Velázquez, Painter & Curator Julia Vázquez, 2024-11-04 This book is the first to address the curatorial career of Diego Velázquez, painter to King Philip IV of Spain and chamberlain of his royal palace. It investigates the role that Velázquez played in overseeing the display of the Habsburg art collection, then the richest in the western world, and the role, in turn, that this practice played in his creative trajectory between his arrival at the Spanish court in 1623 and his death in 1660. This book thus recasts Velázquez's career as an episode in the history of the curator.

Manet/Velázquez Gary Tinterow, Geneviève Lacambre, Metropolitan Museum of Art (New York, N.Y.), Musée d'Orsay, 2003 Here approximately two hundred works by French and Spanish artists chart the development of this cultural influence and map a fascinating shift in the paradigm of painting, from Idealism to Realism, from Italy to Spain, from Renaissance to Baroque. Above all, these images demonstrate how direct contact with Spanish painting fired the imagination of nineteenth-century French artists and brought about the triumph of Realism in the 1860s, and with it a foundation for modern art.--BOOK JACKET.

The Influence of Italian Culture on the Sevillian Golden Age of Painting Rafael Japón, 2022-03-20 This book explores the cultural exchange between Italy and Spain in the seventeenth century, examining Spanish collectors' predilection for Italian painting and its influence on Spanish painters. Focused on collecting and using a novel methodology, this volume studies how the painters of the Sevillian school, including Francisco Pacheco, Diego Velázquez, Alonso Cano and

Bartolomé Esteban Murillo, perceived and were influenced by Italian painting. Through many examples, it is shown how the presence in Andalusia of various works and copies of works by artists such as Michelangelo, Caravaggio and Guido Reni inspired famous compositions by these Spanish artists. In addition, the book delves into the historical, political and social context of this period. The book will be of interest to scholars working in art history, Renaissance studies, and Italian and Spanish history.

Juan de Pareja: Afro-Hispanic Painter in the Age of Velázquez David Pullins, Vanessa K. Valdés, 2023-04-03 Diego Velázquez's portrait of Juan de Pareja (ca. 1608-1670) has long been a landmark of European art, but this provocative study focuses on its subject: an enslaved man who went on to build his own successful career as an artist. This catalogue—the first scholarly monograph on Pareja— discusses the painter's ties to the Madrid School of the 1660s and revises our understanding of artistic production during Spain's Golden Age, with a focus on enslaved artists and artisans. The authors illuminate the highly skilled labor within Seville's multiracial society; the role of Black saints and confraternities in the promotion of Catholicism among enslaved populations; and early twentieth-century scholar Arturo Schomburg's project to recover Pareja's legacy. The book also includes the first illustrated and annotated list of known works attributed to Pareja.

Velázquez Fernando Checa Cremades, 2008-10 Diego Rodriguez de Silva y Velazquez (1599-1660) is widely recognized as both the supreme exponent of the Spanish Golden Age and as one of the greatest artists of all time. During his lifetime, he was admired not only at the cosmopolitan court of King Philip IV in Madrid, but also by the imperial court in Vienna and the papal court in Rome. Rediscovered in the 19th century, his work became an essential stimulus to the development of modern painting. Fernando Checa's monograph recasts the traditional critical reception of Velazquez as a Realist master, exploring other avenues of interpretation by examining his relationship with Classicism and with the most progressive trends in painting in his day. At the heart of the book is the color catalogue, which includes Velazquez's entire oeuvre with numerous details.
