Camille Bacon-Smith

Doomsday Book Connie Willis, 1993-08-01 Connie Willis draws upon her understanding of the universalities of human nature to explore the ageless issues of evil, suffering, and the indomitable will of the human spirit. “A tour de force.”—The New York Times Book Review For Kivrin, preparing to travel back in time to study one of the deadliest eras in humanity’s history was as simple as receiving inoculations against the diseases of the fourteenth century and inventing an alibi for a woman traveling alone. For her instructors in the twenty-first century, it meant painstaking calculations and careful monitoring of the rendezvous location where Kivrin would be received. But a crisis strangely linking past and future strands Kivrin in a bygone age as her fellows try desperately to rescue her. In a time of superstition and fear, Kivrin—barely of age herself—finds she has become an unlikely angel of hope during one of history’s darkest hours.

Connie Willis’s Science Fiction Carissa Turner Smith, 2022-10-31 In spite of Connie Willis’s numerous science fiction awards and her groundbreaking history as a woman in the field, there is a surprising dearth of critical publication surrounding her work. Taking *Doomsday Book* as its cue, this collection argues that Connie Willis’s most famous novel, along with the rest of her oeuvre, performs science fiction’s task of cognitive estrangement by highlighting our human inability to

read the times correctly—and yet also affirming the ethical imperative to attempt to truly observe and record our temporal location. Willis's fiction emphasizes that doomsdays happen every day, and they risk being forgotten by some, even as their trauma repeats for others. However, disasters also have the potential to upend accepted knowledge and transform the social order for the better, and this collection considers the ways that Willis pairs comic and tragic modes to reflect these uncertainties.

Time is the Fire Connie Willis, 2013-08-08 This new collection of stories from the multi-award-winning author of *Doomsday Book* and *To Say Nothing of the Dog* contains: A Letter from the Clearys At the Rialto Death on the Nile The Soul Selects Her own Society Fire Watch Inside Job Even the Queen The Winds of Marble Arch All Seated on the Ground Last of the Winnebagos Ten stories - which have all won the Hugo Award, the Nebula Award or both - are compulsory reading for the serious science fiction fan.

The Best of Connie Willis Connie Willis, 2013-07-09 Few authors have had careers as successful as that of Connie Willis. Inducted into the Science Fiction Hall of Fame and recently awarded the title of Grand Master by the Science Fiction and Fantasy Writers of America, Willis is still going strong. Her smart, heartfelt fiction runs the gamut from screwball comedy to profound tragedy, combining dazzling plot twists, cutting-edge science, and unforgettable characters. From a near future mourning the extinction of dogs to an alternate history in which invading aliens were defeated by none other than Emily Dickinson; from a madcap convention of bumbling quantum physicists in Hollywood to a London whose Underground has become a storehouse of intangible memories both foul and fair—here are the greatest stories of one of the greatest writers working in any genre today. All ten of the stories gathered here are Hugo or Nebula award winners—some even have the distinction of winning both. With a new Introduction by the author and personal afterwords to each story—plus a special look at three of Willis's unique public speeches—this is unquestionably the collection of the season, a book that every Connie Willis fan will treasure, and, to those unfamiliar with her work, the perfect introduction to one of the most accomplished and best-loved writers of our time. Praise for *The Best of Connie Willis* “Filled with warmth and sadness, great drama, witty dialogue, characters you will care about and moments that you will remember for a long time.”—SFF World “If anyone can be named ‘best science fiction writer of the age,’ it’s Connie Willis, and these stories are the best of her best. Truly.”—Analog “Ranging from the hilarious to the profound, these stories show the full range of [Connie] Willis’s talent for taut, dazzling plots, real science, memorable characters, penetrating dialogue and blistering drama.”—Kirkus Reviews “Thank goodness [for] Connie Willis, who says many things that desperately need saying in more than one delightful way.”—Milwaukee Journal Sentinel “The Best of Connie Willis? Isn’t that like sorting through diamonds?”—Lytherus

Uncharted Territory Connie Willis, 2009-12-30 “Connie Willis deploys the apparatus of science fiction to illuminate character and relationships, and her writing is fresh, subtle, and deeply moving.”—The New York Times Book Review Findriddy and Carson are two explorers sent to Boohte to survey the ridges and scrub-covered hills of the planet. Back home, their adventures are followed by countless breathless fans, but the reality is far less romantic as they deal with dust, nitpicking regulations, and uncooperative aliens. Teamed with a young intern whose specialty is mating customs, and a native guide of indeterminate gender, the group sets out for a previously unexplored sector of the planet. As they survey canyons and cataracts, battle dangers, and discover alien treasures, they will soon find themselves in alien territory of another kind: exploring the paths and precipices of sex. And love.

Fire Watch Connie Willis, 2010-01-13 Winner of six Nebula and five Hugo awards, Connie Willis is one of the most acclaimed and imaginative authors of our time. Her startling and powerful works have redefined the boundaries of contemporary science fiction. Here in one volume are twelve of her greatest stories, including double award-winner *Fire Watch*, set in the universe of *Doomsday Book* and *To Say Nothing of the Dog*, in which a time-traveling student learns one of history's hardest lessons. In *A Letter from the Clearys*, a routine message from distant friends shatters the fragile world of a beleaguered family. In *The Sidon in the Mirror*, a mutant with the unconscious urge to become other people finds himself becoming both killer and victim. Disturbing, revealing, and provocative, this remarkable collection of short fiction brings together some of the best work of an incomparable writer whose ability to amaze, confound, and enlighten never fails.

Impossible Things Connie Willis, 1993-12-01 Winner of six Nebula and two Hugo awards for her fiction, Connie Willis is acclaimed for her gifted imagination and bold invention. Here are eleven of her finest stories, surprising tales in which the impossible becomes real, the real becomes impossible, and strangeness lurks at every turn. The end of the world comes not with a bang but a series of whimpers over many years in *The Last of the Winnebagos*. The terror of pain and dying gives birth to a startling truth about the nature of the stars, a principle known as the Schwarzschild Radius. In *Spice Pogrom*, an

outrageous colony in outer space becomes the setting for a screwball comedy of bizarre complications, mistaken identities, far-too-friendly aliens--and even true love.

Lincoln's Dreams Connie Willis,1992-06-01 A novel of classical proportions and virtues...humane and moving.-The Washington Post Book World A love story on more than one level, and Ms. Willis does justice to them all. It was only toward the end of the book that I realized how much tension had been generated, how engrossed I was in the characters, how much I cared about their fates.-The New York Times Book Review For Jeff Johnston, a young historical researcher for a Civil War novelist, reality is redefined on a bitter cold night near the close of a lingering winter. He meets Annie, an intense and lovely young woman suffering from vivid, intense nightmares. Haunted by the dreamer and her unrelenting dreams, Jeff leads Annie on an emotional odyssey through the heartland of the Civil War in search of a cure. On long-silenced battlefields their relationship blossoms--two obsessed lovers linked by unbreakable chains of history, torn by a duty that could destroy them both. Suspenseful, moving, and highly compelling, *Lincoln's Dreams* is a novel of rare imaginative power.

Passage Connie Willis,2002 Science fiction-roman.

To Say Nothing of the Dog Connie Willis,1998-12-01 "Willis effortlessly juggles comedy of manners, chaos theory and a wide range of literary allusions [with a] near flawlessness of plot, character and prose."—Publishers Weekly (starred review) From Connie Willis, winner of multiple Hugo and Nebula Awards, comes a comedic romp through an unpredictable world of mystery, love, and time travel. Ned Henry is badly in need of a rest. He's been shuttling between the twenty-first century and the 1940s in search of a hideous Victorian vase called "the bishop's bird stump" as part of a project to restore the famed Coventry Cathedral, destroyed in a Nazi air raid. But then Verity Kindle, a fellow time traveler, inadvertently brings back something from the past. Now Ned must jump to the Victorian era to help Verity put things right—not only to save the project but also to prevent altering history itself.

Science Fiction Culture Camille Bacon-Smith,2000 [An] inside look at this wonderfully strange universe.--

Displacing the Anxieties of Our World Ildikó Limpár,2017-01-06 Monster studies, dystopian literature and film studies have become central to research on the now-proliferating works that give voice to culture-specific anxieties. This new development in scholarship reinforces the notion that the genres of fantasy and science fiction call for interpretations that see their spaces of imagination as reflections of reality, not as spaces invented merely to escape the real world. In this vein, *Displacing the Anxieties of Our World* discusses fictive spaces of literature, film, and video gaming. The eleven essays that follow the Introduction are grouped into four parts: I. "Imagined Journeys through History, Gaming and Travel"; II. "Political Anxieties and Fear of Dominance"; III. "The Space of Fantastic Science and Scholarship"; and IV. "Spaces Natural and Spaces Artificial". The studies produce a dialogue among disciplinary fields that bridges the imagined space between sixteenth-century utopia and twenty-first century dystopia with analyses penetrating fictitious spaces beyond utopian and

dystopian spheres. This volume argues, consequently, that the space of imagination that conjures up versions of the world's frustrations also offers a virtual battleground - and the possibility of triumph coming from a valuable gain of cognizance, once we perceive the correspondence between spaces of the fantastic and those of the mundane.

Virtual Dark Tourism Kathryn N. McDaniel, 2018-04-23 This book takes the concept of “dark tourism”—journeys to sites of death, suffering, and calamity—in an innovative yet essential direction by applying it to the virtual realms of literature, film and television, the Internet, and gaming. Essays focus both on the creative construction of imaginary journeys and the historiographic and civic consequences of such memorializations. From World War II time-travel novels to Game of Thrones, and from Internet reproductions of Rwandan genocide locations to invented tragedies in futuristic domains, authors from various fields examine the purpose and influence of simulated travels to morbid sites. Designed for a wide audience of scholars and travelers virtual and real, this volume raises awareness about the many pathways through which we encounter death experiences in contemporary society. What we know about the past—or, what we think we know about it—is shaped daily by such imagined journeys as these.

Remake Connie Willis, 2009-10-21 Winner of more Hugo and Nebula Awards than any other science fiction author, Connie Willis is one of the most powerfully imaginative writers of our time. In *Remake*, she explores the timeless themes of emotion and technology, reality and illusion, and the bittersweet place where they intersect to make art. It's the Hollywood of the future, where moviemaking's been computerized and live-action films are a thing of the past. It's a Hollywood where Humphrey Bogart and Marilyn Monroe are starring together in *A Star Is Born*, and if you don't like the ending, you can change it with the stroke of a key. A Hollywood of warmbodies and sim-sex, of drugs and special effects, where anything is possible. Except for what one starry-eyed young woman wants to do: dance in the movies. It's an impossible dream, but Alis is not willing to give up. With a little magic and a lot of luck, she just might get her happy ending after all.
