Live 1,000 Years: The Amazing New Science of Happiness, Health, Money, and Love: Discover who you are? Where you came from before birth? Where you're going after death? Brent J. Jordan, Esq., LL.M., 2016-06-30 Virtually every person who has ever lived has wondered if we exist, either in body, soul, or spirit, before our physical birth, and after our physical death. Virtually every religion, civilization, philosophy, and culture has answered both questions with a resounding YES! In fact, modern scientists have shown us overwhelming evidence that our body, soul, or spirit exists prior to our physical birth, and after our brain, heart, and lungs cease to function. Join me for an incredible journey. By understanding who we are, and how to live in the world, we will know what the world is all about, and thus live a life of happiness, health, money, and love.

The carefully selected texts in this volume offer intriguing insight into Arabic translations and commentaries by Rabbanite and Karaite Jewish exegetes from the tenth to the twelfth centuries CE, arranged according to the three divisions of the Torah, the Former and Latter Prophets, and the Writings. Each text is embedded within an essay discussing its exegetical context, reception, and contribution. Features: Focus on underrepresented medieval Jewish commentators of the Eastern world A list of additional resources, including major Judeo-Arabic commentators in the medieval period Previously unpublished texts from the Cairo Geniza

Calling in the Soul Patricia V. Symonds, 2004 A gold mine of information for American social scientists. It is a 'must have.'

-Choice Calling in the Soul (Hu Plig) is the chant the Hmong use to guide the soul of a newborn baby into its body on the third day after birth. Based on extensive original research conducted in the late 1980s in a village in northern Thailand, this ethnographic study examines Hmong cosmological beliefs about the cycle of life as expressed in practices surrounding birth, marriage, and death, and the gender relationships evident in these practices. The social framework of the Hmong (or Miao, as they are called in China, and Meo, in Thailand), who have lived on the fringes of powerful Southeast Asian states for centuries, is distinctly patrilineal, granting little direct power to women. Yet within the limits of this structure, Hmong women wield considerable influence in the spiritually critical realms of birth and death. Patricia Symonds situates her study within the landscape of northern Thai mountain life and anthropological perspectives on the Hmong, and then focuses on Flower Village, telling detailed stories of births, marriages, and deaths. Recurring motifs emerge: the complementarity of women's and men's roles in daily life and in the otherworld, and their reversal at critical moments; the importance of the brother-sister relationship; the social and spiritual significance of the ceremonial clothing women create, especially their embroidered flower cloth and the ambiguously nuanced *sev*, or modesty aprons, they wear; the endlessly cyclical nature of life, from birth to death to birth again; the importance of sound and silence at times of transition; the complex connections between the land of the living and the land of the dead. Hmong women's primary source of power in the patriline is their fecundity, through which they influence key spiritual aspects of the life cycle. This value and power is evident in the division of bride-price into two parts: milk and care money, which compensates a woman's parents for her upbringing; and payment for the birth shirt, or placenta, of the child the young wife will produce. Through provision of birth shirts for fetuses and of elaborately embroidered cloth shirts for the dead, women literally clothe the soul through cycles of rebirth. An epilogue and appendixes provide a discussion of the impact of HIV/AIDS on the Hmong of Thailand, cultural factors in HIV transmission, and strategies for containment; complete Hmong texts and English translations of Calling in the Soul, and Showing the Way, the chant which guides the soul of the deceased through the land of darkness and back to reincarnation in a new body in the land of light; Flower Village demographic information; and an account of a shamanic healing and outline of Hmong health care issues in the United States. Calling in the Soul will be of interest to sociocultural anthropologists, medical anthropologists, Southeast Asianists, and gender specialists. Patricia V. Symonds is adjunct associate professor of anthropology at Brown University. She is the coauthor (with Brooke G. Schoepf) of *HIV/AIDS: The Global Pandemic and Struggles for Control*. Despite the now quite substantial literature on the Hmong, until now, there has been very little that explores gender issues. . . . Calling in the Soul also makes a substantial contribution to our knowledge about Hmong death rites and religious beliefs. - Charles Keyes, University of Washington The volume's strength is its ethnography, . . . in the numerous engaging accounts of particular events - marriages, births, etc. - Nicola Tannebaum, Lehigh University A fascinating ethnography. Its firm grounding in an ethnic minority village in Thailand provides an interesting setting for

thinking about the life cycle. - Hjorleifur Jonsson, Arizona State University
