This engaging summary presents an analysis of The Wife of Bath's Tale by Geoffrey Chaucer, one of the most popular and enduring of the Canterbury Tales. It is narrated by the eponymous Wife of Bath, a serial widow who frankly discusses her enjoyment of sex and the control she exerted over her husbands, which would have been seen as scandalous at the time. In the story she tells, a knight who has raped a young maiden is sentenced to death, but granted a last-minute reprieve: if he is able to discover what women want most within a year, his life will be spared. In the end, the knight does indeed find the answer: women most desire to be in control of their relationship with their husband or lover. Geoffrey Chaucer was the author of The Canterbury Tales, a collection of stories which is one of the earliest known examples of English-language literature and has been a key influence on subsequent generations of writers. **The Wife of Bath's Prologue in Chaucer's Canterbury Tales** Kathrin Richter, 2002-04-04 Seminar paper from the year 2000 in the subject English Language and Literature Studies - Literature, grade: 1,0 (A), Justus-Liebig-University Giessen (Institute for Anglistics), course: Seminar: Chaucer, language: English, abstract: 1. Introduction Alison, the Wife of Bath, is one of the most interesting characters in Chaucer's Canterbury Tales. Her tale and her prologue to this tale are different from the other tales since here the narrator is obviously more important than the tale itself: The prologue is about twice as long as the tale itself, considerably longer than any of the other prologues to individual tales. Of Chaucer's 29

pilgrims, only three are female. The fact that it is being told from the female point of view is crucial both to the Wife of Bath's prologue and to her. The main topic of her prologue is marriage and how women should deal with their husbands. Alison displays many characteristics which were ascribed to the stereotypical 'wicked woman' in Chaucer's times and her prologue is supposed to be the typical opinion of women. However, there is more to the Wife of Bath than that. Chaucer creates a very complex individual who is the topic of the following discussion. [...]

The Disenchanted Self H. Marshall Leicester Jr., 2023-04-28 The question of the dramatic principle in the Canterbury Tales, of whether and how the individual tales relate to the pilgrims who are supposed to tell them, has long been a central issue in the interpretation of Chaucer's work. Drawing on ideas from deconstruction, psychoanalysis, and social theory, Leicester proposes that Chaucer can lead us beyond the impasses of contemporary literary theory and suggests new approaches to questions of agency, representation, and the gendered imagination. Leicester reads the Canterbury Tales as radically voiced and redefines concepts like self and character in the light of current discussions of language and subjectivity. He argues for Chaucer's disenchanted practical understanding of the constructed character of the self, gender, and society, building his case through close readings of the Pardoner's, Wife of Bath's, and Knight's tales. His study is among the first major treatments of Chaucer's poetry utilizing the techniques of contemporary literary theory and provides new models for reading the poems while revising many older views of them and of Chaucer's relation to his age. **Marriage in the 'Marriage Group Tales' of The Canterbury Tales** Simone Petry, 2006-08-24 Seminar paper from the year 2004 in the subject English Language and Literature Studies - Linguistics, grade: 2,7, University of Trier, course: Englische Sprachwissenschaft, language: English, abstract: The Canterbury Tales are a collection of twenty-three tales written by Geoffrey Chaucer in the fourteenth century. A frame tale embraces the different tales which are told by a group of pilgrims on their way from Southwark to Canterbury where the group wants to visit the sacred shrine of Saint Thomas Becket. In order to make their pilgrimage more enjoyable, the pilgrims decide that each pilgrim tells two stories on their way to Canterbury and two on the return trip. The Host will then decide which was the best tale. However, The Canterbury Tales

are incomplete. With all of the thirty pilgrims telling four stories, there should have been a hundred and twenty tales in all according to the original plan. But Chaucer only completed twenty-three tales. In the Middle Ages, pilgrimage was a social as well as a religious event. Different social classes were mingled together. All the three strata of fourteenth century English society are represented in the tales – the nobility, the clergy and the commoners. The themes in *The Canterbury Tales* are as various as the pilgrims are. Some tales deal with the corruption of the Church and religious malpractice. Therefore, a number of churchmen and churchwomen are depicted and often treated ironically. Another important theme in the tales is the corruptness of human nature which can be linked to the theme of the decline of moral values. Chivalry is depicted in some tales, often closely connected to the concept of courtly love. The position of women in the Middle Ages as well as their position in marriage relationships are themes which appear in some way or the other in almost all of the tales. Four of the tales have even been called the “Marriage Group”. The following paper is going to deal with marriage in the “Marriage Group Tales” of *The Canterbury Tales*. The first part of this paper will examine the importance of marriage in the Middle Ages and the position of women in medieval society. Then, the development of the idea of courtly love will be presented. In a second part, this paper is going to give a short survey about all the tales dealing with marriage. The idea of a “Marriage Group” in *The Canterbury Tales* will then be presented. The last section of this paper will deal with two of the tales which constitute the beginning and the end of the “Marriage Group”, namely the Wife of Bath’s Tale and the Franklin’s Tale.
