Beautiful China Lina Unali,2016-08-17 This volume discusses the centuries-old familiarity between Europe and China. It explores the European nations' admiration for the distant Asian country, and their attempt at capturing the meaning of its ancient culture and language.

Jerusalem Without God Paola Caridi,2017 Jerusalem without God leads the reader through the streets, malls, suburbs, traffic jams, and squares of Jerusalem's present moment, into the daily lives of the men and women who inhabit it. Caridi brings contemporary Jerusalem alive by describing it as a place of sights and senses, sounds and smells, but she also shows us a city riven by the harsh asymmetry of power and control embodied in its lines, limits, walls, and borders. She explores a cruel city, where Israeli and Palestinian civilians sometimes spend hours in the same supermarkets, only to return to the confines of their respective districts, invisible to each other.

Building Meaning Tamara Metz,2021-12-30 Building Meaning: An Architecture Studio Primer on Design, Theory, and History is an essential introduction to the complex relationship between form making, historical analysis, and conceptual explorations. This book focuses on the relationship and interdependence between design, theory, and history for an innovative and holistic studio approach. Rather than suggest a singular narrative, this book draws from a diverse range of thinkers and designers to highlight the many interpretations of key architectural concepts, and provides readers with the context essential for developing their own approaches to any design problem. Building Meaning is organized to reflect the typical studio process, with stand-alone chapters that provide flexibility for use at any stage of design. The ideal book for beginning and intermediate architecture students, it gives specific methods to apply in the studio to make the most of the design process, as well as focused exercises to creatively explore each concept presented. Illustrated with more than 250 color images, it enables readers to engage and understand critically the genesis of architectural ideas and their role in our social and cultural experience.

Philosophy, Travel, and Place Ron Scapp,Brian Seitz,2018-12-11 This book continues the exploration of themes either neglected or devalued by others working in the field of philosophy and culture. The authors in this volume consider the domain of travel from the broadest and most diverse of philosophical perspectives, covering everyday topics ranging from commuting and vacation travel to immigration and forced relocation. Our time in transit, our being in transit, and our time at

rest, whether by choice or edict, has always been at issue, always been at play (and has always been in motion, if you will), for our species. The essays collected here explore the possibilities of the material impact of being able to move or stay put, as well as being forced to go or prevented from leaving.

Venice in Environmental Peril? Dominic Standish, 2012 Venice is perceived to be in peril due to rising sea levels, tourism, and modern development. This book is based on interviews with Venetian environmentalists about Venice's environmental risks, especially regarding the city's anticipated mobile dams. It offers a ten-point pro...

Invisible Cities Italo Calvino, 1978 In Kublai Khan's garden, at sunset, the young Marco Polo diverts the aged emperor from his obsession with the impending end of his empire with tales of countless cities past, present, and future.

Utopia, Equity and Ideology in Urban Texts Michael G. Kelly, Mariano Paz, 2023-08-28 *Utopia, Equity and Ideology in Urban Texts: Fair and Unfair Cities* explores the complex interrelations of three key critical topics across a diverse range of urban writing. Interrogating the links and tensions between aesthetic and political priorities in the representation and imagining of urban life, the volume engages with work from a wide variety of linguistic and cultural origins and across a range of textual practices having the urban phenomenon as a common framing concern. Individual contributions discussing genre and literary fiction, poetic writing, documentary and essayistic texts, planning manifestos and municipal communications materials serve to demonstrate that the nuanced treatments of urban experience and potential which may be gleaned from across this textual spectrum act as a pragmatic corrective to purely conceptual approaches. As such, the volume consolidates the emerging dialogue between the fields of utopian studies and literary urban studies, understanding these as complementary approaches to the reading of the city and its textual prolongations.

City Limits David Oates, 2006 Portland's Urban Growth Boundary (UGB) was designed to hold the bursting metropolitan

area in check while protecting Willamette Valley orchards and fields from sprawling suburbia. David Oates traveled the 260-mile boundary that defines Portland to discover how the UGB has contributed to that success. City Limits is his record of the journey. From conversations with the people he encounters on his walks, Oates comes to view the UGB as a long-running experiment in community control over development. But in recent years, the growth boundary has come under fire from developers, property rights advocates, and other critics. Just after Oates completed his walks, a statewide vote gutted Oregon's land use laws. Oates explores issues of conformity and conflict on the UGB in the company of various individuals he sometimes invites along for the day's walk - artists, writers, urban planners, environmentalists, developers, a politician, a wine grape grower. Reflecting Oates's belief in the power of community and collaboration, many of their thoughts and writings about the experience are included in the book.--BOOK JACKET.

"Invisible Cities" and the Urban Imagination Benjamin Linder, 2022-11-08 In 1972, Italo Calvino published *Invisible Cities*, a literary book that masterfully combines philosophy and poetry, rigid structure and free play, theoretical insight and glittering prose. The text is an extended meditation on urban life, and it continues to resonate not only among literary scholars, but among social scientists, architects, and urban planners as well. To commemorate the 50th anniversary of *Invisible Cities*, this collection of essays serves as both an appreciation and a critical engagement. Drawing from a wide array of disciplinary perspectives and geographical contexts, this volume grapples with the theoretical, pedagogical, and political legacies of Calvino's work. Each chapter approaches *Invisible Cities* not only as a novel but as a work of evocative ethnography, place-writing, and urban theory. Fifty years on, what can Calvino's dreamlike text offer to scholars and practitioners interested in actually existing urban life?

Invisible Cities Italo Calvino, 1999 Imaginary conversations between Marco Polo and his host, the Chinese ruler Kublai Khan, conjure up cities of magical times. Of all tasks, describing the contents of a book is the most difficult and in the case of a marvelous invention like *Invisible Cities*, perfectly irrelevant (Gore Vidal). The Arion Press Announces the Publication of Invisible Cities by Italo Calvino Translated from the Italian and with a New Introduction by William Weaver, with Twelve Illustrations and an Etching by Wayne Thiebaud Arion Press, 1999

Invisible Cities [50th Anniversary Edition] Italo Calvino, 2025-03-18 Illustrated 50th Anniversary Edition - With an introduction by #1 New York Times bestselling, Pulitzer Prize-winning author, Anthony Doerr A beautiful new illustrated hardcover in the Mariner Classics line: Italo Calvino's beloved, intricately crafted novel about an Emperor's travels--a brilliant journey across far-off places and distant memory. With cities, it is as with dreams: everything imaginable can be dreamed... In a garden sit the aged Kublai Khan and the young Marco Polo--Mongol emperor and Venetian traveler. Kublai Khan has sensed the end of his empire coming. Marco Polo diverts his host with stories of the cities he has seen in his travels around the empire: stories about memory and desire, art and creation, life and death. As Marco Polo unspools his tales, the emperor realizes these fantastic places are more familiar than they appear. With a brilliant new introduction from Pulitzer Prize winner Anthony Doerr, and dreamlike illustrations of the cities interspersed throughout, this edition breathes new life into Calvino's classic, a celebration of the story's profound invention and enduring insight.

Collection of Sand Italo Calvino, 2014-09-16 This "brilliant collection of essays" and travelogues by the celebrated author of *Invisible Cities* "may change the way you see the world around you" (The Guardian, UK). Italo Calvino's boundless curiosity and ingenious imagination are displayed in peak form in *Collection of Sand*, his last collection of new works published during his lifetime. Delving into the delights of the visual world—both in art and travel—the subjects of these 38 essays range from cuneiform and antique maps to Mexican temples and Japanese gardens. In Calvino's words, this collection is "a diary of travels, of course, but also of feelings, states of mind, moods...The fascination of a collection lies just as much in what it reveals as in what it conceals of the secret urge that led to its creation" (from *Collection of Sand*). Never before translated into English, *Collection of Sand* is an incisive and often surprising meditation on observation and knowledge, "beautifully translated by Martin McLaughlin" (The Guardian, UK).

Under the Jaguar Sun Italo Calvino, 1988 One of Italy's greatest and most popular writers offers three witty, fantastical stories, each dominated by one of three senses--taste, hearing, or smell.

Mister Palomar Italo Calvino, 1985 Italo Calvino's last fictional work is a witty, elegant, fantastic rendering of the ultimate observer, whose name, Mr. Palomar, deliberately evokes the famous telescope. Beautiful, nimble, solitary feats of imagination (The New York Times Book Review). Calvino is the acclaimed author of *Difficult Loves* and *Invisible Cities*.
