Psychoanalytic Reflections on Politics Eszter Salgó, 2013-11-07 Psychoanalytic Reflections on Politics: Fatherlands in mothers' hands is a playful exploration of how people's desires, fantasies, and emotions shape political events and social phenomena. It highlights the mythical sources of today's political projects, the power of political imagination, and the function of symbolism in political thought. Eszter Salgó argues that the driving force for the formation of political communities is fantasy - 'illusions' in a Winnicottian sense, 'phantasies' in a Lacanian sense, 'phantoms' as described by Nicolas Abraham and Maria Torok, and 'dreams' as interpreted by Sándor Ferenczi. She introduces the metaphor of the 'fantastic family' as a symbolic representation of political communities, both to reflect on people's deeply felt desire to find in public life the resolution, love, and wholeness of early childhood, and to unveil the political elite's readiness to don the mask of the 'ideal parent'. The book is divided into two parts. The first part of the book explores the theories of Donald Winnicott and Jacques Lacan: the matrimony on the stage of politics between the 'good-enough mother' and the Symbolic Father which inaugurates the story of democracy's 'fantastic family'. The second part presents the 'fantastic families' of selected countries such as Hungary, Italy, and the world community to explain the proliferation of cosmogony projects, and to document the failure of the political elites to offer a satisfactory performance of their maternal and paternal functions. Psychoanalytic Reflections on Politics: Fatherlands in mothers' hands presents a new way of considering the art of politics, based on the understanding that people perceive reality through imagination and unconscious fantasy. It will be of interest to psychoanalysts, and academics from across the disciplines of politics, psychology, anthropology, sociology, philosophy, literature, and art.

The Mythology of Crime and Criminal Justice Victor E. Kappeler, Gary W. Potter, 2017-07-18 The social construction of crime is often out of proportion to the threat posed. The media and advocacy groups shine a spotlight on some crimes and ignore others. Street crime is highlighted as putting everyone at risk of victimization, while the greater social harms from corporate malfeasance receive far less attention. Social arrangements dictate what is defined as crime and the punishments for those who engage in the proscribed behavior. Interest groups promote their agendas by appealing to public fears. Justifications often have no basis in fact, but the public accepts the exaggerations and blames the targeted offenders. The net-widening effect of more laws and more punishment catches those least able to defend themselves. This innovative

alternative to traditional textbooks provides insightful observations of myths and trends in criminal justice. Fourteen chapters challenge misconceptions about specific crimes or aspects of the criminal justice system. Kappeler and Potter dissect popular images of crimes and criminals in a cogent, compelling, and engaging manner. They trace the social construction of each issue and identify the misleading statistics and fears that form the basis of myths—and the collateral damage of basing policies on mythical beliefs. The authors encourage skepticism about commonly accepted beliefs, offer readers a fresh perspective, and urge them to analyze important issues from novel vantage points.

Myth in Indian Drama R. G. Joshi, 1994 Study of myth in Indian English drama with special reference to Aurobindo Ghose, 1872-1950, Rabindranath Tagore, 1861-1941, and T. P. Kailasam, 1885-1948.

The Chicago School of Political Economy Nadia Mizner, Warren Samuels, 2021-12-16 The Chicago School of Economics is arguably the most successful and influential since World War II. This volume provides an interpretation of the Chicago school through constructive critique of its doctrines. It is an inquiry into the nature, role, and significance of the school and its doctrines within both the economics profession and the larger world of ideas and action. This volume offers a deeper understanding of the school, of its strengths and weaknesses, and of the tasks of any body of thought that hopes to comprise an alternative.

Religion and Spirituality in the Life Cycle James Gollnick, 2005 In recent years, profound changes have affected the way people view the role of religion and spirituality in the life cycle. For many people, spirituality, always considered an essential part of religion, has become an interest no longer tied to organized religion. This book addresses the evolving relationship of spirituality to religion in our time, and the consequences of this change for understanding personality development. It also applies the concept of implicit religion to show how the least easily observed aspects of religion are at work in the growth of personality.
