*Literary Expressions of African Spirituality* Carol P. Marsh-Lockett, Elizabeth J. West, 2013-04-11 With a focus on the connected spiritual legacy of the black Atlantic, *Literary Expressions of African Spirituality* leads the way to more comprehensive trans-geographical studies of African spirituality in black art. With essays focusing on African spirituality in creative works by several trans-Atlantic black authors across varying locations in the Ameri-Atlantic diaspora, this collection reveals and examines their shared spiritual cosmology. Diasporic in scope, *Literary Expressions of African Spirituality* offers new readings of black literatures through the prism of spiritual memory that survived the damaging impact of trans-Atlantic slaving. This memory is a significant thread that has often been missed in the reading and teaching of the literatures of the African diaspora. Essays in this collection explore unique black angles of seeing and ways of knowing that characterize African spiritual presence and influence in trans-Atlantic black artistic productions. Essays exploring works ranging from turn-of-the-century African American figure W.E.B. DuBois, South African novelist Zakes Mda, Haitian novelists Edwidge Danticat and Jacques Roumain, as well as African belief systems such as Voudoun and Candomble, provide a scope not yet offered in a single published volume. This collection explores the deep and often unconscious spiritual and psychosocial connectedness of people of African descent in the African and Ameri-Atlantic world.

**Black Theology, Slavery and Contemporary Christianity** Anthony G. Reddie, 2016-04-15 *Black Theology, Slavery and Contemporary Christianity* explores the legacy of slavery in Black theological terms. Challenging the dominant approaches to the history and legacy of slavery in the British Empire, the contributors show that although the 1807 act abolished the slave

trade, it did not end racism, notions of White supremacy, or the demonization of Blackness, Black people and Africa. This interdisciplinary study draws on biblical studies, history, missiology and Black theological reflection, exploring the strengths and limitations of faith as the framework for abolitionist rhetoric and action. This Black theological approach to the phenomenon of the trans-Atlantic slave trade and the institution of slavery draws on contributions from Africa, the Caribbean, North America and Europe.

Black British History Hakim Adi, 2019-03-15 For over 1500 years before the Empire Windrush docked on British shores, people of African descent have played a significant and far-ranging role in the country's history, from the African soldiers on Hadrian's Wall to the Black British intellectuals who made London a hub of radical, Pan-African ideas. But while there has been a growing interest in this history, there has been little recognition of the sheer breadth and diversity of the Black British experience, until now. This collection combines the latest work from both established and emerging scholars of Black British history. It spans the centuries from the first Black Britons to the latest African migrants, covering everything from Africans in Tudor England to the movement for reparations, and the never ending struggles against racism in between. An invaluable resource for both future scholarship and those looking for a useful introduction to Black British history, *Black British History: New Perspectives* has the potential to transform our understanding of Britain, and of its place in the world.

**Handbook of Research on Theoretical Perspectives on Indigenous Knowledge Systems in Developing Countries** Ngulube, Patrick, 2016-09-12 There has been a growth in the use, acceptance, and popularity of indigenous knowledge. High rates of poverty and a widening economic divide is threatening the accessibility to western scientific knowledge in the developing world where many indigenous people live. Consequently, indigenous knowledge has become a potential source for sustainable development in the developing world. The *Handbook of Research on Theoretical Perspectives on Indigenous Knowledge Systems in Developing Countries* presents interdisciplinary research on knowledge management, sharing, and transfer among indigenous communities. Providing a unique perspective on alternative knowledge systems, this publication is a critical resource for sociologists, anthropologists, researchers, and graduate-level students in a variety of fields.

**Exploring the African Centered Paradigm** Itibari M. Zulu, 1999

Manhood Development in Urban African-American Communities Roderick J. Watts, Robert J. Jagers, 1997 One of the first books to unite practice, research, and theory in addressing manhood development, *Manhood Development in Urban African-American Communities* helps construct more holistic and progressive notions of African-American manhood. Proceeding from a psychological perspective, this text explores how the development of self-esteem and self-image in African-American men are specifically affected by issues of gender, race, culture, religion, and oppression. This equips readers to promote the positive development of young men.

**Opening to Spirit** Caroline Shola Arewa,1998 Contacting the Healing Power of the Chakras and Honouring African Spirituality The Chakras are very powerful wheels of energy that are present within the body. They are vital to our health and well-being and many healing and bodywork traditions, such as yoga, are based around them. Psychics can often diagnose the health of each chakra through clairvoyant sight. This ancient energy system is often thought to have emerged from the yogic traditions of India. But in *Opening to Spirit* Caroline Arewa explores importance of the Chakras to the Ancient Africans and Egyptians and explores the common root of many of our spiritual traditions, through the mythology of Ancient Egypt, Early India and West Africa. The author draws on ancient Egyptian and African spirituality to create a powerful and accessible way of working with the chakras. By tapping into their healing energy we can learn how to use them for our personal growth and spiritual development. This groundbreaking workbook will allow the people to approach the chakras in a far more complete way and to understand how to access them for everyday use. This book : \* reveals the ancient mysteries of the Aura and Chakras \* introduces African deities, including those of Creation, Truth & Sensuality \* describes techniques for healing and balancing the chakras \* shows how the chakras can be gateways for healing and self-discovery
