The Book of Enoch ,1882

*The Book Of Enoch* Efren Gamboa,2018-08-31 The book of Enoch was the first book ever written in any language. The language was described as the heavenly language; which today we know it as Hebrew. Hebrew was also the language of the first humans and all living things before the fall of man at the Garden of Eden. But because of the distribution of languages during the Tower of Babel; Hebrew was forgotten until the lifetime of Abraham. Abraham was taught the language by angels of God and he revive the Heavenly language upon the Earth. So, now days there will be other languages that will test more ancient then Hebrew through discoveries of things that have a written language upon it; that can be carbon tested for age; unless we can find the original books of Enoch; but until now only translations of the book have been found in other languages. In the Dead Sea scrolls the book of Enoch was found within the books revered as the books of the old testaments that were dated from 404 to 203 BCE. What they found was only a copy of the book and not the original. According to what language the manuscript is found; the rewriters gave the God of their religion the credit of being God creator; but the world knows that only the God of Israel had angels with the name of Michael, Gabriel and Ariel. All others have been copycats and have tried to include the names of what they call their own angels and gods and beliefs into the book of Enoch.

*The Book of Enoch* Enoch,2013-01-03 The Book of Enoch is the most notable extant apocalyptic work outside the canonical Scriptures. It describes the fall of the Watchers, the angels who fathered the Nephilim (cf. the bene Elohim, Genesis 6: 1-2). The fallen angels went to Enoch to intercede on their behalf with God after he declared to them their doom. The remainder of the book describes Enoch's visit to Heaven in the form of a vision, and his revelations.

**'The Real Scriptures' of God - New Testament** James Platter,2012-09-29 Inside the covers of this book you will find the Real Scriptures of the Christian churches. Many church leaders know that other Christian churches hold to these books but they are only willing to state what they have been brain-washed to believe, that is about the other inferior books: It isnt in

the canon (of scripture) formed of course by the early Catholic Church at various stages and Councils from the fourth century A.D. therefore no one has the right to change what is in the canon of scripture and the Catholic Church changed it in their councils not in agreement of other Christians but to hide their offence at the words of God. They would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first declared by the Catholic Church and its priests but other priests must be considered demented or apostate, but they are not affected by the changes they made to the canon of Scripture over many centuries. They will not consider the canons of Orthodox Churches or others because they vary in different regions of the world. So is European Christianity based in the Vatican City right about all its holy scriptures while everyone else's church scriptures are false scriptures? Ethiopia it seems got most books of scripture right even with their translation into an ancient language! The Real Scriptures, edited by James Platter above, a layman who formerly studied the scriptures for many years with the Baptist Bible Fellowship in San Dimas, California in the United States, but now rejects the reduced 1627 A.D. Version of the KJV Bible, and formally learned the Greek language of the New Testament at Capernwray Missionary Fellowship, Moss Vale, N. S. W. Australia under the Reverend Alan Catchpoole in 1973.

**The Book of Enoch** George Henry Schodde, 2015-07-10 Excerpt from The Book of Enoch: Translated From the Ethiopic, With Introduction and Notes Scarcely any department of theological science has, in the last few decades, received such marked attention and cultivation as that branch for which the Germans have adopted the felicitous appellation Neutestamentliche Zeitgeschichte, - the study of the age of Christ in its political, social, and religious aspects. Observant readers will not have failed to detect that the tendency of modern evangelical theology is to transfer the centre of interest from the work of Christ to the person of Christ. Hand in hand, and in close connection with this general tendency, certain auxiliary branches have assumed an importance hitherto not attributed to them. When the person of Christ forms the cynosure of all eyes, his surroundings proportionally grow in interest and importance; and hence it is not surprising that so

much acumen and learning have been employed in the truly fascinating study of the Palestine of Christ's day in all its relations. The central sun casts its rays of resplendent light on every-day objects, and these become prominent in proportion as they reflect this light. *Crisis Music* Ian Goodyer, 2009-10-15 Marching to the beat of punk rock and reggae, Rock Against Racism was a mass movement built in opposition to racism and fascism in 1970s Britain. At a time of severe economic and social crises, RAR, alongside the Anti-Nazi League, organised one of the biggest and most effective political and cultural mobilisations of the post-war period. Expressing itself through spectacular carnivals, concerts, marches and innovative forms of design and communication, RAR combined hard-headed political organisation with the optimism and energy of radical youth culture. Drawing on interviews with activists, supporters and critics, and based on the latest research, Crisis Music explores the nature of this ground-breaking politico-cultural phenomenon. The author explains why RAR seized upon the power and passion of punk and reggae, and how this has helped to shape the boundaries of modern popular music. He also offers, for the first time, a clear picture of the relationship between RAR and its main political sponsor, the Socialist Workers Party. Crisis Music discusses RAR's place within the left's often-troubled encounters with popular culture, and draws comparisons

with other music-based movements and campaigns, such as the post-war folk revival and Live 8. This book casts light on numerous current debates: about 'celebrity politics' and the role of musicians as political spokespeople, for instance, and the links between ethnicity, popular culture and politics. It will be of value to students and researchers in cultural studies, politics and labor history, and to anyone interested in the role of culture in political activity.

*Race, Faith and Planning in Britain* Richard Gale, Huw Thomas, 2020-09-21 *Race, Faith and Planning in Britain* adopts a Critical Race Theory perspective to analyse and discuss challenges of planning in contemporary multi-ethnic Britain. Exploring how planning is affected by and affects the racialisation of social relations, this book charts the history of the UK planning system's approach, in terms of the spatial consequences of immigration, and discourses of diversity, cohesion, citizenship and belonging. Authors Richard Gale and Huw Thomas pay special attention to the experiences of minority groups in Britain, including Gypsies and Travellers, and British Muslims. They underline that the struggle over planning in racialised societies must be construed as part of a wider political struggle over equality. This book is an essential read for students and practitioners of planning in multi-cultural contexts.

**The Book of Enoch** Enoch Son of Jared, 2017-06-23 The Book of Enoch is an ancient Jewish religious work, ascribed by tradition to Enoch, the great-grandfather of Noah, although modern scholars estimate the older sections (mainly in the Book of the Watchers) to date from about 300 BC, and the latest part (Book of Parables) probably to the first century BC. It is not part of the biblical canon as used by Jews, apart from Beta Israel. Most Christian denominations and traditions may accept the Books of Enoch as having some historical or theological interest, but they generally regard the Books of Enoch as non-canonical or non-inspired. It is regarded as canonical by the Ethiopian Orthodox Tewahedo Church and Eritrean Orthodox Tewahedo Church, but not by any other Christian groups. It is wholly extant only in the Ge'ez language, with Aramaic fragments from the Dead Sea Scrolls and a few Greek and Latin fragments. For this and other reasons, the traditional Ethiopian belief is that the original language of the work was Ge'ez, whereas non-Ethiopian scholars tend to assert that it was first written in either Aramaic or Hebrew; Ephraim Isaac suggests that the Book of Enoch, like the Book of Daniel, was composed partially in Aramaic and partially in Hebrew. No Hebrew version is known to have survived. It is asserted in the book itself that its author was Enoch, before the Biblical Flood. The authors of the New Testament were familiar with the content of the story and influenced by it: a short section of 1 Enoch (1 En 1:9 or 1 En 2:1 depending on the translation) is quoted in the New Testament, Epistle of Jude, Jude 1:14-15, and is attributed there to Enoch the Seventh from Adam (1 En 60:8). The text was also utilised by the community that originally collected the Dead Sea Scrolls.
