The Bearer of Bad News Megan Owens, 2017-08-26 To whom it may concern, On behalf of the Bureau of Bad News, we recognize that you take leisure in knowing the premise of a book before you buy it. Unfortunately, we regret to inform you that you will invest in this book without knowing the origins of it. This message is classified as a U.P. meaning your purchase is unpreventable. We apologize for any negative emotions, grievances, unhealthy attachments to given characters, and any other misfortunes that may befall you after the reading of this story. We give you our most sincere condolences, but understand the inevitable desire you must have to read. Needless to say, you have been warned. Sincerely Yours, The Bureau of Bad News

Teacher's Teachings H. L. Hix, 2025-02-20 Sermons and commentaries and devotional writings all attest to the importance of keeping fresh perspective on even timeless teachings. Teacher's Teachings keeps perspective fresh by offering a new selection and arrangement and translation of Jesus' words: here are teachings readers have always heard, as they've never been heard. Teacher's Teachings includes only teachings (no birth, passion, miracle, or other narratives), but it includes teachings from noncanonical gospels alongside teachings from the canonical gospels, and it translates them with more fidelity to the original language than to King James, all in order to affirm that the teachings of Jesus have value not because they are old but because they are always new.

Being the Best Bearer of Bad Tidings Katharine M. Sweeny, 2008 ABSTRACT: Giving bad news is an unpleasant task, and the medical literature provides numerous guidelines for giving bad news well. However, what people mean by giving bad news well is less clear. What should be the goal when communicating bad news? I suggest that the goal of news-givers should be to guide recipients toward a desired response. I propose a theoretical framework, the Bad News Response Model, for delivering bad news that draws from research in health and social psychology. The model is applicable to all forms of bad news and specifies that three characteristics of the news (controllability, likelihood, and severity) influence which response (watchful waiting, active change, or acceptance) will most often lead to the best quality of life for the recipient. Our studies

examined three questions related to the Bad News Response Model: How does the type of bad news affect response choices? (Studies 1 and 2) How do people feel about responses to bad news? (Study 3) How do people view the effectiveness of responses to bad news? (Study 4) Results suggest that response choices are predictable based on the controllability, likelihood, and severity of news outcomes, as suggested by the model (Studies 1 and 2). In addition, results revealed that people may also make response choices based on the beliefs they have about response options (Study 3) and on the perceived effectiveness of each response (Study 4).

The Bearer of Bad News: Book 1 in the Bearer of Bad News Saga Paul Payne, Megan Owens, 2019-01-28 Don't shoot the messenger is a phrase taken very lightly throughout the World of Tor as the Bureau of Bad News continues to fuel its power by delivering terrible fates from its golden throne in the City of Trig. Anyone who receives such a letter, and is read out loud, will face a terrible demise, and so will the deliverer. These Messengers are considered bile as they travel to deliver such misfortunes, so why would James Roger Clemit volunteer for such a job? Be ready to be engaged in a swash-buckling adventure as James finds himself embarking on a journey of self-discovery, including swashbuckling combat, a Hunter with a death wish, trees that fight bears (and win), talking swords, and moose with Pegasus wings. While James cannot fully contemplate why he had been placed in such a world-altering position, a mysterious god notes that everything is going according to plan.

Tracing the Literary and Symbolic Significance of the Messenger through History Mohan Gopinath, 2023-11-20 This book is a unique study of how the role of 'the messenger' has changed throughout history, starting from ancient times and ending with the person's role today. The chapters include an analysis of the personal characteristics required by a messenger, the dangers they often have to face, especially in troubled times, and how they have the power to change the course of history because of their functions. The book analyses various types of messengers who were, and are still, significant, and ends by looking at how the role will continue to develop and change, taking technological advances into account. The book, in short, is unusual, captivating and will be of interest to an informed general readership and academics of various disciplines. Of particular interest will be the analysis the book provides of the messengers we send into space in search of life, and the potential messengers who will visit our planet in the future.

The Doctor's Handbook Tony White, 2018-04-19 Many doctors do not receive training early in their careers on the broad range of non-clinical aspects of their work, and confront day-to-day issues for which initial medical education has failed to prepare them. Experienced doctors and consultants can also experience a similar lack of accessible reference material on these aspects of their role and for the non-clinical training of their juniors. This book and its companion volume *The Doctor's Handbook Part 2: understanding the NHS*, have been written to address these and other needs. Previously published as *The Specialist Registrar and New Consultant Handbook*, these completely revised and reconfigured volumes reflect the changing

everyday work of specialist trainees, registrars and consultants. Topics covered in Volume 1 include: *
