*Unintended Consequences of Domestic Violence Law* Heather Nancarrow, 2019-09-07 This book addresses the intersection of two current major concerns in Australia: law and justice responses to domestic violence - including harsher punitive measures - and the over-representation of Indigenous Australians in the criminal justice system, which are similar concerns in New Zealand, Canada and the US. Nancarrow re-conceptualises typologies of violence and provides a means of understanding and explaining female use of violence without undermining the hard-won gains of the women's movement. It does, however, argue for a paradigm shift, which has implications for every aspect of the system we have built to stop men's violence against women (law, police policy and practice, counselling and advocacy for victims, and interventions for those who perpetrate violence). The book is based on quantitative and qualitative research and explores the nature of Indigenous intimate partner violence and the types of violence that domestic violence law sought to address.

**Domestic Violence** Karen Latchana Kenney, 2011-09-01 This title examines one of the world's critical issues, domestic violence. Readers will learn the historical background of this issue leading up to its current and future impact on society. What is domestic violence, and the causes of domestic violence such as substance abuse and low self esteem are discussed. Types of domestic violence such as physical, verbal, and digital abuse are examined, as are their affects such as low self esteem and depression. The profile of an abuser as well as the six main phases in the cycle of abuse are examined. Victims of domestic violence such as partner, child, and elder abuse, are highlighted, as are reactions of victims, how to identify domestic violence, and how to make a safety plan. Lasting Effects of domestic violence such as posttraumatic stress disorder (PTSD) and health consequences are discussed, as is how to help a victim. Legislation and programs intended to end domestic violence such as the Family Violence Prevention and Services Act (FVPSA), Child Abuse Prevention and Treatment Act (CAPTA), Violence Against Women Act (VAWA), Victims of Crime Act (VOCA), National Coalition Against Domestic Violence (NCADV), Start Strong, the National Domestic Violence Hotline, Domestic Violence Awareness Month and the Day of Unity are introduced. Engaging text, informative sidebars, and color photographs present information realistically, leaving

readers with a thorough, honest interpretation of domestic violence. Features include a timeline, facts, additional resources, Web sites, a glossary, a bibliography, and an index. Essential Issues is a series in Essential Library, an imprint of ABDO Publishing Company.

*Marital Cruelty in Antebellum America* Robin C. Sager,2016-07-06 In *Marital Cruelty in Antebellum America*, Robin C. Sager probes the struggles of aggrieved spouses shedding light on the nature of marriage and violence in the United States in the decades prior to the Civil War. Analyzing over 1,500 divorce records that reveal intimate details of marriages in conflict in Virginia, Texas, and Wisconsin from 1840--1860, Sager offers a rare glimpse into the private lives of ordinary Americans shaken by accusations of cruelty. At a time when the standard for an ideal marriage held that both partners adequately perform their respective duties, hostility often arose from ongoing domestic struggles for power. Despite a rise in the then novel expectation of marriage as a companionate relationship, and even in the face of liberalized divorce grounds, marital conflicts often focused on violations of duty, not lack of love. Sager describes how, in this environment, cruelty was understood as a failure to fulfill expectations and as a weapon to brutally enforce more traditional interpretations of marital duty. Sager's findings also challenge historical literature's assumptions about the regional influences on violence, showing that married southerners were no more or less violent than their midwestern counterparts. Her work reveals how definitions and perceptions of cruelty varied according to the gender of victim and perpetrator. Correcting historical mischaracterizations of women's violence as trivial, rare, or defensive, Sager finds antebellum wives both capable and willing to commit a wide variety of cruelties within their marriages. Her research provides details about the reality of nineteenth-century conjugal unions, including the deep unhappiness buried within them.

**Abuse in the Family** Alan R. Kemp, 1998 In this practical, eye-opening book, author Alan Kemp uses an ecological approach to examine the widespread social problem of family maltreatment. By examining the complex relationships that exist on a macro, meso, and micro level, students will be better prepared to make a difference in a world confronted by this colossal and disheartening social problem and to answer the following questions: Why does family maltreatment occur?, What do its victims experience?, How do they recover?, What can we do to help them?, How can we understand the perpetrators?, and How might we reduce or prevent family abuse?

*Domestic Violence*, 1990

**Arresting Abuse** Keith Guzik, 2009 Somewhat overlooked in this debate has been how mandatory arrest and no-drop prosecution affect abusers, a critical question for understanding the power of criminal punishment to combat intimate partner abuse. In *Arresting Abuse*, Keith Guzik answers this question. Drawing both from firsthand observations of a police department and a criminal court following mandatory policies and extensive interviews with 30 offenders arrested and prosecuted for domestic violence, *Arresting Abuse* provides a critical assessment. While mandatory arrest and no-drop prosecution allow the state to extend formal legal supervision over an increasing number of violent men and women, thus seemingly increasing its power over them, offenders prove resistant to change. They see themselves as victims of injustice, continue to view their violence as justified, and devise new strategies to preserve their definition and enactment of self.

**Workbook It Ends with Us Quotes** Alex Parker, 2018-01-14 This book is quotes for inspiration. Violence against women and children is a very sensitive topic because nowadays anyone can be a victim or is already suffering from it. According to the World Health Organization, domestic violence is a pattern of abusive behavior in any relationship that is used by one partner to gain or maintain power and control over another intimate partner. It can be physical, sexual, emotional, economic,

or psychological actions or threats of actions that influence another person. This story broke my heart multiple times and it's really frustrating that here I am, trying to make sense out of it and putting myself back together after having it torn and crushed into pieces. I personally do not know anyone who is a victim of abuse, and I don't even know if I'm ready to face anyone of them.

Sins Of Omission Carol Goodman Kaufman,2003-10-02 A compelling investigation of the Jewish community's reaction - or nonreaction - to domestic violence

**Aboriginal Domestic Violence in Canada** Judie Bopp,Michael Bopp,Phil Lane,Four Worlds Centre for Development Learning,2003 This study builds on many valuable contributions already made to the understanding of family violence and abuse in Aboriginal communities over the past fifteen years, especially in terms of mapping the complex web of factors that create and sustain this critical issue at the level of individuals, extended families, community systems and the socio-environmental context within which they exist. Closely aligned to this intent is the study's articulation of a comprehensive framework for intervention that addresses root causes and identifies a set of strategies for significantly reducing the horrendous levels of domestic violence and abuse now on-going in many communities --Executive summary.

**The Language of Battered Women** Carol L. Winkelmann,2004 This study of battered women living in a shelter offers a rhetorical analysis of survivors' personal theologies. Author Carol L. Winkelmann holds that while it is virtually ignored in the domestic violence literature, the Christian heritage of many battered women plays a significant, if complicated, role in their language, thoughts, and lives. The women's religious faith serves not only to sustain them through periods of profound suffering, but also to develop solidarity with other culturally-different women in the shelter. Designed to assist women to greater independence, the shelter actually functions as a culture of surveillance where women turn to one another and to their faith to cope with the trauma of violence. To heal, the women engage in dialogue that is dense in religious imagery, talking about the relationship of God and the church to suffering and evil. At the same time, these women also acknowledge that organized religion is very much involved in the maintenance of patriarchal marriage and its attendant abuses in their own lives. Together, battered women are sometimes able to construct creative theological responses to the problem of suffering and evil. A mix of religious and secular languages compels them to devise new ways of thinking about their role in family, church, and society.
