Oak Cliff and the Missing Pieces Gregory M. Hasty, 2023-08-23 Oak Cliff and the Missing Pieces is the first book written about the area's history in over three decades. It not only captures the beginnings of the early settlement, it takes the reader beyond a century and a half of growth and tracks how the community has evolved. The book is unique in that it captures the history of West Dallas in conjunction with its Oak Cliff neighbor and how the two transformed together over time into what we see today. The collection of historical accounts and hundreds of photos identify individuals and places of prominence finally memorialized in one anthology. The narrative also takes readers through facts and stories that have been ignored or concealed, revealing an authentic depiction of how the community was, at times, abused and neglected. Readers will enjoy this introspective examination of the area south and west of the Trinity and will once and for all put together the missing pieces of the storied land that has long been misunderstood. All proceeds from the sale of Oak Cliff and the Missing Pieces will go to benefit non-profit organizations in Oak Cliff and West Dallas.

**Leading Schools With Social, Emotional, and Academic Development (SEAD)** Madden-Dent, Tara, Oliver, Deborah, 2021-04-09 There is a growing need for social, emotional, and academic development (SEAD) in classrooms, schools, districts, and state offices of public education, but educators struggle to find a resource that guides them on these specific challenges. Educators need valid resources as a means to better prepare themselves to use SEAD within their work and support student success. Tangible evidence-based practices on SEAD implementation and how it mitigates leading challenges in education is a current need in the research community. Challenges such as school safety, discipline and restorative practices, and workforce readiness are a few challenges that are currently in need of being addressed. SEAD in school systems may be a solution for some of these areas of concern as well as providing additional benefits for students, educators, and school systems. *Leading Schools With Social, Emotional, and Academic Development (SEAD)* provides theoretical and applied frameworks for evidence-based strategies to embed SEAD practices into sustainable and measurable high-impact systems. SEAD advancements and successful applications in increasing student academic achievement, campus safety and school climate, adult SEAD skills, and family/parent and community engagement are discussed. This book is ideal for in-service and preservice teachers, administrators, teacher educators, practitioners, researchers, academicians, and students interested in the applications and successful models of SEAD implementation in schools.

**Economic Policies for a Post-Neoliberal World** Philip Arestis, Malcolm Sawyer, 2021-01-26 The period of past four decades has been characterized as one of neo-liberalism, financialization, globalization, privatization and de-regulation. Inequality has risen in industrialised countries, labour's share in national income has been in decline and economic growth slowed. The evidence of the damage to the environment from human economic activity, and the dramatic consequences of failure to address climate change have become more apparent and urgent. The global financial crises shocked the complacency of the neo-liberal era, though a decade later it may be doubted how much has changed. The central purpose of this volume is to investigate a range of economic and social policies, which move in the direction of constructing a post-neoliberal world. These range over alternative forms of ownership (public, co-operative), policies to address and reverse economic and social inequalities, responses to the forces of globalization, re-constituting the financial system and its roles, and the nature of employment.
