Kenneth Rogers Jr.

Heroes, Villains, and Healing Kenneth Rogers Jr.,2017-06-12 1 in 6 males will be sexually abused in their lifetime. This fact is often ignored or not believed. *Heroes, Villains, and Healing* is a guide to help male survivors of childhood sexual abuse understand and heal from the trauma of their past using DC Comic Book superheroes and villains. This helpful book is divided into three parts. The first is "Heroes," which explains how some coping strategies of male survivors are similar to the archetypes of such DC superheroes as Superman, Batman, and the Flash. The second part, "Villains," examines how other coping strategies may not be as positive, having traits and attitudes of villains such as Lex Luthor and the Joker. "Healing" is the final part, which explains how striving to live the life of a hero or a villain can be sustainable. To truly heal from childhood sexual abuse means working through the stages of healing and receiving help from a therapist or counselor. This final section includes writing exercises and examples that help male survivors know they are not alone, as they come to terms with their abuse and heal from past trauma. The book was written to help male survivors open up about their abuse, seek help, and stop suppressing their trauma through drug and alcohol abuse, or suicide.

Zizek and Law Laurent de Sutter,2015-03-05 The very first book dedicated to Slavoj Zizek's theoretical treatment of law, this book gathers widely recognized Zizek scholars as well as legal theorists to offer a sustained analysis of the place of law in Zizek's work. Whether it is with reference to symbolic law, psychoanalytical law, religious law, positive law, human rights, to Lacan's, Hegel's, or Kant's philosophies of law, or even to Jewish or Buddhist law, Zizek returns again and again to law. And what his work offers, this volume demonstrates, is a radically new approach to law, and a rethinking of its role within the framework of radical politics. With the help of Zizek himself - who here, and for the first time, directly engages with the topic of law - this collection provides an authoritative account of 'Zizek and law'. It will be invaluable resource for researchers and students in the fields of law, legal theory, legal philosophy, political theory, psychoanalysis, theology, and cultural studies.
