Thomas Atkins Street

Cape Law: Texts and Cases - Contract Law, Tort Law, and Real Property Veronica Bailey, 2012-07-28 Veronica E. Bailey shares a concise, practical approach to the subject of law. The book is written in simple language that will encourage readers to engage with the subject and thus appreciating relevant legal concepts that are encountered in their everyday life.

Selected Cases Illustrating the Law of Contracts Arthur Cecil Caporn, 1911

Complete Contract Law André Naidoo, 2021 Complete Contract Law offers students a carefully blended combination of the concepts and cases of contract law, accompanied by insightful commentary - a combination designed to encourage critical thinking, stimulate analysis, and promote a complete understanding.

Selected Cases on the Law of Contracts Ernest Wilson Huffcut, Edwin Hamlin Woodruff, 1913

Contract Law Neil Andrews, 2015-05-14 Significantly streamlined and updated, the second edition of Andrews' Contract Law now provides a clear and succinct examination of all of the topics in the contract law curriculum. Chapters direct students to the most important decisions in case law and employ a two-level structure to integrate short judicial excerpts into detailed discussion and analysis. Exploration of the law's 'loose ends' strengthens students' ability to effectively analyse case law, and new end-of-chapter questions, which focus on both core aspects of the law and interesting legal loopholes, assist students in preparing for exams. Students are guided through chapter material by concise chapter overviews and a two-colour text design that highlights important chapter elements. Suggestions for further reading and a rich bibliography, which point readers to important pieces of contemporary literature and provide a springboard for deeper investigation of particular topics, lend further support for student learning.

Combining comprehensive coverage of the curriculum with carefully developed pedagogical tools, the authors help students learn, gain an enhanced understanding of how the law works, and develop their ability to apply this newfound knowledge and understanding in assessment situations. To be successful in assessments, students must be able to analyse and solve legal problems, while accurately and appropriately applying legal authority. The Spotlights series models these core skills alongside a full and thorough exposition of the substantive law.
