Redirect Timothy D. Wilson, 2011-09-08 What if there were a magic pill that could make you happier, turn you into a better parent, solve a number of your teenager's behavior problems, reduce racial prejudice, and close the achievement gap in education? There is no such pill, but story editing -- the scientifically based approach described in *Redirect* -- can accomplish all of this. The world-renowned psychologist Timothy Wilson shows us how to redirect the stories we tell about ourselves and the world around us, with subtle prompts, in ways that lead to lasting change. Fascinating, groundbreaking, and practical, *Redirect* demonstrates the remarkable power small changes can have on the ways we see ourselves and our environment, and how we can use this in our everyday lives. There are few academics who write with as much grace and wisdom as Timothy Wilson. *Redirect* is a masterpiece. -- Malcolm Gladwell

Big Food, Big Pharma, Big Lies Martha Rosenberg, 2023-10-15 This hard-hitting exposé by leading national muckraker Martha Rosenberg blows the lid off of everything you thought you knew about Big Pharma and Big Food. What goes on behind the scenes in these industries is more suspicious, more devious, more disreputable than you could have ever imagined. Rosenberg's message is clear: the pharmaceutical and agricultural industries are tainting public health through marketing disguised as medical education and research, aggressive lobbying, and high-level conflicts of interest. If you're concerned about the safety of the drugs you take and the food you eat, you owe it to yourself to read this important book. Having gained the trust of more than twenty doctors, researchers, and experts who were willing to come forward and finally tell all, reporter and editorial cartoonist Martha Rosenberg presents us with her shocking findings. Explosive material from whistle-blowers, scientists, unsealed lawsuits, and Big Pharma's and Big Food's own marketers exposes how these industries put profits before public safety and how the government puts the interests of business before the welfare of consumers, creating a double whammy that "pimps" the public health. What Rosenberg reveals about government complicity, regulatory food- and drug-safety lapses, and legislative injustices will both shock and appall. Why have federal meat inspectors become pathetic figureheads in the nation's slaughterhouses, laughed at by plant managers? Why are medical articles that have been exposed in lawsuits as fraudulent still standing and not retracted? Why was meat possibly containing the United States' first mad cow sold to five California restaurants when the government said it wasn't? And why are parents giving their one-year-olds acid reflux medications and their three-year-olds bipolar disorder medications? You'll find the answers to these and

many more disturbing questions in this revealing book.
