The French Trade Gun in North America, 1662-1759 Kevin Gladysz, 2011

The Art of the English Trade Gun in North America Nathan E. Bender, 2018-07-06 Symbolic ornamentation inspired by ancient Greek and Roman art is a long-standing Western tradition. The author explores the designs of 18th century English gunsmiths who engraved classical ornamental patterns on firearms gifted or traded to American Indians. A system of allegory is found that symbolized the Americas of the New World in general, and that enshrined the American Indian peoples as noble savages. The same allegorical context was drawn upon for symbols of national liberty in the early American republic. Inadvertently, many of the symbolic designs used on the trade guns strongly resonated with several Native American spiritual traditions.

Encyclopedia of the French and Indian War in North America, 1754-1763 Donald I. North America Thomas F. McIlwraith, Edward K. Muller, 2001 This classic text retains the superb scholarship of the first edition in a thoroughly revised and accessibly written new edition. With both new and updated essays by distinguished American and Canadian authors, the book provides a comprehensive historical overview of the formation and growth of North American regions from European exploration and colonization to the second half of the twentieth century. Collectively the contributors explore the key themes of acquisition of geographical knowledge, cultural transfer and acculturation, frontier expansion, spatial organization of society, resource exploitation, regional and national integration, and landscape change. With six new chapters, redrawn maps, a new introduction that explores scholarly trends in historical geography since publication of the first edition, and a new final chapter guiding students to the basic sources for historical geographic enquiry, North America will be an indispensable text in historical geography courses.

The Fur Trade Revisited Jennifer S. H. Brown,William John Eccles,Donald P. Heldman,1994-05 The Fur Trade Revisited is a collection of twenty-eight essays selected from the more than fifty presentations made at the Sixth North American Fur Trade Conference held on Mackinac Island, Michigan, in the fall of 1991. Essays contained in this important new interpretive work focus on the history, archaeology, and literature of a fascinating, growing area of scholarly investigation. Underscoring the work's multifaceted approach is an introductory essay by Lily McAuley titled Memories of a Trapper's Daughter. This vivid and compelling account of the fur-trade life sets a level of quality for what follows. Part one of The Fur Trade Revisited discusses eighteenth-century fur trade intersections with European markets. The essays in part two examine Native people and the strategies they employed to meet demands placed on them by the market for furs. Part three examines the origins, motives, and careers of those who actually participated in the fur trade. Part four focuses attention on the indigenous fur-trade culture and subsequent archaeology in the area around Mackinac Island, Michigan, while part five contains studies focusing on the fur-trade culture in other parts of North America. Part six assesses the fur trade after 1870 and part seven contains evaluations of the critical historical and literary interpretations prevalent in fur-trade scholarship.
