Urban Design: Street and Square Cliff Moughtin, 2007-06-07 This book, part of a series of four, offers a detailed analysis of urban design, covering the streets, squares and buildings that make up the public face of towns and cities. It outlines the theory of the principal features of urban design from which method is developed and provides a better understanding of the main elements of urban design. This includes the arrangement, design and details of the streets and squares, and the roles they play in city planning. This third edition includes chapters on Sustainable Urban Design and Visual Analysis, introducing the latest theories and influences in the field and bringing greater practical significance to the book. Cliff Moughtin explores the street and square in terms of function, structure and symbolism and examines fine examples in their historical context. These are set against the background of the laws of urban design composition, culled from Renaissance and modern writers.

Bernini and the Excesses of Art Robert Torsten Petersson, 2002 The vitality of Petersson's book is drawn directly from the sculpture of Bernini, an artist now regarded as the true successor of Michelangelo. It differs from others by bringing the reader inside the sculptural process, from genesis to completed form. Frequently Bernini had to solve uniquely interesting problems and his innovative talents never faltered. As well as presenting the brilliant, flamboyant Bernini, the book simultaneously displays Rome in the throes of its Counter-Reformation renewal, the second birth of the city with the full panoply of its arts, culture, and aberrant activities during Bernini's years in the service of eight popes. In later life he expanded his fame by spending an eventful half year in Paris at the invitation of Louis XIV. The proud and touchy Bernini, then the most celebrated artist in Europe, was in a pitched battle with the arrogant and aggressive French. Yet in Paris as in Rome it is the artistic works that have lasted and are widely known as having redirected the course of European sculpture.--BOOK JACKET. Book jacket.
