War, Culture and Society in Renaissance Venice John Rigby Hale, David Chambers, Cecil H. Clough, Michael Mallett, 1993-01-01 While the majority of these essays are about wars fought against Venice's enemies or on the building and defence of Venetian and other fortifications, there are also essays on other aspects of Venetian life and art: on Giorgione's earliest work; on the career of a Venetian pope; on the building of the Ca' d'Oro; and on the Diarii of Marino Sanuto.

Relics, Prayer, and Politics in Medieval Venetia Thomas E. A. Dale, 1997 Against a historical backdrop of relic theft and propaganda campaigns waged by two cities vying for patriarchal authority in medieval Venetia, Thomas Dale shows how Romanesque mural painting shaped sacred space and institutional identity. His focus is on the late twelfth-century murals in the crypt of Aquileia Cathedral. The crypt, which contains the relics of Aquileia's founding bishop, Saint Hermagoras, has a historical significance rooted in a legend identifying the saint as a direct disciple of Saint Mark the Evangelist. On this basis, the Carolingians promoted the city's status as patriarchal see of Venetia--a claim that prompted Venice to steal Mark's relics from Alexandria, Egypt, and appropriate Aquileia's history. This book, the first English-language study of the crypt, explores how the paintings complement the relics of Hermagoras in their distinct devotional and political roles. Hermagoras's intercessory power is activated by his orant image displayed over the central aisle within a larger hierarchy of apostles, martyrs, and bishops. The surrounding hagiographic cycle justifies in legalistic fashion Aquileia's patriarchal title and the consecration of the city as locus sanctus of Venetia by the blood of its martyrs. The iconic images in the eastern lunettes present the Virgin's compassio as a pictorial model for the vicarious experience of Christ's Passion. Finally, a fictive curtain over the socle presents allegories of spiritual warfare in the form of exempla from crusades, pilgrimage, and the epic poem Psychomachia, which Dale analyzes as a gloss on the main program.

Ordering Customs Kathryn Taylor, 2023-05-12 Ordering Customs explores how Renaissance Venetians sought to make sense of human difference in a period characterized by increasing global contact and a rapid acceleration of the circulation of information. Venice was at the center of both these developments. The book traces the emergence of a distinctive tradition of

ethnographic writing that served as the basis for defining religious and cultural difference in new ways. Taylor draws on a trove of unpublished sources—diplomatic correspondence, court records, diaries, and inventories—to show that the study of customs, rituals, and ways of life not only became central in how Venetians sought to apprehend other peoples, but also had a very real impact at the level of policy, shaping how the Venetian state governed minority populations in the city and its empire. In contrast with the familiar image of ethnography as the product of overseas imperial and missionary encounters, the book points to a more complicated set of origins.

Science and the Secrets of Nature William Eamon, 2020-06-30 By explaining how to sire multicolored horses, produce nuts without shells, and create an egg the size of a human head, Giambattista Della Porta's *Natural Magic* (1559) conveys a fascination with tricks and illusions that makes it a work difficult for historians of science to take seriously. Yet, according to William Eamon, it is in the how-to books written by medieval alchemists, magicians, and artisans that modern science has its roots. These compilations of recipes on everything from parlor tricks through medical remedies to wool-dyeing fascinated medieval intellectuals because they promised access to esoteric secrets of nature. In closely examining this rich but little-known source of literature, Eamon reveals that printing technology and popular culture had as great, if not stronger, an impact on early modern science as did the traditional academic disciplines.
