**Truth and Spirituality Today** Christopher J. H. Wright, 2003 Part of a series of three books to be produced over the next year that are ideal for AQA Religious Studies Specification B Full and Short Course GCSE Modules.

**The Language of Newspapers** Danuta Reah, 2002 From the ideological bias of the press, to the role of headlines in newspaper articles and ways in which newspapers relate to their audience, the book provides a comprehensive analysis of newspaper language.

**Violence and Abuse in Society** Angela Brownemiller Ph.D., 2012-08-17 Suitable for professionals, students, and lay readers alike, this book provides an immensely informative, profoundly moving, and remarkably comprehensive look at the range and nature of violence and abuse by and of humans today. Angela Browne-Miller, PhD, is editor of this comprehensive and unique set of four volumes containing over 110 chapters from over 130 international experts with backgrounds in behavioral science, social science, law, and medicine, as well as researchers, practitioners, and lay persons with varied specialties. These volumes cover the following areas reflected by their titles: Volume One: Fundamentals, Effects, and Extremes; Volume Two: Setting, Age, Gender, and Other Key Elements; Volume Three: Psychological, Ritual, Sexual, and Trafficking Issues; and Volume Four: Faces on Intimate Partner Violence. This collection looks at the range of violence and abuse we see today, conducting a detailed examination against the backdrop of a history of violence and abuse around the globe. The works within focus for the most part on violence and abuse taking place outside of war contexts, discussing road rage, child abuse, elder abuse, abuse of women and girls, sex slavery, violent rituals including female genital cutting, abuse within cults, domestic violence, gun violence, and modern problems fueled by technology, including cyberbullying and cyberstalking.

**The Mammoth Book of CSI** Roger Wilkes, 2007-02-22 Using the latest modern technology available to forensic science, crime scene investigators answer questions others never even thought to ask. This book contains more than thirty fascinating modern cases of forensic detective work. Genetic fingerprinting, blood splatter analysis, laser ablation, toxicology, ballistics analysis - the whole range of forensic techniques is featured. The investigators trust only the evidence to speak for those who cannot speak for themselves: the victims. The cases featured include: - Tommie Lee Andrews, the first person to be convicted as a result of DNA evidence, for raping a woman during a burglary; - Jeffrey Gafoor, convicted of murder in 2003 when crime

scene evidence collected twelve years previously resulted in a match with his nephew; - Richard W. Rogers, convicted of the murder of two of his numerous gay male victims, through vacuum metal deposition, technology which saves fingerprints from plastic bags; - Dr. Sam Sheppard, the murder trial based on blood evidence that inspired the TV series *The Fugitive*; - Edwin Bush, the first murderer in Britain to be brought to book thanks to an identikit picture; - Derrick Todd Lee, the Baton Rouge Serial Killer, only nailed by DNA evidence after a flawed FBI profile led big-shot investigators astray. These cases - usually successful, but also sometimes dangerously flawed - offer a remarkable insight into real-life scene-of-crime investigation.

*Christ Alive* John Deane-O'Keeffe, 2025-04-22 *Christ Alive* is a book of fifty-two lessons for every week of the year that takes the reader on a clever, humorous, roller-coaster voyage of discovery, where Christ is consistently found in places where we might least expect or want. From Vladimir Putin to prisons, from psychopaths to the homeless, with a little visit to our mums, dads, and the seven deadly sins along the way, the breadth of the author's professional experience is unrivalled. Accessing our human status-anxiety, the nothing people, criminal behaviors, and much, much more, there is a lesson included for every week of the year, life lessons sure to have readers gripped with God at their center. The author unashamedly confronts our modern-day struggles and judgment of each other, faith, and God and tackles these topics from his spiritual, academic, and practical experience. Some of the topics are light, others are dark, but all have one core conclusion at their heart. Like The Beatles, the author too concludes that love is all we need. Then again, as he says, Christ has been saying this all along. It's just that perhaps we haven't been listening.

Delivering Rehabilitation Lol Burke, Steve Collett, 2014-12-05 Do offenders have the right to be rehabilitated and should the state be responsible for their rehabilitation? Should the public expect punitive and coercive approaches to offender rehabilitation? Why should the state be interested in the reform of individuals and how can helping offenders be justified when there are other disadvantaged groups in society who are unable to access the services they desperately need? Finally, why does the state appear to target and criminalise certain groups and individuals and not others? These are just some of the questions asked in this new text, which offers an analysis of the delivery of rehabilitative services to offenders over the past two decades. It focuses particularly on the ideological and political imperatives of a neoliberal state that intends to segment the work of the Probation Service and hand over the majority of its work to the private sector. Issues covered include: governance, politics and performance of probation, occupational culture and professional identity, markets, profit and delivery, partnership, localism and civil society, citizenship, exclusion and the State. This book is aimed at academics, practitioners, managers and leaders within the field of corrections and wider social policy. It will also appeal to undergraduates and postgraduates specialising in criminal justice, criminology, politics and social policy.

*Understanding Social Problems, Policies, and Programs* Leon H. Ginsberg,1996 *Understanding Social Problems, Policies, and Programs* offers a comprehensive analysis of the policies used in the United States to address social problems and to develop the nation's social welfare programs. Leon Ginsberg provides a framework for understanding some of the country's most controversial issues, including welfare assistance and welfare reform. He suggests practical ways in which individuals and groups might implement more-beneficial programs for the disadvantaged. To update the volume's first edition, Ginsberg has expanded on the six-component model - history, social problems, public policy, description of programs, policy analysis, and policy practice - that defines social welfare policy and services. He has incorporated information about policy changes in the Contract with America that have been enacted by the 1995 Republican-led Congress. Ginsberg also has included supplementary models for policy analysis and new references and materials from the nineteenth edition of the *Encyclopedia of Social Work*.
