Material Nick Kary, 2020-09-24 An important book, brimming with insight.—Nicholas Evans, author of *The Horse Whisperer* A master craftsman explores the ways in which working with our hands reveals the essence of both our humanity and our relationship with the natural, material world. In our present age of computer-assisted design, mass production and machine precision, the traditional skills of the maker or craftsman are hard to find. Yet the desire for well-made and beautiful objects from the hands (and mind) of a skilled artisan is just as present today as it ever has been. Whether the medium they work with is wood, metal, clay or something else, traditional makers are living links to the rich vein of knowledge and skills that defines our common human heritage. More than this, though, many of us harbor a deep and secret yearning to produce something – to build or shape, to imagine and create our own objects that are imbued not only with beauty and functionality, but with a story and, in essence, a spirit drawn from us. Nick Kary understands this yearning. For nearly four decades he has worked on commission to make fine, distinctive furniture and cabinets from wood, most of it sourced near his home, in the counties of South West England. During this time, he has been both a teacher and a student; one who is fascinated with the philosophy and practice of craft work of all kinds. In *Material*, Kary takes readers along with him to visit some of the places where modern artisans are preserving, and in some cases passing on, the old craft skills. His vivid descriptions and eye for detail make this book a rich and delightful read, and the natural and cultural history he imparts along the way provides an important context for understanding our own past and the roots of our industrial society. Personal, engaging, and filled with memorable people, landscapes and scenes, *Material* is a rich celebration of what it means to imagine and create, which in the end is the essence of being human, and native to a place. As Kary puts it, “Wood and words, trees and people, material and ethereal – it is here I love increasingly to dwell.” Perfect for fans of *The Hidden Life of Trees* or *Norwegian Wood*, *Material* is a rich, inspiring read for woodworkers, potters, craftspeople, bibliophiles and anyone who enjoys working with their hands.

[The Smoke Jumper](#) Nicholas Evans, 2002-07-30 In a searing novel of love and loyalty, guilt and honor, the acclaimed author of the #1 New York Times bestseller *The Horse Whisperer* gives his millions of readers another hero... *The Smoke Jumper* His name is Connor Ford and he falls like an angel of mercy from the sky, braving the flames to save the woman he loves but knows he cannot have. For Julia Bishop is the partner of his best friend and fellow “smoke jumper,” Ed Tully. Julia

loves them both--until a fiery tragedy on Montana's Snake Mountain forces her to choose between them, and burns a brand on all their hearts. In the wake of the fire, Connor embarks on a harrowing journey to the edge of human experience, traveling the world's worst wars and disasters to take photographs that find him fame but never happiness. Reckless of a life he no longer wants, again and again he dares death to take him, until another fateful day on another continent, he must walk through fire once more...

Encyclopedia of American Popular Fiction Geoff Hamilton, Brian Jones, 2010-05-12 Covers contemporary authors and works that have enjoyed commercial success in the United States but are typically neglected by more literary guides. Provides high school and college students with everything they need to know to understand the authors and works of American popular fiction.

Little Things in a Big Country Hannah Hinchman, 2004 Whether chasing gophers (Sisu) or flirting with cowboys at the Buckhorn Bar (Hannah), artist Hannah Hinchman and her dog Sisu are excellent guides to some of the wildest country left in America. Treading carefully near a sandhill crane's nest, testing the ice on the river, and marveling at the seasonal influx of ducks, this pair of curious naturalists takes us into the intimate corners of western Montana, inquiring into all natural phenomena—which Hannah then captures on the page in detailed sketches, notes, and watercolors. If Annie Dillard were an artist, she might have composed a book like this. But few writers, or artists, can bring words and images together like Hannah Hinchman. Insightful, funny, and personal, she not only enables us to enter her own particular patch of the natural world, she also teaches us to see our own, bringing to her work an exceptional unity of hand, eye, and heart.

The Love Of Money Lesley Broster Kinch, 2016-06-06 The Love Of Money tells the story of three young men whose paths cross in the New World. Jan De Kuyper is a rapist and killer. Marc Storm seeks justice for his victim. Tomas Van Orden is a pirate hunter on a personal mission to right a wrong. The Love Of Money is set in the 17th century against a backdrop of slavery, pirates, Native Americans and the colonisation of the New World by feuding European nations.

The Divide Nicholas Evans, 2005 When a murder suspect's body is found frozen in the ice of a remote mountain creek, the subsequent investigation poses unsettling questions about how a promising young woman from a loving family could engage in acts of killing and ecoterrorism.

Patterns of Management Power Russell McCalley, 2002-05-30 Management is helpless without the power to direct and control the pursuit of well-defined corporate goals. McCalley identifies six distinct patterns of power within organizations, arguing that management can and must use all of them creatively and ethically for the organization's benefit. Top-down position power is familiar, but not the only option. McCalley identifies others along with their sources, patterns of development, and common use—often abused—in recognizable management situations. Managers need to use their authority and power to drive the energy of dynamic organizations, asserts McCalley, but they must learn to do it without creating

factionalism and conflict, and without subjugating subordinates. Surprising insights into the mystery of why otherwise competent managers often fail are mixed with practical wisdom for executives, teachers, and students who will one day assume positions of power. Among the book's special characteristics is McCalley's comprehensive discussion of the impacts that every type of power, authority, influence, and leadership can have, what their basic sources are, and how their structural and functional effects impact the ability to manage.

Dragon Sea Frank Pope, 2014-08-19 Frank Pope pulls back the curtain on the intensely competitive underworld of shipwrecks in this thrilling story of treasure hunting gone wrong. When Oxford archeologist Mensun Bound—dubbed the Indiana Jones of the Deep by the Discovery Channel—teamed up with a financier to salvage a sunken trove of fifteenth-century porcelain, it seemed a dream enterprise. The stakes were high: The Hoi An wreck lay hundreds of feet down in a typhoon-prone stretch of water off the coast of Vietnam known as the Dragon Sea. Raising its contents required saturation diving, a crew of 160, and a fleet of boats. But the potential rewards were equally high: Bound would revolutionize thinking about Vietnamese ceramics, and his partner would make a fortune auctioning off the pieces. Or so they thought. In *Dragon Sea*, Pope delivers an engrossing tale of danger, adventure, and ambition—a fascinating lesson in what happens when scholarship and money join forces to recover lost treasure.

Biologist Helen Ross has come to Hope from the East, fleeing a life in shambles, determined to save the wolves from those who seek to destroy them. But an ancient hatred awaits her in Hope, a hatred that will tear a family and ultimately the community apart. The Brave Nicholas Evans, 2025-05-01 There's little love in eight-year-old Tom Bedford's life. His parents are old and remote and the boarding school they've sent him to bristles with bullies and sadistic staff. The only comfort he gets is from his fantasy world of Cowboys and Indians. But when his sister Diane, a rising star of stage and screen, falls in love with one of his idols, the suave TV cowboy Ray Montane, Tom's life is transformed. They move to Hollywood and all his dreams seem to have come true. Soon, however, the sinister side of Tinseltown casts its shadow and a shocking act of violence changes

their lives forever. What happened all those years ago remains a secret that corrodes Tom's life and wrecks his marriage. Only when his estranged son, a US Marine, is charged with murder do the events resurface, forcing him to confront his demons. As he struggles to save his son's life, he will learn the true meaning of bravery. Powerfully written and intensely moving, *The Brave* traces the legacy of violence behind the myth of the American West and explores our quest for love and identity, the fallibility of heroes and the devastating effects of family secrets.
