National Marine Sanctuaries

Jawbone Marine Sanctuary Sandra Webb,2022-11-18 This book, filled with images from the Jawbone Marine Sanctuary, is intended to introduce readers to this precious marine protected area which is less than 10 Km from the city of Melbourne at the top of Port Phillip Bay. It will help readers find and enjoy it, and learn more about its indigenous, geological and maritime histories as well as its diverse marine and salt marsh habitats. Most importantly it provides information about threats to the Sanctuary and, in spite of its small size, to its important environmental, research, educational and social values.

America's Marine Sanctuaries NAT'L MARINE SANCTUARY FDN,2020-10-20 An extraordinary illustrated overview of the National Marine Sanctuary System and a guide to its fourteen protected underwater locations America's Marine Sanctuaries tells the story of fourteen underwater places so important they are under special protection, together forming the US National Marine Sanctuary System. These sanctuaries, spanning more than 620,000 square miles and ranging from the Florida Keys to the Great Lakes and to the Hawaiian Islands, are critical and breathtaking marine habitats that provide homes to endangered and threatened species. They also preserve America's rich maritime heritage and act as living laboratories for science, research, education, and conservation, offering outdoor recreation experiences for all ages. Through 175 full-color photographs and lively narrative, America's Marine Sanctuaries showcases each of the marine sanctuaries and the creatures that live there, from whales and manatees to Hawaiian monk seals and Laysan ducks, as well as sunken ships from the Ghost Fleet and USS Monitor to Shipwreck Alley. The book underscores how marine sanctuaries have shaped the nation's development, survival, and identity, and celebrates these protected underwater treasures for all they can tell us about our communities, our country, and our world.

Gray's Reef National Marine Sanctuary Condition Report 2012 Addendum Gray's Reef National Marine Sanctuary (Agency : U.S.),2012 This document is an addendum to the Gray's Reef National Marine Sanctuary 2008 Condition Report (ONMS 2008). The 2008 report provided a summary of resources in the National Oceanic and Atmospheric Administration Gray's Reef National Marine Sanctuary (sanctuary), pressures on those resources, current conditions and trends, and management responses to the pressures that threaten the integrity of the marine environment. Specifically, the 2008 Condition Report presented responses to a set of 17 questions posed to all sanctuaries. These responses provided information on the status and trends of water quality, habitat, living resources and maritime archaeological resources, and the human activities that affect them. The 2008 report can be downloaded from the Office of National Marine Sanctuaries website at <http://sanctuaries.noaa.gov/science/condition>. This addendum updates the 2008 Condition Report (ONMS 2008). The 17 questions found in the 'State of Sanctuary Resources' section of the Condition Report have been reevaluated for accuracy and completeness given new data sets, published literature, and expert opinion that have become available since 2008. For those that have new information to report (questions 1, 5, 6, 8, 9, 10, 12 and 14), new status and trend ratings and updated narratives are provided. Trend ratings are generally based on observed changes in status since 2008--Page 2.
