In Case You Read This Edward Underhill,2025-05-20 From acclaimed author Edward Underhill comes a trans rom-com about serendipity, chance encounter, and the ultimate missed connection. This joyful celebration of queer love and found family is perfect for fans of Becky Albertalli, Emery Lee, and Julian Winters. Arden isn't excited about moving. Los Angeles was an easy place to fit in and find a supportive queer community. But Winifred, Michigan? That sounds like a much more difficult place to exist. Pasadena, California, is the perfect city for Gabe's reinvention. Everyone knew everything about him in small-town Shelby, Illinois. Gabe, who wants to be out and proud, can't wait to relocate. When Arden and Gabe randomly meet in the lobby of a motel in Nebraska, it feels like fate. Both are trans, but more importantly, both are huge fans of the band Damaged Pixie Dream Boi. Clearly, the universe is trying to tell them something. Right? But after an incredible evening of hanging out, the pair part ways only knowing the other's first name. And as both boys struggle to adjust to their new homes, their thoughts keep being drawn back to their time together. Is one perfect night enough to bring Arden and Gabe back to each other, or will the boys need some help to find each other again?

Pieces of a Girl Stephanie Kuehnert,2024-03-26 A raw and bold memoir about abuse and addiction, and the power of expression and community that helped Stephanie Kuehnert, the author of *Ballads of Suburbia* and regular *Rookie* contributor, survive and thrive. Told in varied narrative styles, including journal entries, original illustration, and pages torn from her actual diaries and zines, this is the memoir of Stephanie's life as a struggling outsider who survived substance and relationship abuse to become a strong young woman after years and years trapped in a cycle that sometimes seemed to have no escape.

Routledge Handbook of Translation and Young Audiences offers a comprehensive overview of translation in the context of young audiences. The handbook synthesises research on translation of children's and young adult literature, audiovisual translation, the translation of comics and picture books, empirical research methods, and translation performed by fan communities in the digital world. Adopting a forward-looking approach, it is organised around these five key themes which, taken together, propose a new way of looking at interrelated phenomena which have never been brought together before to map this emerging area of study. Featuring 35 contributions from leading and emerging scholars, the volume showcases a range of perspectives which focus on translation and cultural practices around children and young adults not only as readers, viewers, and consumers but also as prosumers and collaborative creators of content. Providing a multi-layered perspective on the study of translation and young audiences, this handbook will be a valuable resource for students and scholars in translation studies, particularly those interested in audiovisual translation, media translation, multimodal texts, and children's literature.

Crafting Phenomenological Research Mark D. Vagle, 2024-10-09 Crafting Phenomenological Research, Third Edition, continues to demonstrate its award-winning quality, clearly establishing itself as the leading international resource for those interested in a concise introduction to phenomenological research in education and social sciences. As a leading contemporary practitioner of phenomenology, Vagle walks the reader through multiple approaches to designing and implementing phenomenological research, including his post-intentional phenomenology, which incorporates elements of poststructural thinking into longstanding phenomenological methods. Vagle provides readers with methodological tools to build their own phenomenological study, addressing such issues as research design, data gathering and analysis, and writing. Replete with exercises for students, resources for further research, and examples of completed phenomenological studies, this book affords the instructor an easy entrée into introducing phenomenology into courses on qualitative research, social theory, or educational research. New to this edition: A new final chapter that introduces his latest developments in post-intentional phenomenology (PIP). Updated snapshots and "resource digs" that provides brief commentary and/or examples to illustrate concepts and ideas, many of which draw on Vagle's latest contemplative research study. Updated discussions of important methodological concepts such as researcher reflexivity.
