

Ejemplo De Un Diseo Curricular De Una Escuela

Mel Ainscow

Diseño y desarrollo curricular Miguel Ángel Zabalza, Miguel Ángel Zabalza Beraza, 1987-01-11 Este libro, que está cuidadosamente pensado para los docentes, entiende la figura del profesor y su tarea como un compromiso tanto con lo educativo como con la técnica didáctica. La idea de un desarrollo curricular centrado en la escuela, ha sido el leitmotiv de la obra. El profesor no puede ya trabajar solo, desconectado de sus colegas. Aunque suponga esfuerzo organizativo, ideológico (y hasta económico), es preciso romper la inercia para construir una nueva escuela.

Evaluación del curriculum en los centros escolares Robert McCormick, Mary James, 1997 La evaluación del curriculum constituye un campo en rápido desarrollo dentro de la teoría y la práctica educativas. Su interés ha aumentado a consecuencia de un conjunto de necesidades y presiones: el movimiento a favor de unas instituciones escolares más responsables ante el público al que sirven, la urgencia de encontrar fórmulas eficaces para estimular el desarrollo profesional del profesorado, la atención a la calidad y coherencia de las tareas escolares en los centros y, en resumen, el compromiso con la mejora del sistema educativo. La evaluación curricular tiene que desempeñar un papel importante en estas cuestiones, aunque aún no han llegado a comprenderse del todo los problemas y posibilidades que encierra la implantación de la evaluación y los diversos fines que cumple. Robert McCORMICK y Mary JAMES aclaran en este libro los principales aspectos profesionales, éticos, políticos, teóricos y prácticos de la evaluación, y presentan propuestas y reflexiones relacionadas con una serie de estrategias y técnicas de evaluación que se utilizan en la actualidad. Se basan en experiencias llevadas a cabo en diversos países en donde existe una importante tradición de evaluación de centros escolares, en especial el Reino Unido, Australia y los Estados Unidos, para estudiar las posibilidades de los enfoques internos y externos de la evaluación y de combinaciones de ambos. También prestan atención a la cuestión fundamental de la influencia de la evaluación sobre el desarrollo curricular y, en consecuencia, sobre la enseñanza y el aprendizaje. Este libro constituye, asimismo, una referencia práctica para quienes tratan de planificar y desarrollar evaluaciones curriculares en sus propios centros.

Didáctica de la educación física Onofre Ricardo Contreras Jordán, 2004 El cambio operado en el sistema educativo supone, a su vez, la necesidad de cambiar los planteamientos en la formación inicial del profesorado, sobre todo, por referencia, al área de Educación Física, tan balbuceante a la hora de argumentar su propia presencia en el curriculum

escolar. Es por ello que esta obra afronta la respuesta a interrogantes generales, como son aquellos referidos al papel de la Educación Física en el sistema educativo, o como afrontar su enseñanza y desde que postulados. En todo caso, estas son cuestiones que ha de plantearse todo profesor reflexivo, y a las que desde estas páginas el autor se suma. Ahora bien, ello no obsta para que la decidida vocación docente del texto no haga su aparición, tanto por la estructura y distribución de la obra como por el tratamiento de sus diversos capítulos, muy apegados a la realidad de la docencia universitaria.

Desarrollo de escuelas inclusivas Mel Ainscow, 2001-02-15 Este libro ofrece muchas ideas, reflexiones, propuestas y experiencias para lograr que las escuelas y las aulas sean más inclusivas, es decir, para que lleguen a ser contextos en continuo desarrollo, capaces de ponerse al alcance de aquellos alumnos y alumnas que encuentren dificultades en su participación y en su aprendizaje. Se basa en las investigaciones realizadas y en la experiencia acumulada por el autor en este campo durante más de veinte años. Incluye numerosas iniciativas orientadas a encontrar formas eficaces de apoyar a las escuelas y a los maestros para que den respuesta a las alumnas y alumnos con dificultades de aprendizaje. El autor recomienda una orientación que consiste en el desarrollo de prácticas que sirvan para todos los alumnos y alumnas, considerando a quienes presenten dificultades especiales como auténticos estímulos de este proceso. De este modo, se establece una relación directa entre lo que suele denominarse educación especial y la cuestión básica de conseguir que las escuelas sean mejores y más eficaces. Esta orientación contribuye a iluminar la idea de eficacia y, por tanto, hace que la obra resulte interesante para un amplio conjunto de lectores preocupados por la mejora de la escuela. El texto está salpicado de multitud de anécdotas y ejemplos, extraídos de investigaciones llevadas a cabo en diversos países, que incluyen descripciones de procedimientos y materiales que han demostrado su utilidad en la práctica escolar.

Horizontalidad Marina Sitrin, 2005 Este libro relata la historia de una sociedad en cambio, contada por personas que están tomando sus vidas y sus comunidades en sus propias manos. Halban en su propias voces. Es una historia de cooperación, visión, creación y descubrimiento. Es una historia contada por personas en las empresas recuperadas, las asambleas barriales, los medios independientes, los colectivos de arte, y los movimientos de los desocupados. Más que una historia en contexto, este libro refleja y explora lo que la gente está haciendo, que los motiva, como se relacionan entre sí, y como han cambiado individual y colectivamente en el proceso de creación. No se trata tanto de un movimiento de acciones, sino de un movimiento de nuevos actores sociales, nuevos sujetos, y nuevos protagonistas.
