1001 MASKS OF TURKISH ITTIHADISM IN A CENTURY Jude E. Seleck, 2024-05-02 In the early 1900s, the Committee of Union and Progress (CUP) committed the Armenian Genocide as part of their pursuit of Pan-Turkist and Pan-Islamist aspirations known as ittihadism. The CUP also sought to Turkify non-Muslim property, reminiscent of the Aryanization program in Nazi Germany that targeted Jewish assets. The ittihadist dream was shattered when the Ottoman Empire collapsed following their defeat in the Great War. Established in 1923 as an ittihadist project, the Republic of Turkey adopted ittihadism as its fundamental ideology as well. The desire to reach Central Asia and unite with other Turkic nations was initially reignited during World War II. Nonetheless, the dream was once again crushed when Nazi Germany was defeated on the Eastern Front. The collapse of the Soviet Union brought back the aspiration once more. This book provides an in-depth examination of the major events in the Ottoman Empire and the Republic of Turkey over a century, placing particular emphasis on the Armenian Genocide, the ongoing Cyprus dilemma, and the Kurdish minority issue. By unraveling the reasoning behind these events, the book provides insight into the worldview of the current Turkish government, led by President Erdoğan and his AK Party, and the transformation of ittihadism into neo-ittihadism under their leadership.

Parenting Tips for a New Age Danny Ray Christian, 2021-08-19 "The Miracle of Belief Occurs Before The Miracle of Transformation" I wrote this book with all the mothers and fathers who are sometimes at a lost as to how to best guide their children through the difficult experiences of childhood and young adulthood in mind. Parenting is one of those assignments that is worth doing poorly at first, until you get better at the awesome privilege it is to nurture the souls, Jesus said, "Suffer little children, and forbid them not to come unto me: for such is the kingdom of heaven." Matthew 19:14 (KJV). Parenting is the one job we do not want to get wrong, yet the reality is that we usually are not aware of our mistakes with our children until after we have made them. God knows I am probably the last person who should be offering anyone advice on parenting, because of all the mistakes I made as a father. I nevertheless persist in this endeavour because of what the former Prime Minister of Great Britain said about the benefits of mistakes -- "No man ever became great or good except through many and great mistakes." Only what we put into raising our children can we expect to see them manifest. It is my hope that this small book, which features just a few of the lessons I have learned from the mistakes I have made and continue to make as a father, will help other parents become better at the job of nurturing the next generation of leaders and achievers

The True Believers Robert Milton, 2005-10-18 In this timely, but controversial book, Dr. Robert Milton offers new scientifically oriented explanations for the events of 9/11 and 7/7. The attacks on the World Trade Center, the Pentagon, and London mass transit, says Dr. Milton, represents an unsavory historical summit - a kind of new age - related to genetic, neurological, and psychological motivation. The Golden Age of Terrorism is upon us! The why, he answers with compelling succinctness: is because we learn to believe before we learn to think. While he gives a realistic nod of acknowledgment to economic inequities, abject poverty and exploitation of Middle East oil as contributors to Terrorism, he pursues - to a logical scientific end - what he calls a still more basic cause: the motivations of belief. While Western Imperialism, the US support of Israel, and the war in Iraq capture the headlines as primary causes of today's Terrorism, Dr. Milton demystifies the myriad of alleged causes put forth by politicians and the media - even agreeing with those who say the emergence of Islamic extremism as a result of Quran teaching, is preposterous. True! Says Dr. Milton, it is not the words of any scripture - Christian or Muslim - that cause the problems of Terrorism. It is belief in interpretations of them. To instill a particular religious belief as the prime motivating directive is the goal of terrorist training. How such beliefs obtain and remain within our nervous systems is the subject matter of this book. The tendency to believe, this book asserts, is hardwired into the human nervous system. The content is not. Perhaps, we have no more choice about believing than we do about the color of our eyes. The cultural, psychological, and neurological basis of belief is explored and exposed, revealing one enlightening twist after another. Even the chapter on intelligent design, which Dr. Milton, as a scientist, advocates, reveals still another point of view. Terrorism's Golden Age is timely update on the sciences related to malevolent human motivation.

No Reason to Hide Erwin W. Lutzer, 2022-09-06 Will You Be Complicit, Complacent, or Courageous? In a culture with an ever-narrowing definition of tolerance, Christians can no longer stay silent about the divide between the Bible's truth and the world's lies. From bestselling author Dr. Erwin W. Lutzer, *No Reason to Hide* examines the toxic roots behind the alarming symptoms of a nation in spiritual freefall—and why your faith must empower you to engage rather than hide. As you read, you'll be equipped to defend your biblical beliefs with confidence and compassion. You'll also identify how you can respond to the battleground issues of today, including identity-driven social justice ideologies that seek to divide rather than unite cultural attacks on the definitions of sex and gender that turn language into a war progressive pushes within the church that ultimately desecrate the Bible's teachings A call for believers to standing firm in today's oppressive world, *No Reason to Hide* is a rallying reminder that will ready Christians everywhere to have the courage to proclaim Scripture's truth to a culture in desperate need of what only God can offer.

Mental Immunity Andy Norman, 2021-05-18 "Mental Immunity is the perfect vaccine for the mind-viruses infecting our culture: alternative facts, fake news, and conspiracy thinking, to name a few." —Michael Shermer, publisher of *Skeptic* magazine and author of *The Believing Brain* Astonishingly irrational ideas are spreading. Covid denial persists in the face of

overwhelming evidence. Anti-vaxxers compromise public health. Conspiracy thinking hijacks minds and incites mob violence. Toxic partisanship is cleaving nations, and climate denial has pushed our planet to the brink. Meanwhile, American Nazis march openly in the streets, and Flat Earth theory is back. What the heck is going on? And what can we do about it? In *Mental Immunity*, Andy Norman shows that these phenomena share a root cause. We live in a time when the so-called “right to your opinion” is thought to trump our responsibilities. The resulting ethos effectively compromises mental immune systems, allowing “mind parasites” to overrun them. Conspiracy theories, evidence-defying ideologies, garden-variety bad ideas: these are all species of mind parasite, and each of them employs clever strategies to circumvent mental immune systems. In fact, some of them compromise cultural immune systems—the things societies do to prevent bad ideas from spreading. Norman shows why all of this is more than mere analogy: minds and cultures really do have immune systems, and they really can break down. Fortunately, they can also be built up: strengthened against ideological corruption. He calls for a rigorous science of mental immune health—what he calls “cognitive immunology”—and explains how it could revolutionize our capacity for critical thinking. A practical guide to spotting and removing bad ideas, *Mental Immunity* is a stirring call to transcend our petty tribalisms, and a serious bid to bring humanity to its senses.

Living Your Legacy Now! Bill Blalock, 2021-04-29 The purpose of *Living Your Legacy Now!* is to bring out the best in every person that reads it and help them apply the life lessons contained in it! Its audience is multi-generational. Countless books have been written about human behavior, leadership, success, positive life balance and spirituality. This is a different kind of book in its content, format, and purpose. The reader will not be overwhelmed with long chapters of text and commentary, but instead exposed to brief life lessons, some only one page in length, that are designed for the reader to think through the topic at hand and make needed changes in his or her life! Many lessons serve to validate that the reader is on course with their intended life purpose. So, *Living Your Legacy Now!* is not complex, but easy to understand. It will educate and inspire the reader to live a successful, healthy, and fulfilling life. It will definitely bring out the best in yourself!

Psychoanalysis of Evil Henry Kellerman, 2014-07-28 For all our knowledge of psychopathology and sociopathology--and despite endless examinations of abuse and torture, mass murder and genocide--we still don't have a real handle on why evil exists, where it derives from, or why it is so ubiquitous. A compelling synthesis of diverse schools of thought, *Psychoanalysis of Evil* identifies the mental infrastructure of evil and deciphers its path from vile intent to malignant deeds. Evil is defined as manufactured in the psyche: the acting out of repressed wishes stemming from a toxic mix of harmful early experiences such as abuse and neglect, profound anger, negative personality factors, and mechanisms such as projection. This analysis brings startling clarity to seemingly familiar territory, that is, persons and events widely perceived as evil. Strongly implied in this far-reaching understanding is a call for more accurate forms of intervention and prevention as the author: Reviews representations of evil from theological, philosophical, and psychoanalytic sources. Locates the construction of evil in

psychodynamic aspects of the psyche. Translates vague abstractions of evil into recognizable concepts. Exemplifies this theory with the lives and atrocities of Hitler and Stalin. Applies psychoanalytic perspective to the genocides in Turkey, Pakistan, Cambodia, and Rwanda. Revisits Hannah Arendt's concept of the banality of evil. Psychoanalysis of Evil holds a unique position in the literature and will gather considerable interest among readers in social psychology, psychoanalysis, sociology, and political anthropology. Historians of mass conflict should find it instructive as well.

Belief James E. Alcock, 2018 This book explores the psychology of belief - how beliefs are formed, how they are influenced both by internal factors, as well as external factors.

It Could Happen Here Jonathan Greenblatt, 2022-01-04 "Refreshingly candid . . . Get off Instagram and read this book." —Sacha Baron Cohen From the dynamic head of ADL, an impassioned argument about the terrifying path that America finds itself on today—and how we can save ourselves. It's almost impossible to imagine that unbridled hate and systematic violence could come for us or our families. But it has happened in our lifetimes in Europe, the Middle East, Africa, and Asia. And it could happen here. Today, as CEO of the storied ADL (the Anti-Defamation League), Jonathan Greenblatt has made it his personal mission to demonstrate how antisemitism, racism, and other insidious forms of intolerance can destroy a society, taking root as quiet prejudices but mutating over time into horrific acts of brutality. In this urgent book, Greenblatt sounds an alarm, warning that this age-old trend is gathering momentum in the United States—and that violence on an even larger, more catastrophic scale could be just around the corner. But it doesn't have to be this way. Drawing on ADL's decades of experience in fighting hate through investigative research, education programs, and legislative victories as well as his own personal story and his background in business and government, Greenblatt offers a bracing primer on how we—as individuals, as organizations, and as a society—can strike back against hate. Just because it could happen here, he shows, does not mean that the unthinkable is inevitable.

Those Who Can Make You Believe in Absurdities Can Make You Commit Atrocities Lighter Side, 2021-03-30 Voltaire said (in French): Certainly those who have the right to make you absurd have the right to make you unjust. His translator said: Truly, those who can make you believe absurdities can make you commit atrocities. which is exactly the point of the larger paragraph as written by Voltaire. Either way... if you need the occasional reminder that YOU are not the crazy one, the bigoted one or the mean-spirited one... carry a journal that can help remind you that you're not the one pushing insane ideas... It is also a very handy diary for tracking your progress, taking notes, working out your thoughts or finally getting started on your journey to become a writer... It's also a good place to write down all the very true things that you are too polite to say.. You owe it to yourself. Enjoy it. And if you want more humorous journals for sane people check out the author name Lighter Side

Quotes by Voltaire Lilith Regan,2020-04-10 Common sense is not so common.The best is the enemy of the good.Those who can make you believe absurdities can make you commit atrocities.I disapprove of what you say, but will defend to the death your right to say it.We must cultivate our garden.Judge of a man by his questions rather than by his answers.If there were no God, it would be necessary to invent him.A witty saying proves nothing.Every man is guilty of all the good he did not do.It is difficult to free fools from the chains they revere.

What's So Wrong with Being Absolutely Right Judy J. Johnson,2009 Argues that dogmatism is a serious problem and offers case studies documenting the characteristics of this personality trait.

Voices from Armageddon Larry Rich,2006 The word Armageddon conjures up images of fear and ultimate cataclysm. The bloody 4,000-year history of the Valley of Armageddon, today known as the Jezreel Valley, reinforces those beliefs. There is, however, another much quieter reality very much alive in the valley. Despite the history, the prophecy, the current unrest and warfare - there are people from both sides of the conflict who understand that we are capable of respecting one another with dignity. Israeli doctors treat patients who are dedicated to their destruction. Palestinian Muslims help Jews. These people are living testimony to the spirit of forgiveness and to the power of acceptance. These voices may represent the real

ultimate conflict of Armageddon - the battle between the forces of good and evil within ourselves.
