What Your Second Grader Needs to Know (Revised and Updated) E.D. Hirsch, Jr.,2014-08-26 Give your child a smart start with the revised and updated What Your Second Grader Needs to Know What will your child be expected to learn in the second grade? How can you help him or her at home? This book answers these all-important questions and more, offering the specific shared knowledge that hundreds of parents and teachers across the nation have agreed upon for American second graders. Designed for parents and teachers to enjoy with children, featuring a new Introduction, this second-grade volume of the Core Knowledge Series presents the knowledge and skills that should be at the core of a challenging second-grade education, including • Favorite poems—old and new, from “Caterpillars” to Gwendolyn Brooks’s prizewinning “Rudolph Is Tired of the City” • Literature—from around the world, with African folktales, American tall tales, European fairy tales, and classic myths from ancient Greece • Learning about language—the basic building blocks of written English, all explained with a touch of humor and common sense • World and American history and geography—visit Japan, explore ancient Greece, travel the Underground Railroad with Harriet Tubman • Visual arts—with activities and full-color illustrations of masterworks by El Greco, Van Gogh, Matisse, and others • Music—basic theory, great composers, instruments, and fun-to-sing songs such as “I’ve Been Working on the Railroad” and “Do-Re-Mi” • Math—challenging lessons ranging from telling time to doing fractions, numbers to 100, and a first look at geometry • Science—the cycle of life and the seasons, levers and magnets, the wonder of the human body, and more, with lots of hands-on activities and stories about famous scientists

What Your Second Grader Needs to Know E.D. Hirsch, Jr.,2009-07-29 From the Introduction: What kind of knowledge and skills can your child be expected to learn in second grade at school? How can you help your child at home? These are questions that we try to answer in this book. It presents the sort of knowledge and skills—in literature, reading and writing, history and geography, visual arts, music, mathematics, and science—that should be at the core of a challenging second-grade education. Because children and localities differ greatly across this big, diverse country, so do second-grade classrooms. But all communities, including classrooms, require some common ground for communication and learning. In this book we present the specific shared knowledge that hundreds of parents and teachers across the nation have agreed upon for American second graders. This core is not a comprehensive prescription for everything that every second grader needs to know. Such a complete prescription would be rigid and undesirable. But the book does offer a solid common ground

that will enable young students to become active, successful learners in their classroom community and later in the larger communities we live in—town, state, nation, and world. BONUS: This edition includes an excerpt from *What Your Third Grader Needs to Know*.

Multicultural and Ethnic Children's Literature in the United States Donna L. Gilton,2007-07-09 This book describes the history and characteristics of ethnic and multicultural children's literature in the U.S., as well as related materials published

elsewhere. It relates in great detail the people, businesses, organizations, and institutions that create, disseminate, promote, critique, and collect these materials. Author Donna Gilton gives a detailed history of U.S. multicultural and ethnic children's literature throughout several historic periods, relating these developments to general social and political U.S. history. Chapters illustrate characteristics of U.S. multicultural children's books, the major issues in the field, and multicultural initiatives and mainstream responses, while also providing outlines of research possibilities in the field and suggesting other groups of people who should be emphasized more in the future. In doing all this, *Multicultural and Ethnic Children's Literature in the United States* brings together valuable and scattered information for the busy and involved librarians, teachers, parents, publishers, distributors, and community leaders who wish to use and promote this material with children.

What Your First Grader Needs to Know Eric Donald Hirsch, 1993 Since the Core Knowledge series was introduced, hundreds of thousands of children have benefited from these books' effective and user-friendly knowledge based curriculum. Researchers at the Core Knowledge Foundation constantly refine and update the curriculum based on feedback they receive from parents and teachers across the country. This new, revised edition of *What Your First Grader Needs to Know* reflects the fruit of that research and features a complete redesign with 32 pages of color

Curriculum Books William Henry Schubert, 2002 A substantial revision of *Curriculum Books: The First Eighty Years*, this new volume is a comprehensive presentation of curriculum books that have contributed to theoretical and practical discourse about curriculum throughout the twentieth century. Following an introduction that explains the book's purpose and how it was constructed, the authors present each decade in a chapter that provides contextual reminders about the social, political, and cultural events of the time period, discussion of salient events in curriculum discourse, and a comprehensive bibliography (by year) of curriculum books. More than 3,000 curriculum books are weaved into this presentation. The original and updated conclusions are offered to provide interpretative perspective on curricular trends, state of the field, and possibilities for the future of curriculum studies. --Publisher description.
