The Pragmatics of Quoting Now and Then Jenny Arendholz,Wolfram Bublitz,Monika Kirner-Ludwig,2015-07-31 In examining the phenomenon of quoting from multiple angles, The Pragmatics of Quoting Now and Then offers a fresh view on the forms, functions and usage of quoting as a meta-communicative act in various forms of old (printed) and new (electronically mediated) communication, setting it apart from (seemingly) related acts like repeating or referring. Recent interest in the formal (copy-paste quoting) and ethical (quoting as plagiarizing) aspects of quoting has been gaining considerable momentum in linguistics (and other disciplines), predominantly fuelled by enormous technological progress and the impact on both the procedure of quoting itself and its appraisal in public discourse. Embracing a broad, interdisciplinary perspective, the authors pay special tribute to the inherent complementarity of both synchronic and diachronic perspectives. With contributions pinpointing the formal and functional evolution of quoting and tracing trends in linguistic variation, this volume brings together interpersonal pragmatics, sociolinguistics, historical, cognitive and text linguistics as well as cultural studies. In this way, the present title provides a more comprehensive and integral understanding of the nature of quoting.

Wisdom from God the Father ,2014-05-30 This book makes the case that one should not live his or her life by wisdom learned from mob bosses or other fictional characters. It makes the case that the Bible should be one's source of wisdom. Wisdom cries aloud in the street; she raises her voice in the markets. She cries at the...noisy intersections... (Proverbs 1:20-21, AMP) Robert Gross, takes a look at the so-called wisdom contained in The Godfather scripts and compares it to what the Bible has to say about the matter.

Characteristics and Functions of Direct Quotes in Hispanic Fiction Isolde J. Jordan,2001 The application of pragmalinguistic methods of analysis to literature is often difficult due to the special and unique way language is used in a written literary work. Based on the assumption that literature is an act of communication, Isolde J. Jordan applies communication models, such as Bühler's, Jacobson's, and Ducrot's, and theories of relevance, information and dialogue structure, and foregrounding to direct quotations taken from Hispanic fiction. Jordan shows how direct speech reporting can facilitate the interpretation of fiction by creating context, enhancing relevance, and by foregrounding information, and thus speaking directly to the reader.

**Camera and Action** Elaine M. Bapis,2014-01-10 This study examines the changes in the American film industry, audiences, and feature films between 1965 and 1975. With transformations in production codes, adjustments in national narratives, a rise in independent filmmaking, and a new generation of directors and producers addressing controversial

issues on the mainstream screen, film was a major influence on the social changes that defined these years. After a contextual history of film during this era, several key films are discussed, including *The Graduate*, *Alice's Restaurant*, *Easy Rider*, *Midnight Cowboy*, *M\*A\*S\*H*, *McCabe and Mrs. Miller*, *Little Big Man*, and *The Godfather* series. The author describes how these films represented a generation, constructed and deconstructed American culture, and made important contributions during ten years of great change in America. Instructors considering this book for use in a course may request an examination copy here.
