The English Settlements John Nowell Linton Myres, 1989 The dark ages of English history between the collapse of Roman rule in the early fifth century and the emergence of the Anglo-Saxon kingdoms in the seventh century are examined in this study, which draws attention to political and social factors linking Roman Britain to Anglo-Saxon England.

The Angles, the Saxons, and the Jutes John Nowell Linton Myres, 1970

ENGLISH LITERATURE ADVANCING THROUGH HISTORY 1 - Old English (Anglo-Saxon) and Medieval Periods Petru Golban, 2020-11-24 It appears that literary work possesses eternal temporal validity due to its autonomous aesthetic value, whereas criticism provides points of view having temporary and transitory significance. Despite such claims, the vector of methodology in our series of books, dealing with the history of English literature, relies on Viktor Shklovsky, T. S. Eliot, Mikhail Bakhtin, and especially Yuri Tynyanov, whose main reasoning would be that literature is a system of dominant, central and peripheral, marginalized elements – to us, “tradition” (centre) versus “innovation” (margin) engaged in a “battle” for supremacy, demarginalization, and the right to form a new literary system – and the development or historical advancement of literature is the substitution of systems. Roman Jakobson and French structuralism, on the whole, later Linda Hutcheon, with her “system” and “constant”, and Bran Nicol with the “dominant”, to say nothing about Itamar Even-Zohar and his theory of polysystem, to a certain extent Julia Kristeva, and even Homi Bhabha – as well as our humble contribution, by means of the books in the present series, we would like to believe – maintain Tynyanov’s line of thinking and concepts alive, which have developed and emerged nowadays more like a kind of “neo-formalism”.

King Arthur and the Battle for Britannia Tony Sullivan, 2024-07-30 King Arthur and the Battle for Britannia is the last in a series of three books. The first, King Arthur: Man or Myth, weighed the evidence for and against a historical figure. The second, The Battles of King Arthur, looked in detail at the famous battle list from the Historia Brittonum. Having looked at the questions of whether and where, this final book takes on the different question of who was Arthur? The book is intended to save readers time and money wading through the scores of competing theories. It explains the problems with many of these theories to date, their failure to gain widespread support and why many historians remain sceptical about the existence of a historical Arthur. There is however a reasonable consistency in medieval genealogies and a good reason why Arthur does not appear in any of the list of kings of early kingdoms. Instead he is placed in the context of a fragmenting post-Roman provincial structure, alongside the emergence of petty kingdoms with new cultural identities. A heroic Brythonic culture in the west and north and a Germanic culture in the east and south. The book looks at the evolution of the legend comparing the chivalric French Romances with the Arthur of the darker Welsh tradition. A mythical figure may have emerged from the mead halls and war band culture of the sixth century. However the book describes how a historical figure may have been mythologised and who such a warrior may have been.

A History of English Literature Michael Alexander, 2017-07-06 This comprehensive text traces the development of one of the world's richest literatures from the Old English period through to the present day, discussing a wide range of key authors without losing its clarity or verve. Building on the book's established reputation and success, the third edition has been revised and updated throughout. It now provides a full final chapter on the contemporary scene, with more on genres and the impact of globalization. This accessible book remains the essential companion for students of English literature and literary history, or for anyone wishing to follow the unfolding of writing in England from its beginnings. It is ideal for those who know a few landmark texts, but little of the literary landscape that surrounds them; those who want to know what English

literature consists of; and those who simply want to read its fascinating story. New to this Edition: - Fully revised throughout
- A full final chapter on contemporary writing, with closer attention paid to the growing diversity of literatures in English in the British Isles

Saxon art and industry in the pagan period Gerard Baldwin Brown, 1915

Towards a Four-Tiered Model of Mediation Hugo Luz dos Santos, 2023-02-13 Underpinned by a hybrid methodology (ranging from social sciences to human sciences), this book parses mediation in four perspectives, which stands as an unparalleled methodological approach so far. Mediation has long been tethered to piecemeal and haphazard approaches, which have flatly failed to capture the gist of the uniqueness of this (often) poorly latched on (and poorly understood) dispute resolution mechanism. This book argues that, in order to fully grasp the richness of such dispute resolution mechanism, mediation must be parsed in four tiers. The first tier is the social dynamics of mediation. The second tier is the cultural dynamics of mediation. The third tier is the legal dynamics of mediation. The fourth tier is the cross-border and cross-cultural dynamics of mediation. Taken together, the four tiers that premise the four-tiered model of mediation seek to unlock the finding in view of which law and social reality are tightly interlocked. In this vein, it is the underlying social reality of a given jurisdiction that should dictate the design of a pre-suit court-connected mandatory mediation with an easy opt-out, a central claim of both social dynamics of mediation (the first tier of the four-tiered model of mediation) and legal dynamics of mediation (the third tier of the four-tiered model of mediation).

The Arts in Early England: Saxon art and industry in the pagan period Gerard Baldwin Brown, 1915 The author died while several chapters of v. 6 were obviously unfinished, but no attempt was made to complete the subject-matter. The work was to have been concluded with a 7th volume discussing the illuminated manuscripts of the period.
