplay of race, gender, class, and sexuality politics in American society. Coming from a wide range of family backgrounds, ages, geographical locations, sexualities, and occupations, each man also shares what he experiences as the personal benefits of feminism, and how feminism contributes to his efforts towards social change. Focusing on the creative agency of Black men to redefine the assumptions and practices of manhood, the author also offers recommendations regarding the socialization of African American boys and the reeducation of African American men in the interest of strengthening their communities.

***African American Women's Literature in Spain*** Sandra Llopart Babot, 2023-05-31 This volume brings forward a descriptive approach to the translation and reception of African American women's literature in Spain. Drawing from a multidisciplinary theoretical and methodological framework, it traces the translation history of literature produced by African

American women, seeking to uncover changing strategies in translation policies as well as shifts in interests in the target context, and it examines the topicality of this cohort of authors as frames of reference for Spanish critics and reviewers. Likewise, the reception of the source literature in the Spanish context is described by reconstructing the values that underlie judgements in different reception sources. Finally, this book addresses the specific problem of the translation of Black English into Spanish. More precisely, it pays attention to the ideological and the ethical implications of translation choices and the effect of the latter on the reception of literary texts.

**Black Feminist Thought and Black Liberation from the late 19th Century to the Contemporary Black Lives Matter Movement** Christelle Ngnoubamdjum, 2019-06-04 Master's Thesis from the year 2017 in the subject American Studies - Culture and Applied Geography, grade: 2.0, University of Frankfurt (Main) (IEAS), course: Amerikanistik, language: English, abstract: This thesis wants to fill the gap and give an insight into the development, the continuity and hence the importance of Black feminist thought within the early and ongoing Black freedom struggle. Due to the complexity and indefinite spectrum of knowledge already produced, this paper aims at outlining a perspective that bridges the late 19th/early 20th century thoughts and efforts of Black feminists with those of the 20th/21st century. There is no such thing as a single-issue struggle because we do not live single-issue lives. Black women in the US have always played a crucial role in the struggle for freedom and recognition of human rights for the African-American population. Against all odds, they have always been the ones who looked out for and took care of the community. Be it in their own family, in the churches or while organizing resistance attempts against a consistent racism and sexism within US-society. The opening quote by Audre Lorde, a self-described “black, lesbian, mother, warrior, poet”, focuses on the fact that human beings do not have one singular feature which defines and impacts their way of life, interactions with or struggles against others. Heterogeneity is the keyword. Black women recognized and understood early on the importance of dealing with the intertwining of various aspects, which all define their lives. Just to name a few of those aspects: being Black and female and poor and of little standard education and - maybe - queer - Many factors define one single person's life, and therefore it is of no avail to put the focus on one single issue, when fighting for social justice.

**Beyond Gender Binaries** Cindy L. Griffin, 2020-10-13 Beyond Gender Binaries uses a feminist, intersectional, and invitational approach to understanding identities and how they relate to communication. Taking readers outside the familiar binary constructions of gender and identity, Cindy L. Griffin addresses—through a feminist intersectional lens—communication, identity, power and privilege, personhood and citizenship, safety in public and private spaces, and hegemony and colonialism. Twelve chapters focus on critical learning through careful exploration of key terms and concepts. Griffin illustrates these with historical and contemporary examples and provides concrete guides to intersectional approaches to communication. This textbook highlights not just the ways individuals, systems, structures, and institutions

use communication to privilege particular identities discursively and materially, but also the myriad ways that communication can be used to disrupt privilege and respectfully acknowledge the nonbinary and intersectional nature of every person's identity. Key features include: Intersectional approaches to explaining and understanding identities and communication are the foundation of each chapter and inform the presentation of information throughout the book. Contemporary and historical examples are included in every chapter, highlighting the intersectional nature of identity and the role of communication in our interactions with other people. Complex and challenging ideas are presented in clear, respectful, and accessible ways throughout the book.

**Gender and Women's Studies, Second Edition** Margaret Hobbs, Carla Rice, 2018-05-03 Now in its second edition, *Gender and Women's Studies: Critical Terrain* provides students with an essential introduction to key issues, approaches, and concerns of the field. This comprehensive anthology celebrates a diversity of influential feminist thought on a broad range of topics using analyses sensitive to the intersections of gender, race, class, ability, age, and sexuality. Featuring both contemporary and classic pieces, the carefully selected and edited readings centre Indigenous, racialized, disabled, and queer voices. With over sixty percent new content, this thoroughly updated second edition contains infographics, original activist artwork, and a new section on gender, migration, and citizenship. The editors have also added chapters on issues surrounding sex work as labour, the politics of veiling, trans and queer identities, Indigenous sovereignty, decolonization, masculinity, online activism, and contemporary social justice movements including Black Lives Matter and Idle No More. The multidisciplinary focus and the unique combination of scholarly articles, interviews, fact sheets, reports, blog posts, poetry, artwork, and personal narratives reflect the vitality of the field and keep the collection engaging and varied. Concerned with the past, present, and future of gender identity, gendered representation, feminism, and activism, this anthology is an indispensable resource for students in gender and women's studies classrooms across Canada and the United States.
