Cantonese Society in Hong Kong and Singapore Marjorie Topley, Jean DeBernardi, 2011-01-01 The volume collects the published articles of Dr. Marjorie Topley, who was a pioneer in the field of social anthropology in the postwar period and also the first president of the revived Hong Kong Branch of the Royal Asiatic Society. Her ethnographic research in Singapore and Hong Kong set a high standard for urban anthropology, and helped creating the fields of religious studies, migration studies, gender studies, and medical anthropology, focusing on topics that remain current and important in the disciplines. The essays in this collection showcase Dr. Topley's groundbreaking contributions in several areas of scholarship. These include "Chinese Women's Vegetarian Houses in Singapore" (1954) and "The Great Way of Former Heaven: A Group of Chinese Secret Religious Sects" (1963), both important research on the study of subcultural groups in a complex urban society; "Marriage Resistance in Rural Kwangtung" (1978), now a classic in Chinese anthropology and women's studies; her widely known and cited article, "Cosmic Antagonisms: A Mother-Child Syndrome" (1974), which investigates widely shared everyday practices and cosmological explanations that Cantonese mothers invoked when they encountered difficulties in child-rearing; and "Capital, Saving and Credit among Indigenous Rice Farmers and Immigrant Vegetable Farmers in Hong Kong's New Territories" (2004 [1964]).

Explaining Pictures Ikumi Kaminishi, 2006-01-01 Beginning with the claim that the popularization of Buddhism in the medieval period was a phenomenon of visual culture, *Explaining Pictures* reexamines the history (and historiography) of medieval Japanese Buddhism. With theoretical sophistication and a full appreciation of the power of imagery to convey and control religious meaning, it investigates a range of aspects of *etoki*, including the particularly active role of itinerant nuns, whose performances were especially edifying to female audiences, as well as the visual hagiography of the reputed founder of Japanese Buddhism, the pictorial projections of Buddhist paradise and hell, and the explanation, through visual imagery, of sacred mountains. *Explaining Pictures* is the first book-length study in English devoted to the phenomenon of Buddhist art as religious propaganda and pictorial storytelling as a form of popular culture in medieval Japan. A truly interdisciplinary study, it suggests fruitful avenues of discussion between art historians and historians of Japanese Buddhism. Scholars and students with an interest in Japanese Buddhism, art, and social and cultural history will find its examination of significant issues fresh and stimulating. It will also find an appreciative audience among those concerned with the relationship between art and religion, the mechanics of proselytization, and Asian visual culture.

History of the Development of Chinese Chan Thought Tianxiang Ma, 2023-09-11 The book aims to describe the history of Chan (Japanese Zen) School thought from the standpoint of social history. Chan, a school of East Asian Buddhism, was influential on all levels of societies in the region because of its intellectual and aesthetic appeal. In China, Chan infiltrated all levels of society, mainly because it engaged with society and formed the mainstream of Buddhism from the tenth or eleventh centuries through to the twentieth century. This book, taking a critical stance, examines the entire history of Chan thought

and practice from the viewpoint of a modern Chinese scholar, not a practitioner, but an intellectual historian who places ideological developments in social contexts. The author suggests that core elements of Chan have their origins in Daoist philosophers, especially Zhuangzi, and not in Indian Buddhist concepts. Covering the period from the sixth century into the twentieth century, it deals with Chan interactions with neo-Confucianism, Quanzhen Daoism, and Gongyang new text philology, as well as with literature and scholarship, its fusion with Pure Land Buddhism, and its syncretic tendencies. Chan's exchanges with emperors from the Song, Yuan, Ming, and Qing Dynasty, as well as the motives of some loyalists of the Ming Dynasty for joining Chan after the fall of the Ming, are described. The book concludes with an examination of the views of Chan of Hu Shi, D.T. Suzuki, and the scholar-monk Yinshun.

Japan on the Silk Road ,2017-10-23 Japan on the Silk Road provides for the first time the historical background indispensable for understanding Japan's current perspectives and policies in the vast area of Eurasia across the Middle East and Central Asia. Japanese diplomats, military officers, archaeologists, and linguists traversed the Silk Road, involving Japan in the Great Game and exploring ancient civilizations. The book exposes the entanglements of pre-war Japanese Pan-Asianism with Pan-Islamism, Turkic nationalism and Mongolian independence as a global history of imperialism. Japanese connections to Ottoman Turkey, India, Egypt, Iran, Afghanistan, and China at the same time reveal a discrete global narrative of cosmopolitanism and transnationality. The global team of scholars brings to light Japan's intellectual and political encounters with the peoples and cultures of Asia, in particular Turks and Persians, Hindus and Muslims of India, Mongolians and the Uyghur of Inner Asia, and Muslims in China.
