

Philosophically About The Thing Itself

Wilhelm Windelband, James Hayden Tufts

The Oxford Handbook of Causation Helen Beebe, Christopher Hitchcock, Peter Menzies, 2012-01-12 Causation is a central topic in many areas of philosophy. In metaphysics, philosophers want to know what causation is, and how it is related to laws of nature, probability, action, and freedom of the will. In epistemology, philosophers investigate how causal claims can be inferred from statistical data, and how causation is related to perception, knowledge and explanation. In the philosophy of mind, philosophers want to know whether and how the mind can be said to have causal efficacy, and in ethics, whether there is a moral distinction between acts and omissions and whether the moral value of an act can be judged according to its consequences. And causation is a contested concept in other fields of enquiry, such as biology, physics, and the law. This book provides an in-depth and comprehensive overview of these and other topics, as well as the history of the causation debate from the ancient Greeks to the logical empiricists. The chapters provide surveys of contemporary debates, while often also advancing novel and controversial claims; and each includes a comprehensive bibliography and suggestions for further reading. The book is thus the most comprehensive source of information about causation currently available, and will be invaluable for upper-level undergraduates through to professional philosophers.

Good and Evil: 12 Philosophers on How to Live Andrew Irwin, 2025-11-20 *Introduced by Rory Stewart* What makes a person good? What does it mean to be evil? And what does it tell us about being human?

Michael Oakeshott, the Ancient Greeks, and the Philosophical Study of Politics Eric Steven Kos, 2016-07-20 This book addresses a question fundamental for Oakeshott throughout his life, which is what we are doing when we read and discuss some memorable work in the history of political thought. The approach the book takes to Oakeshott's response to this question is of particular interest in that it explores in detail extensive notes he made on the beginnings of political philosophy in ancient Greece in an unpublished set of notebooks in which he recorded his thoughts on many different subjects throughout his life. In addition, the book gives contemporary significance to Oakeshott's interpretation of the history of political thought by using it to confront a series of contemporary challenges to the study of the history of political thought and to the study of the 'great books.' In particular, Oakeshott's distinction between 'various kinds or levels of political thought' is carefully analyzed, as is also the extent of his agreement and disagreement with Quentin Skinner. In the concluding chapter, the author relates Oakeshott's view of the nature of the history of political thought to his well-known

description of philosophy as 'conversation', describing it as an introduction to that conversation.

Modern French Philosophy Vincent Descombes, 1980 A critical introduction to modern French philosophy, from one of the liveliest contemporary practitioners.

Skepticism Films Philipp Schmerheim, 2017-06-29 Skepticism Films: Knowing and Doubting the World in Contemporary Cinema introduces skepticism films as updated configurations of skepticist thought experiments which exemplify the pervasiveness of philosophical ideas in popular culture. Philipp Schmerheim defends a pluralistic film-philosophical position according to which films can be, but need not be, expressions of philosophical thought in their own right. It critically investigates the influence of ideas of skepticism on film-philosophical theories and develops a typology of skepticism films by analyzing *The Truman Show*, *Inception*, *The Matrix*, *Vanilla Sky*, *The Thirteenth Floor*, *Moon* and other contemporary skepticism films. With its focus on skepticism as one of the most significant philosophical problems, Skepticism Films provides a better understanding of the dynamic interplay between film, theories of film and philosophy.
