K-punk Mark Fisher, 2018-11-13 A comprehensive collection of the writings of Mark Fisher (1968-2017), whose work defined critical writing for a generation. This comprehensive collection brings together the work of acclaimed blogger, writer, political activist and lecturer Mark Fisher (aka k-punk). Covering the period 2004 - 2016, the collection will include some of the best writings from his seminal blog k-punk; a selection of his brilliantly insightful film, television and music reviews; his key writings on politics, activism, precarity, hauntology, mental health and popular modernism for numerous websites and magazines; his final unfinished introduction to his planned work on Acid Communism; and a number of important interviews from the last decade. Edited by Darren Ambrose and with a foreword by Simon Reynolds.

Routledge International Handbook of Policing Crises and Emergencies Gary Cordner, Martin Wright, 2024-07-30 This handbook explores those occasions when the police are faced with a public, national, or international crisis and are expected to continue to serve. It provides a unique, scholarly, and international overview on policing crises and emergencies, addressing the different contexts and challenges of working in extraordinary circumstances, dealing with unfamiliarity, and working with and alongside other agencies, as well as the significant political and public requirement to return as quickly as possible to normality. Sections include coverage of: • Policing disasters • Policing public health emergencies • Policing political protest • Policing terror and conflict • Policing mass violence • Policing extreme crises and emergencies Each

section is filled with a variety of international case studies examining best practice in the policing context, together with a scene-setting chapter tying together key theoretical and conceptual concepts. It is essential reading for all engaged with professional policing, law enforcement, and public order.

London, Europe and the Olympic Games Thierry Terret, 2015-10-14 London hosted the Olympic Games for the third time in 2012, a mega-event where the political, economic and social expectations could hardly be compared with the previous London Games of 1908 and 1948. In addition, the Olympic Games went back to Europe in 2012 after a long period where (apart from Athens in 2004) they were held by cities in other continents. In London, the world watched the Games. Continental Europe, however, generated a particular attitude based on the special relations it had developed historically with England. At the crossing point of history, cultural studies and geopolitics, this book provides new insights on the significance of the Olympic Games. It considers that the Games are the right window to look at both the past and the current relations between England and its closest continental neighbours. It will be ideal for students and academics working in sport sciences, cultural history, political science and European studies; amateur and professional sports historians; Olympic followers and experts in Olympic studies. This book was published as a special issue of the International Journal of the History of Sport.

Human Factors in Effective Counter-Terrorism Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of 'human factors' in effective counter-terrorism. The phrase 'human factors' is used to describe personal relationships, individual capabilities, effective leadership, technical interface, organisational culture and the community engagement necessary to effectively minimise, counter and control the threat of terrorism. Unlike many works in the field, this book is constructed around the input of 'experienced knowledge' from over 170 semi-structured interviews of specialist military, policing, intelligence and security practitioners - those actors actually involved in countering terrorism. These practitioners come from seven countries - the United Kingdom, Ireland, France, Spain, Israel, Turkey and the United States - all of which have suffered over the years from different types of terrorist threat and responded with a mixture of counter-terrorist measures. Where military practitioners also discussed overseas counter-insurgency measures, that material has been included, since terrorism forms a key aspect of such wider insurgencies. The resulting interview data was analysed through a variant of 'Grounded Theory' to identify key emerging themes and issues, both positive and negative, relevant to 'human factors' in the individual countries and more generically. This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples of successful counter-terrorist measures at the strategic, operational and tactical levels. This book will be of much interest to students of counter-terrorism, defence studies and security studies in general.

Ian Rankin Erin E. MacDonald,2020-06-05 Ian Rankin is considered by many to be Scotland's greatest living crime fiction author. Most well known for his Inspector Rebus series--which has earned critical acclaim as well as scores of fans worldwide--Rankin is a prolific author whose other works include spy thrillers, nonfiction books and articles, short stories, novels, graphic novels, audio recordings, television/film, and plays. This companion--the first to provide a complete look at all of his writings--includes alphabetized entries on Rankin's works, characters, and themes; a biography; a chronology; maps of Rebus' Edinburgh; and an annotated bibliography. A champion of both Edinburgh and Scotland, Rankin continues to combine engaging entertainment with socio-political commentary showing Edinburgh as a microcosm of Scotland, and Scotland as a microcosm of the world. His writing investigates questions of Scottish identity, British history, masculinity, and contemporary culture while providing mystery readers with complex, suspenseful plots, realistic character development, and a unique mix of American hard-boiled and procedural styles with Scottish dialects and sensibilities.

Government of the Shadows Eric Michael Wilson, Eric Wilson,2009-03-15 An expose of what really goes on behind the closed doors of state power

Food Policy in the United Kingdom Martin Caraher, Sinéad Furey, Rebecca Wells,2023-07-24 This book provides an introduction to food policy in the United Kingdom, examining policy development, implementation, influences and current issues. The book begins by providing a wide-ranging introduction to food policy in the UK, situating it within wider global debates and establishing key drivers, such as issues related to global citizenship, trade and finance. The use of food control as a policy lever is also discussed and contrasted with alternative approaches based on behaviour change. The book presents an overview of the history of UK food policy, from which there is much to be learned, before moving onto current challenges posed by political instability, both at home and abroad, global pandemics and cost of living crises. Foremost is the need to manage public health, including both malnutrition and obesity, while promoting sustainable and healthy diets, as well as the broader issues around addressing food security and food poverty. The book also examines public sector food initiatives, such as school food and early childhood provisions, and food regulation. As a part of food regulation, chapters examine food scares and food fraud, from chalk in flour to horsegate. The role of media, marketing and advertising is also considered within a policy perspective. Taking a wider lens, the book also discusses the impact of global food trade and the financialisation of food on food policy in the UK and vice versa. The book is supported by instructor eResources on the Routledge website designed to support student learning as well as provide regular updates on UK food policy developments. The eResources include student activities, group exercises and links to further reading and additional resources. This book serves as a key introduction to UK food and agricultural policy for students, scholars, policymakers and professionals, as well as those interested in food systems, public health and social policy more widely.
