*Nineteenth-Century Literature in Transition: The 1830s* John Gardner, David Stewart, 2024-06-06 This instalment in the Nineteenth-Century Literature in Transition series concerns a decade that was as technologically transitional as it was eventful on a global scale. It collects work from a group of internationally renowned scholars across disciplinary boundaries in order to engage with the wide array of cultural developments that defined the 1830s. Often overlooked as a boundary between the Romantic and Victorian periods, this decade was, the book proposes, the central pivot of the nineteenth century. Far from a time of peaceful reform, it was marked by violent colonial expansion, political resistance, and revolutionary technologies such as the photograph, the expansion of steam power, and the railway that changed the world irreversibly. Contributors explore a flurry of cultural forms to take the pulse of the decade, from Silver Fork fiction to lithography, from working-class periodicals to photographs, and from urban sketches to magazine fiction.

Passionate Histories Frances Peters-Little, Ann Curthoys, John Docker, 2010-09-01 This book examines the emotional engagements of both Indigenous and Non-Indigenous people with Indigenous history. The contributors are a mix of Indigenous and Non-Indigenous scholars, who in different ways examine how the past lives on in the present, as myth, memory, and history. Each chapter throws fresh light on an aspect of history-making by or about Indigenous people, such as the extent of massacres on the frontier, the myth of Aboriginal male idleness, the controversy over Flynn of the Inland, the meaning of the Referendum of 1967, and the policy and practice of Indigenous child removal.

**Policing the Lucky Country** Mike Enders, Benoît Dupont, 2001 Policing The Lucky Country addresses key challenges of contemporary Australian policing, and places them within the context of Australia's particular culture and history. The book's approach is to combine policing case studies with an analysis of the wider social and political environment. Policing students are given information which enables them to think critically about contemporary policing practice and to understand the factors behind pervasive attitudes in the forces and the community. In this way, it aims to increase each officer's range of responses, leading to appropriate policing practices and increased safety for the officer. One of the key strengths of the book is the discussion of policing and indigenous persons, with articles on policing indigenous peoples and indigenous participation in policing. Specific police-indigenous clashes are examined and situated within the Aboriginal policies of the

day. This historical perspective illuminates the discussion of current police force relationships with, and responsibilities towards, indigenous persons. Other issues considered - the use of technology, the enforcement of drug laws, the maintenance of public order, the role of police in industrial disputes, the social construction of crime - are studied in similar fashion, and provide a useful source of information and discussion about areas of policing relevant to contemporary police work. This book is designed for first year policing students, but will also be useful in criminology courses.

**Journal of an Overland Expedition in Australia** Ludwig Leichhardt, 2019-12-05 In *Journal of an Overland Expedition in Australia*, Ludwig Leichhardt presents an intricate account of his ambitious exploration across the Australian continent in the mid-19th century. Combining vivid descriptive detail with scientific observation, Leichhardt's narrative captures the harsh beauty of the Australian landscape and the diverse flora and fauna encountered throughout the journey. Written in elegant prose, the journal not only serves as an adventurous travelogue but also contributes significantly to the field of natural history and geographical studies during a period marked by European curiosity about the Australian frontier. Leichhardt's style reflects both Romanticism's appreciation for nature and Enlightenment ideals of discovery and knowledge, placing his work within a broader intellectual context of exploration literature of his time. Ludwig Leichhardt, a Prussian naturalist and explorer, was driven by an insatiable thirst for discovery and a profound respect for the Australian environment. His passionate quest for knowledge and understanding of the continent stemmed from his background in botany and geology, enabling him to document not only the challenges of the expedition but also the natural wonders he encountered. Leichhardt's explorations and writings were marked by both a yearning for recognition in the scientific community and an admiration for the Indigenous cultures he encountered, which informs the depth of his observations. This journal is an essential read for anyone interested in exploration, natural science, or the historical context of Australia in the 19th century. Leichhardt's engaging account not only sheds light on uncharted territories but also invites readers to reflect on the human spirit's resilience in the face of adversity. For historians, scholars, and general readers alike, this work remains a cornerstone in the canon of Australian literature, illuminating a pivotal moment in the understanding of a vast and complex landscape. In this enriched edition, we have carefully created added value for your reading experience: - A succinct Introduction situates the work's timeless appeal and themes. - The Synopsis outlines the central plot, highlighting key developments without spoiling critical twists. - A detailed Historical Context immerses you in the era's events and influences that shaped the writing. - A thorough Analysis dissects symbols, motifs, and character arcs to unearth underlying meanings. - Reflection questions prompt you to engage personally with the work's messages, connecting them to modern life. - Hand-picked Memorable Quotes shine a spotlight on moments of literary brilliance. - Interactive footnotes clarify unusual references, historical allusions, and archaic phrases for an effortless, more informed read.

Empires of Violence Philip Dwyer, Barbara Alice Mann, Nigel Penn, Lyndall Ryan, 2025-10-30 Violence was a constant on all colonial frontiers, from the British expansion into the Australian and African continents, to the expansion of the United States and the Napoleonic Empire's many incursions into Europe. Yet how did the forms of violence perpetrated in these four corners of the world compare? Did the oppression and exploitation of colonized peoples constitute a new form of violence? Or was it the same that Europeans had always used against conquered peoples? In this book, four experts specializing in four different regions of the world come together to interrogate the violence committed against Indigenous peoples between 1780 and 1820. Showing how violence and massacre were a tool at the disposal of the colonizer, and often used to subjugate unruly populations, they examine the changing nature of warfare and killing from both a European and Indigenous perspective. *Empires of Violence* shows how race, othering and fear were maintained and buoyed by violence, in spite of prevailing discourses on humanitarianism, civilization and progress.
